The way to build up Oregon City is to give Oregon City People your Patronage.

Oom Paul is doing what he can in his modest way to make the world forget the Dreyfus case.

It must be about time for the democratic leaders to hold another national conference in Chicago. They have not had one now for two days.

The democratic campaign for 1900 will call for the destruction of American credit and business at home and the destruction of American honor abroad.

The state fair just closed was one of the most successful ever held and while no money was made all bills were paid and races were conducted to meet the approval of horsemen.

Spain protested against the honors shown Dewey by the powers of Europe but with no effect. Europe is not seeking to offend America. The Spanish war did it and the advantages gained should be held on to.

Where They Disagree.

Mr. Lentz of Ohio refers to Mr. Atgeld as "the brains of the democratic party." The next time Mr. Bryan meets Mr. Lentz their conversation will be somewhat formal.

When 75,000 people turn out to open the campaign for the republicans in Ohio it does not look like the republicans were going to lose. Roosevelt opened the campaign at Akron with a rousing speech for the administration.

In the opinion of Governor Pingree, the Chicago trust conference was of great value, "because it separated the chaff from the wheat." This is a tribute to the windiness of the debate that was hardly to be expected from that source.

GOEBEL, the democratic nominee for governor of Kentucky, worked for sound money in '96, but this year he is working for Goebel and any old money. Mr. Goebel is plentifully supplied with self-reversing gearage.—New York Mail and Express.

LOUBET's pardon of Dreyfus shows that all France is not like the general staff of the army. Dreyfus and his friends announce that they shall not rest until they have shown the guilty parties. The world is now convinced and France soon will be, that the army is responsible for the humiliation their nation is bearing.

It would seem that Classical Boston gets stirred up once in awhile. At the recent democratic state convention it took one hundred policemen to preserve order in the hall and a captain of police had to mount the platform to induce a congressman to subside so that the chairman might get in a few words. Harvard and Boston Common have no effect on a democratic convention. They have a peculiar way of their own the country over.

CONGRESSMAN BARCOCK, a member of the republican caucus finance committee says that he has the copy of the bill that the committee drew up and that it will be introduced at the next session. The bill is avowedly and explicitly for the gold basis. It is said that the senate committee has not yet concurred but will on about the same lines. The bill is likely to pass both houses at the coming session.

EQUALITY of the sexes has been reached in parts of England, if we can believe a returned labor delegate. "The difference in sex," he says, "seemed to be lost sight of." He saw the women "going about in clogs, dressed in men's clothing, in blacksmith and other shops, wielding the sledgehammers with the men." Yet some people are hard to please, and the delegate regards this equal condition as "deplorable."

EASTERN Washington, Idaho and Oregon are waking up to the importance of an open river. A strong effort is being made to construct a portage railway at The Dalles preliminary to the construction of locks and a canal. The amount of traffic tributary to the upper Columbia and the area benefitted warrants the general government in building the canal and locks. Considerable money will be required but the benefits are commensurate.

JERRY SIMPSON undertook to praise Aguinaldo at a G. A. R. reunion and was booted off the platform. Jerry is like some of the people nearer home. He does not understand the temper of the American people. When the demagogues realize that they cannot fool the people into the belief that the Filipinos are to be harmed by American control they will stop, and not until then. These agitators are inspired by the belief that they will gain some political advantage by opposing the administration in its conduct of the campaign in the Philippines. When the ballots are counted after the first vote where the people can express themselves you will hear no more of these wind jammers.

News of the Week

Friday, September 22.

(concluded on page eight.)

What Makes Home?

Home is made by the family. Without the love which comes with children there may be a house but never a home, in the best meaning of the word.

"I had been a sufferer from urticaria trouble for about three years, having two miscarriages in that time and the doctors that I consulted said I would have to go through an operation before I could give birth to children," writes Mrs. Blanche R. Evans of Parsons, LaSalle Co., Pa.

Dr. Pierce's Medical Adviser a work for every woman is sent free on receipt of stamps to pay cost of mailing only.
