The way to build up Oregon City is to give Oregon City People your Patronage.

THE foreign commerce of the United States for 1899 over two billion dollars and breaks all records. We still hear the wail of hard times and always will hear from a few, no matter how prosperous the country is.

The reviving cheerfulness of the editorial tone of the democratic newspapers is merely a renewed proof of the persistent hopefulness of the human heart and of its power to recuperate in the face of discouragement.-Pioneer Press.

In 1896 the democratic prophecy was that prosperity could not come without free coinage at 16 to 1. Last year the the state in many ways and not the least cry was "prosperity cannot last." It will be good citizenship. It is acts like reminds one of the sign boards after youthful America is through juggling with them on Hallowe'en night.

Ir is with deep regret that the American people learn of the death of the vicepresident. He was a man universally liked and respected by all who knew him without regard to party. As presiding officer of the senate his decisions were always respected as fair and honest.

In a decision at Albany Judge Boise held that foreign loan associations doing business in Oregon make illegal loans in that they are usurious where more than ten per cent interest is charged in the way of interest. This will affect a large amount of business of these companies in the state and may force them at St. Louis. out of business here.

THE controller of the currency reports on the condition of the country in which he shows that the deposits of the country have increased beyond parallel. When the people of the country have money to richness of Cape Nome placer mines. deposit beyond anything known before it is good evidence that bard times are not present even if the 16 to 1 people do say that we are about to go to the wall.

THE petition of Goebel to have the vote of the city of Louisville thrown out, on the allegation that the judges and voters were "intimidated," is an admission that he was not elected and that year. Taylor got more votes. Ot course, the charge of "intimidation" is ridiculous; but Goebel wants the office of governor and expects his commissioners of election and the partisan tribunals to give it to him .- Oregonian.

THE government engineers have reported to their chief in favor of a fortyfoot channel to the sea from Portland. The great increase in Portland's commerce will give great weight to this project. A million tons of freight went over this route the past year and gradually the Columbia river valley is forcing its claims on congress and the people. Portland will only have herself to blame if she does not take advantage of her opportunities. It takes push.

Is 1896 Bryan in one of his speeches

used the following language: "You would like to sell your wheat American inventions.

for more than 45 cents a bushel, but you will never do it until you restore the silver dollar to its place at the ratio of 16 to l. There will never be any better times in this country until the coinage of silver at 16 to 1 shall be established by

It shows how well he knows what he was talking about, but then this wind was furnished C. O. D.

THE editor of the Courier-Herald comes out with lots of froth and as usual tries to obscure the point in issue. The Enterprise charged bim with stretching the sheriff's sales and charging \$3 an inch, and he does not deny it, but now says for the first time that he never contracted to do it for less. As this does not tally with what the board contracted for, or what Cheney has told them he would do, what is going to be done? The cost is greater than before the contract was let, but this is reform. Chency has admitted to the board that he has over-charged and as his excuse told them that the Enterprise was standing in, and he supposed the board was. We state this as Cheney is modest, and does not like to tell the public all be tells the board.

THE munificent donations by the Stanford estate to the Stanford university is almost without a parallel, about \$12,000,000 having been recently turned over to the university by Mrs. Stanford. The endowment of the state university of California at Berkely by Mrs. Hearst tured. is almost as great and it is said that if the buildings are completed at Berkley on the plans selected, that nothing will compare with them in the world. The plans were prepared in Paris and a large premium offered for the best competition being open to the world. Many eastern colleges have received large gifts and endowments, notably Chicago, The good that will be done by this wise expenditure of money cannot be estimated. Many a poor boy and girl will get a chance to get an education that would otherwise be impossible. The good that these people will do and the effort that they will stimulate in all with whom they come in contact will largely help these that not only should, but do bring wealth and labor more closely together.

CASTORIA The Kind You Have Always Bought Birds That Fight Eagles

In Foula, one of the Shetland Islands, the natives make a business of rearing skau gulls in order to rid the island of the eagles that congregate there and commit many depredations. The magnificent red sandstone cliffs that skirt the northwestern coast became a favorite haunt of the eagles, and in this inaccessible spot they increased so rapidly that they became a terror to the farmers and fishermen who dwell on this isolated spot. The skau gulls are also strong and flerce and the inveterate foe of the eagle. In battle the gulls are nearly always victorious, and so the inhabitants of Foula bit upon the novel plan of feeding and caring for the skau gulls, which, though formidable to their feathered enemies. are very peaceful and docile when brought in contact with man.

"My health seemed utterty gome. I suffered from nervousness female weakness and rhea-matism. Life was a burden. I doctored with three different physicians and get no relief. I tried several patent medicines all with the same result. I began to get worse and to add to the complications I suffered terribly from con-stipation. I chanced to see one of your adver-tisements and I commenced to take Dr. Pierce's Pavorite Prescription and 'Piensant Pelleta' and Pavorite Prescription and 'Piesasm Peliera' and began to improve right away, and continued improving and gaining in strength. I cannot express the relief, it was so great. Seven months later my little daughter was born without much trouble. I feel that I would never have been able to endure my confinement only by the help due solely to Dr. Pierre's medicines She was a fine healthy child and the only one I have ever been able to nurse. She is now two years old and I have never had to take any medicine since, so I feel that your medicine has made a lasting cure with me.

The Latest Yarn.

A Pittsburg drummer tells this new yarn: I always carry a bottle of Kemp's Balsam in my grip. I take cold easily and a few doses of the Balsam always makes me a well man. Everywhere I go I speak a good word for Kemp. I take hold of my customers-I take old men and young men, and tell them confidentially what I do when I take cold. At druggists, 25c and

A Mother's Plain Words

"I suppose you will be astonished when I tell you that six years ago I was in a most dangerous condition with bronchitis and lung trouble, because you can see how well and strong I am now. The attack at that time caused terrible pain in my chest and lungs. I could hardly move, and to stoop caused intense suf-

fering. Someone advised Ack-er's English Remedy, and I thought I would try it, although confess that down in my heart had little faith in it. The first bottle gave great relief, and the second bottle made me the healthy woman I am today. My husband's lungs are weak also, and he cured himself with the same grand old remedy. Our boy and girl have both been saved by it from death by croup. I know this is so, for when they were attacked in the night I had a bottle in the closet, and by acting quickly that fatal malady was easily overcome. We always give it to the children when they have a cough or cold, and we would not be without it for anything. My sister will tell you also, if you ask her, that it is a medicine that can always be depended upon for all the troubles of the breathing organs. tell all our neighbors about

Acker's English Remedy whenever I get a chance, and there are plenty of people around Mechanicsville, N. Y., where I live, who would no more think of going to bed at night without a bottle of it in the house than they would of leaving their doors wide open. As I look at it, parents are criminally responsible when they allow their children to die under their very eyes with group, because here is a certain remedy that will conquer the terrible monster every time."
