A still fight is being made in the circuit court to determine the ownership of a strip of land lying along the foot of the bluff and for a considerable distance back on top of the bluff running parallel with the right of way of the Oregon and California railroad through this city. The suit is brought by the municipality of Oregon City against the railroad company. The records show that Dr. John McLaughlin, the founder of the city, dedicated the strip of land in question to the city, but subsequently the railroad company acquired title to the strip from the Harveys, heirs of Dr. McLaughlin. The company held undisputed possession of the land from 1867 until about two years ago, when the city desired to build a stairway from Eighth street to the top of the bluff, and it was incidentally learned that the Oregon and California Railroad Company claimed title to the now disputed land. The city built the stairway with the understanding that this move did not prejudice the claims of either party, the railroad company consenting. Attorneys Dresser and Griffith appear for the city and the railroad is represented by Attorney Fenton, of Portland. Christmas Gifts. Get your suits and overcoats made to order at half price. Wednesday morning, warrants were issued out of Justice McAnulty's court, and served by Constable Moody, upon the persons of George Hayden and Albert Clausen, of Viola precinct. The complaint charges these young men with the theft of 100 bushels of oats and is signed by J. H. Stevens, mail carrier between Oregon City and Viola. Stevens claims the oats were stolen Monday night and that the next morning he followed wagon tracks from his barn to the barn of the defendants. Young Hayden and Clausen stoutly claim their innocence and will furnish bonds for their appearance. They will be given a hearing the first of next week. If reports are true, Viola has recently been doubly visited with malicious mischief and theft. Complaints are made that all kinds of malicious acts have been committed recently, such as docking the ears of horses, upsetting bee stands, etc. It is also alleged that meat has been taken from smoke houses, and that cellars have been pillaged of all kinds of fruits, potatoes, ciders etc. in that neighborhood. Deafness Cannot be Cured by local applications, as they cannot reach the diseased portions of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO. Toledo, O.
