He also states that thousands of them can be found under the haycocks, or in places where it is cool and moist. The Awful Life of a Lawful Wife.

All have been told "Ignorance is the Mother of Crime," and that no crimes are so severely punished as those committed against Nature. The courts only echo the voice of Nature when they affirm;

"Ignorance of the law does not excuse guilt." It is these fundamental facts in the operations of natural law that make it possible for a woman who enters the martiage relation with the full sanction of the law of the land and love of her heart, to be condemned to an awful life of servitude

law of the land and love of her heart, to be condemned to an awful life of servitude and suffering.

Don't let her smile deceive you. She has trained herself to bear what she looks upon as part of the burden of her state.

The underlying reason of this sad condition of affairs is ignorance. The young girl grows to womanhood ignorant of her physical needs and dangers. When a word might save her years of suffering, modesty bids her keep silent. She loves and marries and enters upon the marriage state with all its obligations to the unborn, handicapped by conditions that make life a burden to herself and a menace to her offspring.

Disorders of the womb and the organs sympathetic with it are overcome, and woman is put into a condition where the functions of nature are her pleasure as well as her privilege. In this condition children are born without anxiety as almost without pain. The elasticity imparted to the organs of parturition practically does away with the pangs of childbirth. Vitality is imparted which makes the sursing of the child a delight instead of a drain, and the robust child sharing the strength of the mother grows day by day in health and beauty. Contrast this plain statement of fact with the condition of so many women who anticipate motherhood, worn-out, suffering, fearful, anxious, bringing children into the world with reluctant suffering and rearing them painfully through a sickly childbood. rearing them painfully through a sickly childhood.
