

Oregon City Enterprise

TIME CARD EASTSIDE RAILWAY COMPANY

Table with columns LEAVE PORTLAND (Couch St.) and LEAVE OREGON CITY. Includes times for 7:00 A.M., 7:45, 8:30, 9:15, 10:00, 10:45, 11:30, 12:15 P.M., 1:00, 1:45, 2:30, 3:15, 4:00, 4:45, 5:30, 6:15, 7:00, 7:45, 8:30 only to Milwaukee, 9:15 only to Milwaukee, 10:30 only to Milwaukee, 11:45.

THE LOCAL NEWS.

SALOON WILL BE SOLD.—The Molalla saloon, on Main street, which was closed some time ago under an attachment, will be sold at public auction February 13.

CHILD DIED.—An infant son of Mr. and Mrs. Henry Brend, of Ilwaco, died Saturday after a brief illness. The remains were interred in the Schubert cemetery Monday.

ADVANCE IN MEAT.—All kinds of meat have advanced in price in this city. The butchers claim that it is because of the advance in the price of live stock. Steaks that formerly sold for 12 1/2 cents per pound are now 15 cents, and other meats have advanced in proportion.

DAM BROKE.—A dam which had formed at 5th and Jackson streets, and which had collected quite a large body of water, broke loose Monday, and the water washed several joints of sewer pipe into the river. Three men who were repairing the sewer in the Weinhard culvert, came near getting caught in the rush of water.

SERVICE DISCONTINUED.—The car service to Gladstone from this city was discontinued on the first of the month. Formerly a ticket was issued for use on the Gladstone car which reduced the fare to 2 1/2 cents, or 5 cents for the round trip. Now passengers to and from that place must pay a 5 cent fare straight, on the East Side Railway Company's cars.

BROKE TWO RIBS.—Ed Gregory, an employe in one of the manufacturing establishments of this city, had a very painful and serious accident last Friday. He was walking over a scaffolding about 14 feet from the ground, when he slipped and fell off, breaking two ribs, and sustaining injuries to his back. He is getting along very well at this time.

CUT BY A CHAIN.—Last Monday an Arthur Snyder, an employe of the Willamette Mills, was working in the machinery room, a chain which connects some parts of the machinery broke and striking Snyder on the head, cut and bruised him about the head and shoulders seriously. He was stricken insensible and cannot account for the accident.

CREAMERY INCORPORATED.—Last Friday Geo. Laelle, C. N. Wait and B. Friedrichs filed articles of incorporation of a creamery and cheese factory at New Era. The name of the corporation is to be the New Era Creamery and Cheese Factory, a perpetual corporation for the purpose of manufacturing cheese and butter, to purchase and hold real property. The capital stock is \$1,200, divided into 120 shares of \$10 each.

DEATH OF MINNIE HORTON.—Minnie Horton, aged 13 years, daughter of Mr. and Mrs. William Horton of West Oregon City, died last Friday morning at 12:30, after a lingering illness from typhoid fever. Funeral services were held at the residence Saturday, and interment followed. The girl is spoken of as having been a very bright and clever girl, and one having a wide circle of friends among girls of her age.

GOOD SHOWS AND BAD.—The theater-going people of Oregon City have been afflicted with some very bad shows this winter, but the one of last Monday night the "Katie Emmet Co.," in which there was no Katie Emmet, was about the rankest yet. "The Star Boarder," however, which appeared here last Saturday night was an unusually good entertainment, by far the best that has come to Oregon City this season. But "The Star Boarder" didn't draw. There was a dimly small house there. It takes a lot of greasy niggers with a brass band to get the crowd out in this city.

HE'S A CARTOONIST.—J. A. McGlashan the popular manager of the Fellow's grocery, is a cartoonist of considerable ability and plenty of originality. The windows of that store are always decorated with a number of catchy pictures from his pen. Tuesday he had a number of pictures illustrating the new electric road, which attracted the attention of every passer-by. One picture entitled "All Aboard for Canemah," represented President Fields drawing a diminutive street car in the direction of Canemah, by means of a string. The pictures created a great deal of amusement for passers-by.

STRUCK COAL.—Workmen in widening the roadbed of the Southern Pacific near the flouring mills, unearthed a deposit of fairly good coal. The coal lies in the crevice of the rocks, and is covered with a formation resembling iron ore. Some think this is the outcropping of a considerable deposit of coal, while others say that it is not. As it is on the Southern Pacific right-of-way, no one can secure the ground to investigate, and it is scarcely probable that the railroad company will do anything with it. But it would be a wonderful thing for the town if large bodies of coal should be discovered in that locality.

A SUCCESSFUL ENTERTAINMENT.—The entertainment given in Willamette hall last Monday night by Meale Post G. A. R., was a success in every sense. There were about 150 persons present, and everyone seemed well pleased. Department Commander A. G. Goodbrod, of Union, was present and delivered a fine address, after which F. H. Beach, of this city, gave a scopic entertainment with his new acetylenic machine. He gave 150 views embracing scenes selected from the most picturesque places in this country from Washington D. C., to San Francisco and the Northwest, and also about 40 Grand Army pictures, comic views, etc. Mr. Beach gives a first class entertainment, and being an old soldier, he knows how to entertain the boys. Mr. and Mrs. Springer furnished some very fine music for the occasion. The Telford children also contributed several selections which were well received.

Deafness Cannot be cured by local applications, as they cannot reach the diseased portions of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO. Toledo, O. Sold by druggists, 75c. Hall's Family Pills are the best.

NO MORE SLOT MACHINES.—There are no more slot machines that pay money, in operation in Oregon City now. Mayor Dimmick issued an order January 29, to the effect that all slot machines that pay money, should be taken out by February 5. They are gone. The little machines, that pay cigars, or drinks, are still in operation. The mayor says there is a state law against their operation, and if the authorities will not enforce the law he will not interfere. The mayor also issued an order that no minor should be allowed in any saloon, and the police have instructions to arrest the proprietor of any saloon in which he finds a person who is under age.

WANTED TO PUNCH HIS NOSE.—President Fields, of the Oregon City & Southern Railway Co.,—The road that was built last Sunday—had a little encounter, last Monday morning, with an irate farmer which, if not serious, was at least funny. This farmer, who lives south of the city, came to town Monday morning and when he arrived at the city limits he found the road completely filled up with railroads and trolley cars and one thing and another, like that. He couldn't get his team any farther, and it made him mad. He hunted up Mr. Fields, and proceeded to give him a rather large-sized portion of his mind on the subject. As he talked he became more and more angry. He made sarcastic and deprecatory remarks; he expressed a desire to have nearly all of Mr. Field's vital organs and intimated that it would give him great pleasure to knock off the whole top of that gentleman's head. He threatened to use every kind of offensive weapon from a court injunction to a good hickory abelally. But fortunately, the farmers' anger cooled and no blood was spilled that time. The new road is certainly a nuisance as it destroys the road for teams.

\$20 to \$100 to loan on chattel or personal security. Dimick & Eastham, agts.

Fait the Great. Prof. C. W. Fait closed a two-night's engagement at the Workmen's hall Friday evening, with his hypnotic entertainment. The second night drew a house packed to the doors. The professor gave some interesting and instructive tests in hypnosis and mind reading, exposed a few spiritualistic fakes, and otherwise pleased everyone with experiments in what is now coming to be recognized as a science of value to the world. The professor makes no attempt to explain his almost supernatural powers on supernatural grounds, stating, instead, that his work is subject only to scientific analysis. Further than exhibitions in hypnosis, the professor executed some feats in legerdemain which places him in the class with Herman, the Great. He is clever and entertaining either as a slight-of-hand performer or as an exponent of the hypnotic science. That his efforts to amuse and instruct were appreciated in Baker was evidenced by the fact that the Standing Room Only sign was hung at his closing entertainment.—Baker City Herald.

Mildred E. Brown. (Communicated.) Miss Mildred E. Brown, whose death occurred at the home of her parents on Clackamas Heights, on the last day of January 1901, will be long remembered by all who knew her because of her unusually amiable qualities and lovely character, and her loss brought sorrow to the hearts of even those who had but a limited acquaintance with her and all join with the sorrowing parents, brothers and sisters, in mourning her departure. Death claimed Miss Brown just as she had attained an age when her excellent intellectual abilities could be made available for the good of those with whom she came in contact.

Turney, the photographer, will give a masquerade ball at Armory hall on the evening of St. Valentine's day, Feb. 14.

About Repairing A Watch.....

A PERSON will often let a watch run for years without having it cleaned or oiled. This is just as bad as having it spoiled by a poor workman. A good watch should be cleaned and oiled every year and not run more than two years at the longest. We make a specialty of repairing watches and give guarantee for the work. Our prices are reasonable. No job too difficult for us. We also repair Clocks and Jewelry and make Jewelry to order. Burmeister & Andresen The Oregon City Jewelers.
