The way to build up Oregon City is to give Oregon City People your Patronage.

The unions among the miners in Idaho are all broken up and the people living there are pleased on that account.

It is said that the democrats will hold an early convention next year and get ahead of the populists in hope that the latter will endorse the former's ticket. The democrats will put up the job all right.

The great increase in trade keeps up. All factories are running without being able to fill the orders received. Prices are going up and business failures are few. Still some people are talking about 16 to 1.

The flax industry of this state deserves to receive more attention than it does. The farmers must raise something besides wheat and flax when it is a success, pays well. All indications are that Oregon can produce as good flax as grown.

The damage to grain is not so great as was at first believed. Oats seem to be in worse shape than wheat. It is not believed that wheat in this county is damaged to exceed twenty per cent and much of this can be used for flour. The balance will make feed for stock.

HENRY WATTESSON has always supported the gold standard and expansion in his paper but now he is supporting Goebel for governor of Kentucky, who, with Blackburn are ardent supporters of Bryan. Many matters get mixed in Kentucky.

JOHN C. YOUNG, of populist fame says that silver is dead and that Bryan will not stand a ghost of a show if nominated and that the republicans will win in the next presidential campaign. These are indeed facts and the republicans have recognized them for some time.

It is now understood that Oregon will have four Spanish guns to be placed around the monument to be erected to commemorate the dead volunteers. It is hoped that this can be done and the monument have around it some of the guns that these heroes helped to capture.

QUAY controlled the state convention in Pa. The McKinley administration is endorsed as well as that of Gov. Stone. The latter is commended for his appointment of Quay to the senate. The fight is on and it is to be seen if this man who has dominated the state so long has yet the control.

ALL evidence points to the fact it is only a question of time when China will be divided and opened to the trade of the world. In this event the holding of the Philippines will be of incalculable benefit. The benefit to both capital and labor would be great and every citizen is interested in bringing about this result.

The long over-due ship McDuff has arrived from Calcutta, being 192 days

out. Her slow trip and lack of supply here raised the price of grain bags materially, she being loaded with this article and burlap for hop bales. She was almost given up for lost and had been re-insured. She brought four million sacks and her arrival will help the farmers out, something they need at present.

It is reported that the assessor of Multnomah county is lowering the assessment of that county nearly one-half. In that case the county will pay only one-half of the state tax that it otherwise did and the other counties will have to make up the difference. This is the strongest kind of evidence that there should be a state equalization board. It is now a race to see which county can get out of the most state taxes and with no equalization board the assessments as made will have to stand.

Born sides are arming in South Africa and rushing war preparations. The tension has been great for a long time and does not lessen. With a majority of the citizens in the Transvaal believing that they are kept from their lawful rights it will be almost impossible to keep hostilities down with both sides armed. Unless some relief comes to the strained conditions soon, Kruger will be in a fight that he cannot master. He has held the Transvaal for years for the Boers but the pressure is too strong for the foreigners to longer be ignored and their rights will have to be recognized.

ARMY men now recognize and openly discuss the fact that the Filipinos will come to the war in the fall not only refreshed and encouraged but with large resources in both arms and money. Men, they have to spare. They control the revenues of a rich section of country as well as a great amount of treasure impressed into service. The Filipinos are encouraged by the reports from this country and profess to believe that congress will vote against annexation. If this should not be done the plan is to draw the fight out and get it into the next campaign. This is the way the copperheads of this country make it difficult for our soldiers to conquer the Philippines.

Story of a Slave.

To be bound hand and foot for years by the chains of disease is the worst form of slavery. George D. Williams, of Manchester, Mich. tells how such a slave was made free. He says: "My wife has been so helpless for five years that she could not turn over in bed alone. After using two bottles of Electric Bitters, she is wonderfully improved and able to do her own work." This supreme remedy for female diseases quickly cures nervousness, sleeplessness, melancholy, headache, backache, fainting and dizzy spells. This miracle working medicine is a godsend to weak, sickly, run down people. Every bottle guaranteed. Only 50 cents. Sold by Geo. A. Harding Druggist.

A Mother Tells How She Saved Her Little Daughter's Life.

I am the mother of eight children and have had a great deal of experience with medicines. Last summer my little daughter had the dysentery in its worst form. We thought she would die. I tried everything I could think of, but nothing seemed to do her any good. I saw by an advertisement in our paper that Chamberlain's Colic, Cholera and Diarrhoea Remedy was highly recommended and sent and got a bottle at once. It proved to be one of the very best medicines we ever had in the house. It saved my little daughter's life. I am anxious for every mother to know what an excellent medicine it is. Had I known it at first it would have saved me a great deal of anxiety and my little daughter much suffering.—Yours truly, Mrs. Geo. F. Burdick, Liberty, R. I. For sale by G. A. Harding, Druggist.

Embarrassing Remembrance.

It is only the tactful people who should be allowed to give personal reminiscences, but unfortunately they are not the only ones who do give them.

"How well I remember your father, when I was a little girl" lately said an elderly woman to a Massachusetts clergyman. "He used to come often to our house to dinner. We were always delighted to see him, children and all."

"That is very pleasant to hear," said the clergyman, with a smile; but the narrator remained gravely unconscious of his interruption.

"I remember what a hearty appetite he had," she continued, blandly. "It was a real pleasure to see him eat. Why, when mother would see him coming along the road of a morning in his buggy she'd send me running out to cook and say, 'Tell Bridget to put on just twice as much of everything as she had planned, for here is Mr. Brown coming to dine with us!'"

The eminent son endeavored to preserve a proper expression of countenance at this interesting reminiscence, but his composure was sorely tried when, with great cordiality, the lady said:

"You're so much like your father! Won't you go home to dinner with me?"—Youth's Companion.

Hotel Keys His Fad.

"I know a drummer," said a local traveling man, chatting with a party of friends, "who has decorated one of the walls of his bachelor apartments with a trophy composed entirely of hotel keys. It is the queerest thing I ever saw in my life. The keys are arranged in a huge circle, and each of them is attached to a metal tag, some round, some square, some triangular—in fact, they are of every imaginable size and shape, and of all kinds of material, from cast iron to aluminum."

"In the middle of the decoration is a cluster of enormous specimens, most of them battered and rusty, and looking as if they might have locked the gates of ancient fortresses. They came from village taverns where modern improvements are unknown. All the keys in the collection—and I am sure there are at least 300—have been stolen from different hotels throughout the country."

"Their present owner, or rather their present possessor, told me that he began getting them together several years ago, and wherever he chanced to stop he always made a point of carrying away his room key."—New Orleans Times-Democrat.

On the Verge.

He considered it a parental duty to see that his daughter kept only the very best marriageable company.

"Mary," said her father, "you have been going with that Mitchell fellow for more than a year now. This courtship must come to a termination."

"Oh, pa, how can you talk so? He is, oh, so sweet and nice!"

"Ah!" And the fond father arched his eyebrows. "Sweet and nice, eh? Has he proposed?"

"Well, pa, not exactly." And the girl hung her head and fingered the drapery of her dress. "He hasn't exactly proposed; but, then, last evening, when we were out walking, we passed by a nice little house, and he said, 'That's the kind of cottage I am going to live in some day,' and I said 'Yes,' and then he glanced at me and squeezed my hand. Then, just as we got by, I glanced back at the cottage, and—and I squeezed his hand, pa."

"Oh, ah, I see! Well, we'll try him another week or two."—London Tit-Bits.

Thrashing a King.

During the Ashland campaign there was a grotesque exhibition of a native policeman's indifference to the "divinity that doth hedge a king." General Colley, then the major commanding the transport column, writing to his sister, describes how one monarch had his foolishness driven out of him by "the rod of correction." He says: "I am afraid one's idea of the majesty 'that doth enshroud a king' is not exacted in this country. At one station on my way down I heard a row in camp during the night and the next morning sent to inquire what it was. A native police corporal of mine, a first rate fellow, came up and saluted."

"Heard row in Mankassin camp last night, sir. Found king making great noise, gambling with his subjects. Very bad form, sir. Gave king great thrashing, sir."

Geo. A. Harding.

The ascent is certain from we a k lungs, lingering cough, throat troubles or bronchial affections through bleeding lungs to consumption, if the first stages are neglected. Thousands of people who are now in their graves would be alive and well to-day if they had heeded the first warnings of those troubles which lead to consumption and death.

The hacking cough, spitting of blood, weak lungs, and all similar troubles of the organs of breathing, will surely lead to consumption, if they are not already the signs of it. Then there are the other indications of the approach of consumption, such as night-sweats, emaciation, or wasting away of flesh from bad nutrition, which, if neglected, lead to certain death.

Ninety-eight per cent of all the cases of weak lungs, bleeding lungs, lingering and obstinate coughs, and other troubles of the respiratory system, which have been treated with Dr. Pierce's Golden Medical Discovery, have been cured by it. Do not wait until your throat trouble becomes serious. All bronchial and throat troubles are serious. The time to take the "Golden Medical Discovery" is right at the start.

Even if your throat trouble has been neglected until it has become pronounced pulmonary disease or consumption, do not hesitate to use the "Golden Medical Discovery," for thousands of letters from the sufferers themselves, who are now well, bear evidence that the "Golden Medical Discovery" will cure, even after good physicians have pronounced the disease pulmonary consumption.

"I had been troubled with bronchitis for several years," writes Mrs. Olin O'Hare, Box 114, Fergus Falls, Ottertail Co., Minn. "In the first place, I had sore throat. I doctored with different physicians and took various medicines, but got no relief. I choked from my throat a sticky substance like the white of an egg. Could not sleep and had made up my mind that I would not live through the winter. I took Dr. Pierce's Golden Medical Discovery and 'Favorite Prescription' alternately, and in a few days began to see that I was better. I took eight bottles. I have not felt as well in years as since using these medicines."

For Young Men and Young Women.

There is nothing that will arouse the ire of a young man or woman so quick as to have inferior laundry work put off on them. They may dress ever so well, but if their shirt front or shirt waist is mussed their neat appearance is spoiled. The Troy laundry makes a specialty of ladies' and gentlemen's fine work. There can be no better work than is done at the Troy. Leave your orders at Johnson's barber shop.

During the civil war, as well as in our late war with Spain, diarrhoea was one of the most troublesome diseases the army had to contend with. In many instances it became chronic and the old soldiers still suffer from it. Mr. David Taylor of Wind Ridge, Greene Co., Pa., is one of these. He uses Chamberlain's Colic, Cholera and Diarrhoea Remedy and says he never found anything that would give him such quick relief. It is for sale by G. A. Harding, Druggist.
