Holland proved themselves capable of filling such a position by securing an excellent grade, thus making an easy grade from Clarks to the top of Buckner Hill.

After finishing the location of the road Mr. Hands spent several days surveying land in this vicinity to the satisfaction of all concerned. The parties interested were C. Tallman, John Rick, C. Klein-smith and Will McGeorge.

Chas. Tallman will begin a term of school at Clarks, April 1. Mr. Tallman has taught in this district three years in succession previous to this, and we know that it will be a successful term.

Farmers are getting anxious about their spring work.

Molalla school closed last Friday with a basket social in the evening.

Mr. Cross has lost twenty-five head of sheep from flukes in the liver. Too much low ground pasture.

It seems rather odd that our road master has to petition for his supervisorship. Road work in his jurisdiction would naturally come under his supervision without petitioning the county court to name him as the "boss" yet it is many times too true that all "road bosses" are not all competent to manage all kinds of road work to the best advantage, from want of experience and special ability for a special line of work. In such cases when much interest is involved, certainly it is the right and the duty of the county court to have such special work done by and according to contract.

The Everhart Hill is the bone of contention in the road district now, and will be past on by the county court before this appears in print, so the writer will not influence its action in the matter either way, but will welcome the day when this personal fighting in politics through all the affairs of the community shall have an end. When we cannot have a school meeting without personal politics predominating, indeed, it is time for civil-minded voters to erect political grave stones about the political lots of those political busy bodies.

Stafford

STAFFORD, April 3.—April Fool! ha! ha! ha!

The month of March came in roaring like a lion and gave promise of going out as meek as a lamb but like many other promises they were easily broken, as about dusk a brisk breeze sprung up, accompanied by rain, and the month did go out like a lamb with a lion after it.

Dr. Pierce's Favorite Prescription Doubles a Mother's Joys and Halves Her Sorrows.

It does this by a pre-natal preparation in which the mother finds herself growing stronger instead of weaker with each month. Instead of nausea and nervousness, there are healthy appetite, quiet nerves, and refreshing sleep. The mind's content keeps pace with the body's comfort. There is no anxiety, no dread of the approaching time of travail. When the birth hour comes it is practically painless, the recovery is rapid, and the mother finds herself abundantly able to nurse her child.

"Favorite Prescription" contains no alcohol, neither opium, cocaine, nor any other narcotic.

Sick women are invited to consult Dr. Pierce by letter free of charge, and so obtain without cost the advice of a specialist in the diseases peculiar to women. All correspondence strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

Mrs. Annie Blacker, 409 Catherine Street, Syracuse, N. Y., writes: "Your medicines have done wonders for me. For years my health was very poor. The Shipmaster's Cow. A certain farmer is telling mean things about a Rockland shipmaster. "The shipmaster," he says, "bought a cow of a man down my way; good critter—nothin' the matter with her. But it seems the captain's wife one day thought the milk tasted funny and suggested that 'praps she'd been eatin' spruce boughs; said the milk tasted like spruce. And what does he do but go out in the pasture to watch the cow, to see what she did eat. The cow was layin' down, chewin' her cud, and he went erlong and run his finger in her mouth to see what she was eatin'. Then he was mad. He put a rope on the cow and started off with her. He met a neighbor, who says, 'Where are you goin' with the cow?' 'Goin' to take her back to the feller that sold her to me. He's cheated me, and I won't stand it.' 'The man wanted to know what was the matter, and he went on to tell about it and says: 'She wasn't eatin' boughs, but she was chewin' gum; that's what's the matter with the milk and makes it taste like spruce. And,' he says, 'that ain't all. She's so addicted to the habit that she's worn all her teeth out. She ain't got an upper tooth in her head. Back she goes, quick.' 'Of course, the man told him that it was all nonsense—that cows never had no upper teeth. But he didn't believe a word of it and went on and had a tar-nal row with the man that sold him the cow. Guess he was never satisfied about it or knew what a darned fool he was makin' of himself.'—Rockland (Me.) Opinion.

Scott's Emulsion of Cod Liver Oil is the means of life, and enjoyment of life to thousands: men women and children. When appetite fails, it restores it. When food is a burden, it lifts the burden. When you lose flesh, it brings the plumpness of health. When work is hard and duty is heavy, it makes life bright. It is the thin edge of the wedge; the thick end is food. But what is the use of food, when you hate it, and can't digest it? Scott's Emulsion of Cod Liver Oil is the food that makes you forget your stomach. If you have not tried it, send for free sample. Its agreeable taste will surprise you. SCOTT & BOWNE, Chemists, 409 Pearl Street, New York. 50c. and \$1.00; all druggists.
