Most of the farmers are very busy digging their potatoes and getting in full crops.

Mrs. Hubbard and daughter, Ollie, have gone to California to spend the winter.

Mr. Becker and his two sons Fred and John, started to Portland in great style the other morning. They passed along the road with their high-stepping team, but it was not a very long time until they were seen coming back very muddy and crest-fallen. The kid gloves had vanished and their hands looked very much like they needed a wash pan of water instead. The cause of their condition was that the wagon parted in the middle and the horses went on with the front wheels while the back ones remained in the road. The horses were soon caught and no further damage was done.

Mr. Robert Davis and son Cland, from Washington, are visiting relatives here.

Prof. Stalacker, who is teaching the Clackamas school was visiting friends here last Sunday.

STAFFORD, Oct. 30.—The past week has been very rainy a few more days like the past and ditches will begin to carry water.

Many are the cases of colds.

The annual tooth ache time is at hand and those without an aching jaw are an exception.

The Oswego butcher did not make his regular rounds through this neighborhood Saturday last.

This has been the best season for young clover there has been for years, as all that was sown made a good growth and also all fields that had ever been in clover has come on volunteer and in many it looks like a shame to turn such a splendid stand under.

Notwithstanding the evening was stormy the A. O. U. W's had a good attendance at their last meeting.

Needy News.

NEEDY, Nov. 2.—Everybody and all his friends are digging potatoes.

An assistant has been added to the school and both rooms are now in session.

The new bridge at this place is completed and is a credit to the town as well as the supervisor, who had charge of its construction. The grade on the west end of the bridge has been minimized, so that it can no longer be classed with the many steep hills of the county.

Clackamas county has rebuilt its part of Pudding river trestle, between here and Hubbard, during the past year; while Marion county's part of the same trestle is patched and repatched until the original is completely lost sight of. Two inch plank, worn to a little more than half their original size, interspersed every six or eight feet with a new three inch plank does not make a very agreeable road to drive over. But, if Marion county officials have other use for their funds we will not complain if we have to lash our mortal frames to our buggy seats to prevent being thrown out by its corrugated trestles.

Great was the consternation and wide-spread was the fear during the past ten days caused by the terrific roars of some wild beast. The woods echoed and re-echoed with screams and moans that could be produced by no other animal than a panther or his cousin the cougar. Bold hunters scoured the forests with gun and dog while the women and children bolted the doors to prevent an attack by this animal. The animal however remains uncaptured, but it has been so definitely located that all fear has left us.

Wilsonville.

WILSONVILLE, Oct. 31.—Pague says "rain" but the weather here is fine and potato digging is the order of the day, the crop is a large one, but the tubers are very knotty as a rule and a good deal of complaint is made about the potatoes rotting.

What is below the cost of production and as there is but little doing in the hop business, and that little very unsatisfactory farmers are far from flush with money.

The ghost walked—yes there was a whole procession of ghosts at the Congregational church last night. The young people of that church gave a Hallow'en social, the leading feature of which was a procession of Hallow'en ghosts. There were tall ghosts, and short ghosts, ghosts of substantial breadth and petite ghosts, staid and sober, and ghosts full of vivacity, but when unmasked great Caesar what an array of feminine loveliness. Bot from ghosts and angels we must descend at one bound to soup and clam chowder, cake, coffee and confections, which was served by the aforesaid ghosts and angels and in all it was a time long to be remembered by those present and netted a sum for the Sunday school treasury.
