Help... Nature

Babies and children need proper food, rarely ever medicine. If they do not thrive on their food something is wrong. They need a little help to get their digestive machinery working properly.

will generally correct this difficulty.

If you will put from one-fourth to half a teaspoonful in baby's bottle three or four times a day you will soon see a marked improvement. For larger children, from half to a teaspoonful, according to age, dissolved in their milk, if you so desire, will very soon show its great nourishing power. If the mother's milk does not nourish the baby, she needs the emulsion. It will show an effect at once both upon mother and child.

"I wrote Dr. Pierce regarding my case, and received a prompt reply, free."

"I endured nearly four years of suffering," writes Mrs. J. L. Myers, of Washington, W. Va., "caused principally from improper medical attention after the birth of a child, and female weakness, resulting in a complication of diseases. Had a terrible cough and an incessant pain and soreness in lungs.

Was reduced in flesh from 154 pounds to about two pounds in eighteen months. I had no appetite, and became so weak and nervous I could scarcely sit up. I doctored with our home physicians for two years with no benefit. I was finally induced to try Dr. Pierce's medicine. I wrote to Doctor Pierce regarding my case, and received a prompt reply, free, advising the proper medicines for my case. After taking four bottles of Dr. Pierce's Favorite Prescription and four of his 'Golden Medical Discovery,' three doses each day, also taking one bottle of Dr. Pierce's Compound Extract of Smart-Weed and some of his 'Pellets,' I ceased coughing, and am now enjoying splendid health and have gained thirty-five pounds in weight. I again feel like my former self, thanks to Dr. Pierce and his great medicines."

Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one dollar sizes. You may have a sample bottle by mail free, also pamphlet telling all about it, including many of the thousands of testimonial letters received from sufferers cured. Miss Alice Downing closed a very successful term of school last Friday. A pleasing program was rendered. Superintendent Zinker was present and gave many well selected remarks. A set of Chambers' Encyclopedia, and some other similar books were presented to the school as a nucleus around which to build a library. J. Q. Gage was called upon to say a few words to the school concerning same, to which he responded. Going back 25 years he gave a word picture of schools as they actually were at that time. The disadvantages of early schools in a new country; spoke of the advancement in supplies for the school room and the up-to-date methods of teaching, and closed by paying a fitting tribute to the set of books just placed in the hands of the school. Mr. Gage, being known as a declaimer in days gone by, was again called to the front to render one of his old-time recitations, he filled the bill by reciting "Darins Green and his Flying Machine" much to the amusement of all present. A week's vacation will be taken when Miss Downing will commence the spring term at a salary of \$50 a month.

Work for the Y. M. C. A. (Communicated) None of the institutions of our city are more thought of than the Young Men's Christian Association. Considerable uneasiness has been felt by its friends for some time past, as to the final disposition of its property and even as to its life. Approximately \$5,000 is owed on bills incurred in securing the present property and its equipment.

Although the matter has not been made public, strong and businesslike efforts have been made for the last four months to place the association on a permanent basis. The following subscriptions have been made: Williams Paper Company, \$400; Crown Paper Company, \$250; Portland General Electric Company, \$250; Portland Flouring Mills, \$250. These subscriptions are, however, conditioned upon the Oregon City Manufacturing Company subscribing \$250, and the raising of \$1,200 more in the community.

Those acquainted with the management of the woolen mill have no doubt of its action on the matter. Through the illness of one of its directors the company's board has not been able to meet to pass upon the matter. That these representative firms should back the association in such amounts shows most clearly the position in which it is coming to be held by business men all over the country. A Young Men's Christian Association in a city the size of Oregon City is nothing short of a necessity, if it keeps in any way abreast of the times. It is the disposition of the Board of Directors to reduce the indebtedness to not more than \$1,000 and if possible \$500, and to, also, fully equip the association building for an aggressive and up to date work next season. The policy at present is to conduct the work at a minimum of expense.

There is but one small chance to save your life and that is through an operation," was the awful prospect set before Mrs. I. B. Hunt, of Lima Ridge, Wis., by her doctor after vainly trying to cure her of a frightful case of stomach trouble and yellow jaundice. It's positively guaranteed to cure Stomach, Liver and Kidney troubles and never disappoints. Price 50c at Geo. A. Harding's drug store.

"I hobbled into Mr. Blackmon's drug store one evening," says Wesley Nelson, of Hamilton, Ga., "and he asked me to try Chamberlain's Pain Balm for rheumatism with which I had suffered for a long time. I told him I had no faith in any medicine as they all failed. He said: 'Well if Chamberlain's Pain Balm does not help you, you need not pay for it.' I took a bottle of it home and used it according to the directions and in one week I was cured, and have not since been troubled with rheumatism." Sold by G. A. Harding.
