ELECTION June 4.

Vote the ticket straight.

The Enterprise has a larger circulation than any other paper in the county.

Have you registered? If you wish to vote you must attend to this important matter.

If five people read each copy, then 10,000 people read the Enterprise each week.

If you want a republican United States senator, you must vote for republican legislative candidates.

Some of the Kentucky brand of harmony has slopped over into Tennessee. The republican party in Tennessee is split into factions.

The democratic notary has succeeded in getting Dewey's oath that he will support the Chicago platform. Has Bryan been sworn yet?

There are a few exceptions to the general prosperity, and some industries can be named that are not increasing. These will hardly be used by the fusionists, however. They are begging, burglary, and train-robbing.

After McKinley knocks Bryan out again next fall, it is to be hoped he won't claim the blow was foul. He

ought, at least, to be as game as ex-champion Corbett and acknowledge he is whipped, and a back number forever.

Prosperity has had such a tilt that the farmers can't find hands. This will be hard lines on the hobo. Possibly this will throw light on the question why a hobo is always a democrat.

When a state like Colorado, the greatest free silver advocate in our nation of states, comes out like it did last week and declares for the gold standard and against cheap money, it seems like it is time the fusion party was taking two or three bottles of "got-onto-yourself biters" and quit trying to break the seal of the tomb where free silver's corpse lies buried forever.

It is reported from Vancouver, B. C., that the democrats of Alaska will choose delegates at Juneau, May 28, for the national convention to be held at Kansas City, July 4. As Alaska is a gold country it will be interesting to watch the course of its delegates in what will probably be a silver convention. Their presence would seem to suggest firebrands.—Astorian.

When all of the unproductive land in the Northwest is put into cultivation that will raise a good crop when cultivated, there will be a population in the Willamette valley equal to that of any other state in the union. We can produce for the consumption of millions, and if the prediction that the trade of nations is to be transferred from the Atlantic to the Pacific ocean, the population of this valley will be numbered by the millions.

A CLACKAMAS county man reports that he made 15 pounds and one ounce of butter from one Jersey cow in one week, recently. This butter is manufactured at a creamery would sell for six dollars in cash. Of course this is an extraordinary production, but it shows what can be done by careful and intelligent care of the cow. Every cow well taken care of would earn a good profit if there were more creameries.—McMinnville Democrat.

ONE of our gallant officers who met death last month at the hands of the Filipinos, wrote a letter home a short time before, which, in referring to the American Tagals, indicated very plainly where the blame rests for the continued sacrifice of the loyal men in blue. An extract says: "It makes a man want to get a few days' leave and go back and gag a few 'shining lights of American statesmanship.' Every fight we have is directly attributed to the encouragement given the enemy by these men, and every one of our men killed owes his death to them, for Aguinaldo is whipped and knows it, and only bangs on desperately, hoping that his 'friends' will manage some way to help him out, and not realizing that only a few men are making all the noise. It would be different if he was fighting for liberty. He is fighting for the supremacy of the Tagal race, which is the only one in favor of the insurrection, and the subversion of all others, and he is fighting for a crown." And yet what hypocritical howl goes up from the antis about the criminal sacrifice of life—Newberg Graphic.

The snake editor of the Courier-Herald, K. H. Gabbert, started out last week to reform modern journalism, and he looms up in his new role like a bunch of ribbon on a pig's tail. Like Sampson of old, he has chosen to slay his opponents with the "jawbone of an ass", and before he concludes his debased article, his own vile adjectives cowhide him to death and photograph to the public his polluted brain. He poses as a diamond pin in the shirt front of freedom, but from the number of times he uses his pet word "lousy", we are disposed to regard him as a sort of a lynch pin in the shirt front of "freedom." Gabbert, the sneak, who was never known to look a man in Clackamas county squarely in the eyes, has laid down the bars, assumed the aggressive, and invited battle; and we never take a dare.

Cowardly as the catfish, it is his object to incite others into controversy, then to muddy up the water and swim away unseen. His dirty little article had about as much weight in public opinion as would a flea on the tail of a lion, biting hard to make the monster run fast. His nose is stuck in everybody else's business, and he'll stick it there just once too often, some day.

ADVANCE IN FARM PRODUCTS.

Next to the wage earner, the class most benefited by the revival of prosperity under a republican administration are the farmers. The general rise in prices in all agricultural products has transformed their industry from depression to thrift. Experts have estimated that the products of last year were worth a billion and a half of dollars more than any year during the Cleveland-Wilson depression from 1892 to 1896. This is an average increase of 31 per cent. Livestock in general has gained in value 38 per cent, and crops show an increase of 25 per cent. The products of live stock, including meats, dairy products, etc., have increased 40 per cent over the lowest point during the period mentioned. Horses have increased one-third, cattle about 40 per cent, and sheep have about doubled in value. In values of farm lands there is a decidedly upward tendency and sales are far more numerous, as a result of better prices for farm products, and the number and amount of mortgages are materially decreased.

A brighter day has dawned for the farmers of America, and the restless, panicky class of agriculturists who in 1896 were prone to believe in free silver as a panacea for their ills, are now contented and happy and confirmed in the belief that protection and prosperity go hand in hand and that sound money and confidence are the foundation of all industrial progress.

Life's a Sack Race

To a sick man. He's hobbled, hampered, handicapped by his sickness. Every little while he has to lay off for a day. He can't get ahead. Everybody passes him in the struggle for success. If sickness originates in a diseased condition of the stomach (and most sickness does) there's a cure for it. Dr. Pierce's Golden Medical Discovery is not a cure-all, but a medicine specially designed to cure diseases of the stomach and organs of digestion and nutrition. It cures many forms of disease, because many forms of disease originate in a diseased condition of the stomach and digestive and nutritive system.

"I write to tell you of the great benefit I have received from the use of Dr. Pierce's Golden Medical Discovery," writes Mr. G. B. Bird of Byrnside, Putnam County, West Va. "It cured me of a very bad case of indigestion associated with torpid liver. Before I began the use of 'Golden Medical Discovery' I had no appetite; could not sleep or work but very little. The little that I ate did not agree with me, bowels constipated, and life was a misery to me. I wrote to Dr. Pierce, giving my symptoms, and asked for advice. You advised me to try the 'Golden Medical Discovery,' so I began the use of it, and after taking four bottles I felt so well that I went to work, but soon got worse, so I again began the use of it, and used it about eight weeks longer, when I was permanently cured. I took in all about twelve bottles of the 'Discovery,' and some of Dr. Pierce's Pleasant Pellets in connection with the 'Discovery.'"

Dr. Pierce's Pleasant Pellets keep the bowels in healthy action.

"After suffering from piles for fifteen years I was cured by using two boxes of DeWitt's Witch Hazel Salve," writes W. J. Baxter, North Brook, N. C. It heals everything. Beware of counterfeits, Geo. A. Harding.

For Young Men and Young Women.
 There is nothing that will arouse the ire of a young man or woman so quick as to have inferior laundry work put off on them. They may dress ever so well, but if their shirt front or shirt waist is mussed their neat appearance is spoiled. The Troy Laundry makes a specialty of ladies' and gentlemen's fine work. There can be no better work than is done at the Troy. Leave your orders at Johnson's barber shop.

"DeWitt's Little Early Risers are the finest pills I ever used."—D. J. Moore, Millbrook, Ala. They quickly cure all liver and bowel troubles. Geo. A. Harding.

How Are Your Kidneys?
 Dr. Hobbs' Spargus Pills cure all kidney ills. Sample free. Add: Sterling Remedy Co., Chicago, Ill.

An Astonishing But True Story

My home is in Sidney, Ohio. I have been nearer death with consumption than any other living person in the world, and I want you to read this, so you can tell others. I took a severe cold and neglected it, I grew worse all the time, and at the end of two years I had run into consumption. I coughed terribly, lost flesh, could not sleep, and became so dreadfully weak that I had to take to bed. In the following eighteen months I gradually reached the last stages of consumption. No less than seven physicians treated me and all gave me up saying I was incurable. I was absolutely helpless. The whole family wore themselves out caring for me. One day my mother and sister came to my bedside, and said I had but a day or two more to live. Tears rolled down their cheeks as they wept the news. The doctors had declared I was in the last stage, and no human being could save me. I was willing to die, but before going to the cruel grave, I wanted to go out and see my dearly beloved town of Sidney once more. They told me such a thing was impossible—that I would surely die before I got back. But I insisted, and to gratify my dying wish, a carriage was fitted up with a bed of pillows, and to this I was carried and slowly driven around Court House Square. I got home more dead than alive. Through the merciful Providence, someone brought a trial bottle of medicine said to be a consumption cure. No one imagined for an instant it was worth trying. But as a drowning person grasps at a straw, so I tried this medicine. I was better after taking two doses. My mother got more of the medicine and I took it, improving all the time. Today I am as well as any reader of this paper, and the medicine that cured me was Aker's English Remedy for Consumption. I declare before God and man that every word here printed is true.

This remarkable testimonial, on file in the office of Messrs. W. H. Hooker & Co., New York, proprietors of Dr. Aker's Celebrated English Remedy, is vouched for by them, as well as by prominent druggists of Sidney, Ohio.

Aker's English Remedy is sold by all druggists, under a positive guarantee that your money will be refunded in case of failure. 25c, 50c, and \$1 a bottle in U. S. and Canada. In England 1s. 6d., 3s., 6d., and 6s. 6d.
