Important changes are soon to be made in the occupancy of the rooms of some of the county officials. The clerk will be confined to but one room, and the large apartment near the vault will be fitted up for the recorder. The school superintendent will occupy the room to be vacated by the recorder. The public will then be allowed into the vault without permission of the officials, and the probability is that no one at all will be admitted into the county archives. The recorder or clerk will wait upon any one desiring access thereto. This would prohibit the loss or destruction of county records.

Hot weather has killed the blight and the worms have never been so destructive as anticipated. 20,000 bushels of potatoes were shipped from New Era last year, and he thinks there will be no shrinkage in this year's crop. He also states that the same land that is this year producing eight bushels of wheat per acre, two years ago yielded 52 bushels per acre.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J.
