The way to build up Oregon City is to give Oregon City People your Patronage.

HAVE you registered? If you wish to vote you must attend to this important matter.

THE Boers still continue to show England that she has a fight on her hands.

If five people read each copy, then 10,000 people read the Enterprise each week.

DEWEY wants to be the democratic nominee for president, but the political Platte.

UNCLE SAM'S new 2 per cent bonds are quoted at 104, which establishes a record of high credit never reached by any other nation.

NONE of the legislative candidates are pledged on the senatorial question. This is a prudent course to pursue, as it is impossible at present to say who the senatorial candidates will be.

THE South is ringing for expansion. Proction has started southern development, and business men there know that we must have foreign markets in which to sell our surplus products.

THE republican candidates that find it necessary to print their tickets at the office of a democratic paper are the ones that have the most to say about how a republican paper should be run.

THE man that was not nominated can not find a man that was in the push against him and he wonders how it was done. The law of gravitation was responsible for your fall and it was working strong that day. This same law has work to do yet.

THE public debt is decreasing at a rapid rate notwithstanding extraordinary expenses for the Philippine trouble. During the last democratic administration the public debt increased, in time of peace, in just about the same ratio that it now decreases.

EY-UNITED STATES SENATOR JOHN H. MITCHELL is out with a 20-page reply to the speech delivered by Hon. Joseph Simon, in the United States senate, in which the latter declared Mitchell wholly responsible for the hold-up of the Oregon legislature in 1897—Mitchell will try to succeed McBride.

P. G. MORRIS, the defuncting ex-county treasurer of Linn county, was committed to the penitentiary last Friday. He was in default about \$3,900, and was sent up for four years in the penitentiary and to pay a fine of \$4,000. His friends think he will be pardoned in about three months.

BRYAN on his present trip is talking the same old 16 to 1 theory that the party is trying to drop. He was not in the race in 1896 because of his doctrine but thinks he can win in 1900 on it,

although the bulk of his party know he cannot. Where are the dire disasters predicted in 1896? If he was mistaken then he should not be trusted now. He draws a crowd just the same as Aguinaldo would if he should make a trip over the country.

All eyes are turned on Oregon as the timber belt of the world, and Eastern men are flocking to this state by the scores and hundreds in quest of timber lands. Down in Albany, an Eastern firm, the W. W. Curtiss Lumbering Co. will erect this summer a \$250,000 sawmill, and A. B. Hammond, the railroad magnate, is back of a similar project in Portland. Oregonians should wake up and not let people cross the continent and pick up snags right out from under their noses.

WHATEVER may be said by way of criticism or cavil, the local democracy is manifesting unmistakable signs of sanity—something unknown since it took Penroyer for a Moses. It is true that it allows two or three "Silver Republicans" to appear to "run things," and several populists to "get to the center"; but as a matter of fact these fellows are not half as important as they think they are. When the success comes, if it ever does, the "old line" democrats will step up to the pie counter and say to these officious converts: "Stay with us, boys, a few years, and you can eat pie, too."—Telegram.

CASHING DRAFTS ABROAD.

Easy Banking Methods Which Cause Americans Much Surprise.

"The continental banking methods are a great surprise to Americans," said a resident of New Orleans who has just returned from a trip abroad. "When I was in Paris last month, I met a friend one day who had an English draft for \$100 on one of the largest banks in the city and wanted to get the money. He had nobody to identify him, but said, half jokingly, that he was going to try for it anyhow, and we went to the place together.

"We were shown up stairs to a large reception room set aside especially for customers, and presently a messenger came in and took the draft. About a dozen other people were also waiting in the room, and after a delay of about ten minutes a well dressed young gentleman came to the door and bawled out in a loud voice, 'Mr. John Smith! My friend (call him John Smith for short) got up and was handed a bundle of bank notes. No questions were asked.

"I was astonished, and in going out I took occasion to ask the well dressed young gentleman whether the bank wasn't taking desperate chances doing business in that catch as catch can fashion. 'And why?' he inquired, opening his eyes. I tried to explain, and he shrugged his shoulders. 'We have never had any losses,' he said."—New Orleans Times-Democrat.

Remarkable Cure of Rheumatism. KENNA, Jackson Co., W. Va. About three years ago my wife had an attack of rheumatism which confined her to her bed for over a month and rendered her unable to walk a step without assistance, her limbs being swollen to double their normal size. Mr. S. Maddox insisted on my using Chamberlain's Pain Balm. I purchased a fifty-cent bottle and used it according to the directions and the next morning she walked to breakfast without assistance in any manner, and she has not had a similar attack since.—A. B. Parsons. For sale by G. A. Harding, druggist.

Greatest Knitters in the World.

All the women of Shetland knit. They learn the art in early childhood and continue it all through their lives. The wool used for their knitting is grown on the islands and is carded and spun by the people themselves. Machinery they have not except the primitive spinning wheel. Many of the most elaborate shawls have taken months to make and some even years, so that a very fine shawl may be worth as much as \$150 or \$200. Most of the knitting is, however, of the more homely and serviceable kind and may be bought from the women themselves for a very moderate price.

The manner in which the washing of knit shawls is accomplished in Shetland is a matter of interest to most visitors. They are washed carefully in soap lather, and then to prevent their shrinking they are laced from point to point of the scalloped border in a large square wooden frame and placed outside the cottage to dry.—Chicago News.

If we did not know how little some enjoy the great things that they possess, there would not be so much envy in the world.

DR. PIERCE'S Golden Medical Discovery

"I had suffered from indigestion, and only those who have suffered from it know what it really is," writes Mrs. M. J. Fagan, of 1613 East Genesee Street, Syracuse, N. Y. "I had severe attacks of headache and dizziness with cold hands and feet; everything I ate distressed me, bowels were constipated, and I was growing very thin and nervous. I cannot half express the bad feelings I had when I commenced taking Dr. Pierce's Golden Medical Discovery. I took nine bottles of the 'Discovery' and several bottles of the 'Pellets.' I commenced feeling better with the first bottle, and kept on improving. Now I am so greatly improved in health my friends often speak of it. I most heartily recommend those medicines to all suffering as I was."

Rolling Mill Consumption

Seven out of every ten men who work in rolling mills, iron foundries and glass factories die of consumption. You know how early in life these men pass away. The usual symptoms is a nagging, persistent cough—sometimes short and hacking, sometimes hard and dry. The patient grows weaker and thinner day by day. Death eventually conquers. The trouble comes from intense heat and the constant inhaling of the fine particles of dust and iron that fill the air. These particles, under a microscope, show ragged, sharp edges, which tear and mutilate the delicate lining of the throat and lungs. Perpetual sore are thus formed, and here it is that the germs of consumption find a place to feed and multiply. Acker's English Remedy was discovered in England, and is the only cure in the world for Rolling Mill Consumption. It breaks up the sores, strengthens the mucous membranes of the breathing organs, permanently stops the cough, builds up the constitution and imparts vigor to the whole system. It most either cure or it costs you nothing. One bottle does wonders. Try it. What it has done for many others it will also do for you and your loved ones.
