BACHELOR CAMPBELL'S BABY.

How the Prosecuting Attorney Helps Out the Traveling Public.

There are quite a number of persons who are prepared to say that Prosecuting Attorney J. U. Campbell, is a good fellow. Last Sunday evening, at 10:30 o'clock, a loaded electric car left Portland for Oregon City. When the car had been bowling along for some distance, it stopped at a crossing and a lady with several children got on board. The seats were all full and the lady looked around helplessly. She had quite a brood of little ones, with at least two pairs of twins among them. Attorney Campbell seemed agitated until the lady found a place to sit down. He then took up one of the twins and it went to sleep in his arms. About this time the conductor began to collect fares. Two young men from Oregon City had been to Portland and one of them was a little the worse for wear. He had gone sound asleep, and the most violent shaking failed to awaken him. He carried the pocket book for both himself and his partner, and their fares could not be paid. The conductor stopped the car to put them off, when Attorney Campbell came to the rescue. He handed his baby to somebody, and paid the fares of the two young men. "How lovely," said a lady passenger, "and he a bachelor, too." New novelties in trimmings and flowers. Miss C. Goldsmith.

FELLOWS WILL CONTEST.

Taking of Testimony Ended After Consuming Fire Days.

The taking of testimony in the Hiram Fellows will contest was finished Wednesday, after seven days had been consumed. The arguments of the attorneys will be heard April 29. The story of the contest is interesting chiefly because it concerns one of the old homesteads of Clackamas county. It also concerns the lives of two of Oregon's pioneers. Mrs. Hiram Fellows was the daughter of Joel Wilcox, who came across the plains in 1847. Joel Wilcox settled at Vancouver, and died of cholera or some epidemic that swept the country in an early day. He died previous to 1850. His daughter Clarissa, who afterwards married Hiram Fellows, was but 14 years of age when she went to work for a man named Durham at Oswego. That was in 1850. She worked for Durham for two years. Money was scarce and he paid her by giving her two cows and two or three lots on the present site of Park Place. Logging operations were being carried on to a considerable extent on the Willamette river. Among the young loggers was Hiram Fellows. The story goes that he took a logging contract and high water carried out the boom. He lost \$5,000 and was hopelessly in debt. In 1852 Clarissa Wilcox was 16 years old, and became the wife of Hiram Fellows. They moved out to Highland and took up a full donation land claim of 640 acres. Half of it was in the name of one, and half in the name of the other. They built their house and made all the improvements on the half belonging to Mrs. Fellows. In the meantime, the creditors of Hiram Fellows were pressing him for money. When Joel Wilcox died he left to his daughter Clarissa the sum of \$700. This money was buried in the cellar under the cabin at Highland. In 1858 Hiram Fellows settled with his creditors by turning over his half of the donation land claim consisting of 320 acres. Then he dug up the money he and his wife had planted in the cellar. To show that the soil at Highland is rich and productive, the \$700 had multiplied to \$1,500. He began to loan money to the neighbors, and came into the possession of several farms. When Mrs. Fellows died in 1897, she left by will, 120 acres of her land to her daughter Julia Ann, now Mrs. Nelson, of Montana. She had previously deeded 100 acres each to Daniel and Eli, which made up the whole 320 acres belonging to her exclusively. Orlando another son received from his father several years ago, a deed to 160 acres of land. Joseph, another son received a deed to 80 acres, both of these farms having been acquired by their father. On the same day that Hiram Fellows made his will in October, 1898, he deeded an additional 160 acres to Joseph. By his will he gave Daniel and Eli the remainder of his land, amounting to about 100 acres, besides a sum of money estimated to be about \$6,400. As near as can be ascertained the children received the following tracts of land by deed and by will: Joseph, 240 acres, Orlando, 160 acres; Daniel, 150 acres; Eli, 150 acres and Julia Ann, 120 acres. Orlando and Julia Ann are now contending that they did not get what was due them. I have the best land in the county for the least money. Try me. J. E. HEDGES
