COUGHS KILL

We know of nothing better than coughing to tear the lining of your throat and lungs. It is better than wet feet to cause bronchitis and pneumonia. Only keep it up and you will succeed in reducing your weight, losing your appetite, bringing on a slow fever, and making everything exactly right for the germs of consumption. Better kill your cough before it kills you.

Ayer's Cherry Pectoral kills coughs of every kind. A 25 cent bottle is just right for an ordinary cough; for the harder coughs of bronchitis you will need a 50 cent bottle; and for the coughs of consumption the one dollar size is most economical. My cough reduced me to a mere skeleton. I tried many remedies, but they all failed. After using the Cherry Pectoral I immediately began to improve, and three bottles restored me to health. I believe I owe my life to it. SARAH F. MORGAN, Oct. 7, 1898. Brownstown, Va.

Our local weather man reports that there has been about three inches of rain this month, and we note that farmers have begun plowing, but the earth appears to be a little too dry yet.
