

CORRESPONDENCE

BORING.

BORING, Oct. 3.—Once more threshing is over and farmers are wearing smiling faces. They seem to be well pleased as their crops turned out pretty well. Vetsch & Sons threshed the largest crop, being 3140 bushels, consisting of wheat and oats. They raised their crop off of 52 acres, making an average of 60 5-13 bushels per acre. Oats going 68 11-35 bushels per acre and wheat 44 1-17 per acre. Vetsch & Sons are among the best farmers in Clackamas county and without doubt they raise more bushels to the same amount of acres than any other farmer in Clackamas county. They also run a creamery in connection with their farm. They gather cream from their neighbors which makes it quite convenient and we have a market for our butter without going to Portland.

A large detachment of nimrods moved out upon the firing line about daybreak Sunday morning. The attack was almost immediately begun and an intermittent fusillade was maintained until noon after which there was a gradual cessation. At the outset the mongolians were completely surprised but they retreated in good order leaving few dead upon the field. No casualties were reported among the nimrods but it is said that great numbers are disheartened and will surrender their arms for the government bounty of \$40 or even less. Some of the nimrods who marched out with hopes of a high order and whose subsequent shooting was of the same high character are said to now be in sympathy with the Tagals.

A prominent citizen sees a great future for Canby prairie. He says that as soon as the sand decays the soil will be of unparalleled richness.
