Help... Nature

Babies and children need proper food, rarely ever medicine. If they do not thrive on their food something is wrong. They need a little help to get their digestive machinery working properly.

SCOTT'S EMULSION OF COD LIVER OIL
WITH HYPOPHOSPHITES OF LIME & SODA

will generally correct this difficulty.

If you will put from one-fourth to half a teaspoonful in baby's bottle three or four times a day you will soon see a marked improvement. For larger children, from half to a teaspoonful, according to age, dissolved in their milk, if you so desire, will very soon show its great nourishing power. If the mother's milk does not nourish the baby, she needs the emulsion. It will show an effect at once both upon mother and child.

Molalla.

MOLALLA, Nov. 12.—McKinley prosperity, sound money, protection and full bread baskets must be endured by democrats and all for another four years. With all the fullness thereof, there may yet remain some hunger for office. The great law of supply and demand will force the prices of products up and down, but when the fog clears away we still find wheat and silver balancing near the half-dollar mark. Of course the majority of the voters in "Molalla and Texas" are not altogether satisfied with the result of the election, but they can console themselves by taking on the sober thought that things might have turned out a great deal worse for their immediate welfare. McKinley himself well knows that some of his opponents were his equal in every sense, notwithstanding the "16 to 1" which Mc used to preach himself for good republican doctrine.

THROAT REST

You can cough yourself into bronchitis, pneumonia, and consumption. Bandaging and bundling your throat will do no good. You must give your throat and lungs rest and allow the cough wounds to heal. There is nothing so bad for a cough as coughing. Stop it by using

Ayer's Cherry Pectoral

Even the cough of early consumption is cured. And, later on, when the disease is firmly fixed, you can bring rest and comfort in every case. A 25 cent bottle will cure new coughs and colds; the 50 cent size is better for settled coughs of bronchitis and weak lungs; the one dollar size is more economical for chronic cases and consumption. It's the size you should keep on hand.

"All families ought to be on the watch for sudden attacks of cough or sore throat troubles. Every country home in the land should keep Ayer's Cherry Pectoral constantly on hand to provide against an emergency."
JOSIAH G. WELLS, M.D.
Dec. 14, 1898. Holland, Mich.

There was a birthday party at Mrs. Henry Gibben's last Thursday. A good dinner and pleasant time was enjoyed by all present.

Mrs. Iola V. Douglas and Linnie Chapman have returned home from Portland, where they have been visiting for several days.

Stafford.

STAFFORD, Nov. 14.—Hurrah for McKinley! The election went off without a hitch.

Cap Hayes is spending a few days with his daughter, Mrs. Chapman, at Clackamas.

We learn today of the death of Mrs. Seely Ford, of Wilsonville. Mrs. Ford was the mother of several grown children who have children grown. "So ripe and full the garnered sheaf, why should the harvest bring us grief? Heavy and bent by weight of grain garnered, a life not lived in vain."

The remains of Miss Lizzie Priester, of Maple Lane, were brought here Friday from Portland and interred in the Stafford cemetery. Miss Priester was born in our midst in 1883, but for a few years past the family had lived east of Oregon City. Since Christmas last Miss Priester had suffered with a growing tumor, Tuesday, the 6th inst., she was taken to a hospital in Portland and a tumor which weighed 22 pounds was removed. She was spared but another day ere the spark of life had fled. A girl we had known for years "death a distant roof lay dead."

What art thou, Death, that I should fear The shadow of a shade? What's in the name that meets the ear Of which to be afraid?

Thou art not care, thou art not pain, But thou art rest and peace;

'Tis thou canst make our terrors vain And bid our torments cease.

Thy hand can draw the ranking thorn From out the wounded breast; Thy curtain screens the wretch tormented; Thy pallet brings him rest.

Misfortune's stings, affliction's throes, Destruction's poisonous breath—The world itself, and all its woes, Are swallowed up in death.

Then let us pass our lives in peace, The little time we stay; Nor let our acts of friendship cease Till life shall fade away.

Mrs. Annaretta Priester is visiting her mother, Mrs. Sharp.

The Hallowe'en just past was fairly alive with hobgoblins, which played hob generally.

School is progressing nicely under the able management of Miss Alice Downing. Much plowing is being done.

Potatoes that were dug last week came out clean and dry.

Or Our Saviour in Art—Cost Nearly \$100,000 to Produce.

Contains nearly 100 full-page engravings of our Saviour and His Mother by the world's greatest painters. True copies of the greatest masterpieces in the art galleries of Europe. Every picture is as beautiful as a sunrise over the hills. Contains description of the paintings, biography of the painters, the names and locations of the galleries in Europe where the original may be seen. Also contains a child's department, including a child's story of the Christ and His Mother, beautifully written, to fit each picture. This wonderful book, matless in its purity and beauty, appeals to every mother's heart, and in every Christian home where there are children the book sells itself. Christian men and women are making money rapidly taking orders. A Christian man or woman can in this community soon make \$1,000 taking orders for Christmas presents. Mrs. Waite our agent in Massachusetts, has sold over \$3,000 worth of the books in a very short time. Mrs. Sackett, our agent in New York, has sold over \$1,500 worth of the books in a very short time. The book is printed on velvet-finished paper, beautifully bound in cardinal red and gold and adorned with golden roses and lilies. It is, without doubt, the most beautiful book of this century.
