"Pull down the flag.

Rip the credit of the country up the back.

THE Vermont election shows that the republicans are more than bolding their own and as an index is very favorable to the republican cause. In 1896 the republicans cast 80 per cent of the entire vote. In 1898, at the election for governor, the vote was 71 per cent of the vote cast, while at the election just held for state officers the republicans cast 74 per cent of the vote.

WHEN a man runs for office every little mean trick be ever did comes to light and is placed before the eyes of the public, and some newspapers and people too can't villify and lie about him enough; but let him die, no matter how mean he has been, the public and the press will hunt up all the good qualities he ever possessed and hold them up before the eyes of the people, omitting every hint at what kind of an old reprobate he may have been.

If this class of citizens realized today that the return to that same democratic rule is almost sure to plunge them into the same troublous times there would be no apathy nor possibility of Bryan's success. The great difficulty is in convincing contented men that there is a possibility of danger ahead. Everybody realizes that in 1892 the same difficulty arose, and the result was four years of democratic disaster. four years of hard times, which were felt by every man in the country.

To succeed in raising a good crop of wheat, it is necessary that we have soil Wil that is fertile, well-drained, and in good Fran mechanical condition for the reception C T and germination of the seed, and also, for the growth and development of the Geor tuture plant. Long before a leader had reached Manila they resolved that if the commander of the American navy would give them arms with which to fight the Spanish army they would later turn upon us, which they did, murderously and without show of cause or justification. There are those without the means of full information who believe that we were in alliance with the insurgents, and that we assured them that they should have independence.
