As he reached the highest part the expected happened. His wheel suddenly went over the bluff but he, by rare good luck, fell on the track without sustaining any injury. As he climbed down to secure his wheel a bystander advised him to keep to the lower road and he "guessed he would."

Uncle Sam's Only "Tip." Tips given to Pullman car porters by government employees while performing official duties are considered legitimate charges against Uncle Sam. They are the only tips which are accorded this distinction. This interesting fact has just been gleaned through the display by a government official of a bill of expenses which he intended to present for a recent trip which he made in the service of the government. He exhibited the statement as an evidence of the close manner in which the government did business. He had to present a receipt for every expenditure made, even a receipt from the Pullman car conductor for his berth.

The only item for which there was no receipt was "Tips, 50 cents." When asked what the tips were for, the officer said: "They were tips which I gave to Pullman car porters. The government allows those, but they are the only tips which are allowed. If I tip the waiter at my hotel or the man who carries my bag, the tip comes out of my pocket, but the tipping of Pullman car porters, a quarter for each journey made on a sleeper, is such a recognized custom that the item for such tips is always allowed by the government to officers when traveling on government business."-New Orleans Times-Demo-
