THE United States has had less failures than any time since 1883. The free silver people have not as yet explained why.

WITH democratic congressmen declaring that free silver is dead and the bulk of that party declaring in favor of expansion, it is left with nothing but calamity to stand on.

A Grewnome Superstition. A rumor got about in a village in Russia, not far from the German frontier, that the corpse of a woman who had recently been buried had turned in the coffin. Everybody in the village not only believed the rumor, but ascribed the prevailing drought as the cause. A village council was held, and it was decloed that the husband of the woman should have the coffin opened and the body replaced in its original position. The husband, however, promptly refused, and nothing could persuade him to yield to the unanimous wish of his fellow villagers, whereupon the latter took the matter in their own hands and went to the churchyard to dig up and spen the coffin. Her wish being acceded to, she informed the doctor that she desired to place her husband under his care to see if a cruel mania, had lost a large quantity of jewels"-

> After some hesitation the doctor conrectly to a jeweler's in Paris and selected jewels to the value of several thousand francs and requested one of the shopmen to go with her in her carringe to procure the money for the goods she had taken. She drove with him to the asylum, and, arriving there, he was shown into a room.

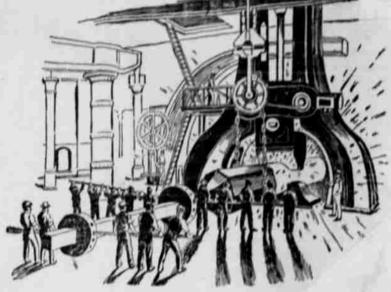

> The lady then sought the doctor, told him of the arrival of her husband, and getting into her carriage again drove away. The rest may be imagined, but the poor fellow was confined several days before it was found they both had been "sold." The lady was never heard of after.
