Correspondents are requested to be careful in writing proper names to write in a way that no mistake may be possible. The "intelligent composers" can guess at the general run of the items but proper names ought to be legible. The county commissioners met in regular session Wednesday. The business for this term promises to be much shorter than usual, owing to a falling off in the amount of road work for September.

The indications are very promising and Mr. Hutson expects to leave about the 20th to look after his property. Word has been received from the superintendent of the insane asylum that W. Dougherty, a patient credited to Clackamas county, had died there on Sept. 18th. Dougherty was a laborer who was committed from here on Feb. 8, 1895, and his home or relatives were unknown.

The social given at the Y. M. C. A. Wednesday evening proved to be a very pleasant affair. Tuesday forenoon Justice Schuebel's court room was crowded with people interested in the preliminary hearing of Thos. Dunne, who was charged with perjury, in falsely swearing to a marriage license affidavit. Deputy District Attorney Dimick appeared for the state and presented evidence tending to show the guilt of the accused. Geo. C. Brownell appeared for defendant and raised the point that the prisoner had not been identified as the man guilty of the crime and moved that the case be dismissed. Judge Schuebel was of the same opinion and readily granted the motion and Thos. Dunne walked out of the court room with the stigma of an infamous crime removed from his name.

Prohibits the Use of Arsenic or Alum in all Articles of Diet.

The law enacted by the Missouri legislature, a copy of which was recently published in our columns, and which prohibits the manufacture or sale of any article intended for food or to be used in the preparation of food, which contains alum, arsenic, ammonia, etc., places that state in the lead in the matter of sanitary legislation. Laws restricting the use of alum in bread have been in force in England, Germany and France for many years. In this country, in Minnesota, Wisconsin, Michigan, Ohio, Kentucky and several other states, direct legislation in reference to the sale of alum baking powder has also been effected. In several of these states their sale is prohibited unless they are branded to show that they contain alum, and in the District of Columbia, under the laws of Congress, the sale of bread containing alum has been made illegal. Following are the names of some of the brands of baking powder sold in this vicinity which are shown by recent analysis to contain alum. House-keepers and grocers should cut the list out and keep it for reference:

- Baking Powders Containing Alum. K. C. ... Contains Alum Manf. by Jaques Mfg. Co., Chicago. CALUMET ... Contains Alum Manf. by Calumet Baking Powder Co., Chicago. HOME ... Contains Alum Manf. by Home Baking Powder Co. San Fran. WASHINGTON ... Contains Alum Manf. by Pacific Chemical Works, Tacoma. CRESCENT ... Contains Alum Manf. by Crescent Mfg. Co. Seattle. WHITE LILY ... Contains Alum Manf. by D. Ferrera & Co., Tacoma. BEE-HIVE ... Contains Alum Manf. by Washington Mfg. Co. San Fran. BON-BON ... Contains Alum Manf. by Grant Chemical Co., Chicago. DEFIANCE ... Contains Alum Manf. by Portland Coffee & Spice Co. Port. PORTLAND ... Contains Alum Manf. by Best & Bailis, Portland. The housekeeper should bear in mind that alum makes a cheap baking powder. It costs but two cents a pound while cream of tartar costs thirty. The quality of the powder is therefore usually indicated by the price.

\$100 Reward \$100. The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucus surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer \$100 for any case that it fails to cure. Send for list of testimonials. Address, F. J. CHENEY & Co., Toledo, O. Mr. Davis their representative, may be seen any afternoon or evening at Burmeister & Andresen's store. During the winter of 1897 Mr. James Reed, one of the leading citizens and merchants of Clay, Clay Co., W. Va., struck his leg against a cake of ice in such a manner as to bruise it severely. It became very much swollen and pained him so badly that he could not walk without the aid of crutches. He was treated by physicians, also used several kinds of liniment and two and a half gallons of whisky in bathing it, but nothing gave any relief until he began using Chamberlain's Pain Balm. This brought almost a complete cure in a week's time and he believes that had he not used this remedy his leg would have had to be amputated. Pain Balm is unequalled for sprains, bruises and rheumatism. For sale by G. A. Harding, Druggist. COUNTY WARRANTS. We pay a premium for Clackamas County and Oregon City warrants. Teacher's Meeting.

A very pleasant meeting of the Clackamas County Teachers' Association was held at Lowell's hall in Springwater, Saturday, September, 30, 1899. Called to order at the usual hour by the president, N. W. Bowland. The minutes of the previous meeting, prepared by the secretary, Fannie G. Porter, were read and approved. The names of Misses Smith and Messig, of Portland, Ada McLaughlin, Minnie Cornett and Ora Lawllyn of Clackamas county, were added to the membership roll of the Association. "How to Make the Course of Study Effective?" was the subject assigned to T. J. Gary, of West Oregon City. Mr. Gary spoke at length on this subject, advancing many practical and helpful ideas. The subject was also discussed by Prof. Zinser, L. L. Moore and Ara McLaughlin. As a committee to map out the work by month, Supt. Bowland appointed T. J. Gary, J. C. Zinser, L. L. Moore, Jennie E. Bowen, N. W. Bowland, J. W. Gray, Fannie G. Porter. Mr. Stahnecker spoke on "Composition Writing" presenting his method of teaching the same. A spirited discussion followed, in which Miss F. G. Porter and Messrs. T. J. Gary, H. S. Gibson, L. L. Moore, Ara McLaughlin and Supt. Bowland took part. L. L. Moore talked on "Professional Reading" dwelling on the teachers' need of inspiration in his daily work. A resolution of thanks was offered the good people of Springwater for their kindness and hospitality. The people of this place take a great interest in educational work, and strive to render the meetings held there something to be remembered with pleasure. On behalf of those present, Mr. Lowell tendered an invitation to the teachers present to remain at Springwater until next day, which kindness was fully appreciated. The next place of meeting was left to the selection of the superintendent and will be announced later. On motion, Association adjourned to meet again the last Saturday in October. BERTHA M. GIBSON.

Washing Dish Cloths. Kitchen cloths must, of course, be washed daily, otherwise they harbor grease and odors and become unhealthy. They should be made of knitted crocheted cotton, in a square or suitable size. When you wash them, if you will add a teaspoonful of Gold Dust Washing Powder to the hot water, it will cut the grease and clean them in half the time; dry them out in the sunshine and air. Rolling Mill Consumption

Seven out of every ten men who work in rolling mills, iron foundries and glass factories die of consumption. You know how early in life these men pass away. The usual symptom is a nagging, persistent cough—sometimes short and hacking, sometimes hard and dry. The patient grows weaker and thinner day by day. Death eventually conquers. The trouble comes from intense heat and the constant inhaling of the fine particles of dust and iron that fill the air. These particles, under a microscope, show ragged, sharp edges, which tear and mutilate the delicate lining of the throat and lungs. Perpetual sores are thus formed, and here it is that the germ of consumption finds a place to feed and multiply. Acker's English Remedy was discovered in England, and is the only cure in the world for Rolling Mill Consumption. It heals up the sores, strengthens the mucous membranes of the breathing organs, permanently stops the cough, builds up the constitution and imparts vigor to the whole system. It must either cure or it costs you nothing. One bottle does wonders. Try it. What it has done for many others it will also do for you and your loved ones. Sold at 25c, 50c, and \$1 a bottle throughout the United States and Canada; and in England at 1s. 2d., 2s. 3d., 4s. 6d. If you are not satisfied after buying, return the bottle to your druggist, and get your money back. We guarantee the above guarantee. W. H. HOOKER & CO., Proprietors, New York. For sale by Geo. A.
