The Water Commissioners will make their initial trip up the Clackamas river next week for the purpose of locating a suitable place to tap the stream for a water supply for this city. At present the city uses water pumped from the basin in the Willamette river where a sediment of about six or eight feet of mud has formed and where other foreign and obnoxious substances lodge. It is conceded by both the Water Commission and the citizens that the city water is not pure and wholesome, and the commissioners will do everything in their power to relieve this condition of affairs. They will endeavor to secure water by gravitation, and if this is impossible, it will be pumped to the city. It will probably be sometime before the new water system is consummated, but the Water Commission has promised an improvement and they will fulfill their pledge.

Deafness Cannot be Cured by local applications, as they cannot reach the diseased portions of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

The manufacturers of Castoria have been compelled to spend hundreds of thousands of dollars to familiarize the public with the signature of Chas. H. Fletcher. This has been necessitated by reason of pirates counterfeiting the Castoria trade-mark. The counterfeiting is a crime not only against the growing generation. All persons should be careful to see that Castoria bears the signature of Chas. H. Fletcher, if they would guard the health of their children. Parents, and mothers in particular, ought to carefully examine the Castoria advertisements which have been appearing in this paper, and to remember that the wrapper of every bottle of genuine Castoria bears the fac-simile signature of Chas. H. Fletcher, under whose supervision it has been manufactured continuously for over thirty years—Phila. Bulletin.
