THE Samoan question is probably settled by the United States taking the island of Tutila which has the harbor of Pango Pango, considered the finest on any of the islands of the Pacific and four small islands. THE stand taken by Bryan and the Antis is not only prolonging the war but costing many a noble life in the Philippines. The insurgents are encouraged by the talk of these people and for that reason hold out believing that in some way help will come to them. The work of the Antis is just as effective as the guns in the field as far as results go.

THE republican clubs of Oregon are to hold a meeting in February for the purpose of thoroughly organizing for the June election. The clubs in the past have done very effective work and they should be reorganized to do still more good work. Every precinct in the county should have a club. In this way the enemy is met on the ground where the work is needed.

THE demand of America that she should be given trade rights in China has met with an expression from the leading European powers are well as China herself that the open door will out. be maintained and the country will have as much of freedom of trade as any other nation. Before the Spanish war this assurance would hardly have been forthcoming. The respect this nation receives on account of the result of that conflict is worth the cost of that war, great as that cost was.

To do this they believed that they in the end would have to grant the foreigners the franchise to vote and then they would lose in the end, control of their government by being out-voted. It was a hard proposition either way and can only end in disaster for the Boers.

Wirm this number of the Enterprise it begins its thirty-fifth year with an enlarged subscription list and every way in a more prosperous condition. The Enterprise has some enemies because it will not become an organ for their personal benefit. Some of these men this paper was instrumental in electing to office, only to be abused, and instead of helping this paper they have stood in with the opposition even to the extent directly or indirectly o turning work from this office. ### An Astonishing But True Story

"My home is in Sidney, Ohio. I have been nearer death with consumption than any other living person in the world, and I want you to read this, so you can tell others. I took a severe cold and neglected it, I grew worse a labor

time, and at the end of two years I had run into consumption. I coughed terribly, lost flesh, could not sleep, and became so dreadfully weak that I had to take to bed. In the following eighteen months I gradually reached the last stages of consumption. No less than seven physicians treated me and all gave me up saying I was in-curable. I was absolutely helpless. The whole famwore themselves out caring for me. One day mother and sister came to my bedside, and said

I had but a day or two more to live. Tears rolled down their cheeks as they The doctors had declared I was in the last stage, and no solbed the news. but no being could save me. I was willing to die, but before going to the cruel grave. I wanted to go out and see my dearly beloved town of Sidney once more. They told me such a thing was impossible—that I would surely die before I got back. But I iusisted, and to gratify my dying wish, a carriage was fitted up with a bed of pillows, and to this I was carried and slowly driven around Court II use Square. I got home more dead than alive. Through the mercy of Providence, someone brought a trial bottle of medicine said to be a consumption cure. N cone imagined for an instant it was worth trying. But as a drowning person groups at a straw, so I tried this medicine. I was better after taking two doses. Mother got more of the medicine and I took it, improving all the time. Today I am as well as any reader of this paper, and the medicine that cured me was Accor's English Remedy for Consumption. I declare before God and man that every word here printed is true."
