MANUA has 244,732 people, white, black and tan. Sixteen cities in the United States have more.

THE indirect advantage of the building of battleships by the Union Iron Works of San Francisco will be the attention called to the coast and its place in the expanding commerce of the Pacific and its desirability as a place to live. All these tend to bring population and capital to us.

Ir is becoming evident that the Union Pacific is going to be a very important factor if not the dominant one in the traffic to the coast. This should mean much to Portland and Oregon. As the traffic of the coast and the Pacific grows it will center where the dominant lines of road have ports. Portland should do more for herself to take advantage of the advantages of her situation.

THE launching of the Ohio has brought by these people of the resources and advantages of this section of the country can only result in advantage to us. The people as a whole are a long time in acquiring any accurate knowledge of a given section of the country. The visit of these men will help to give an account of us that cannot help but be of advantage in the future.

THE New York Yacht Club refuses to permit Mr. Lawson, of Boston, to race his new boat Independence for the America's cup. Mr. Lawson is out more than \$200,000 on his yacht and proposes to enter anyway, the N. Y. Y. C. to the contrary notwithstanding. The cup is not the trophy of any one club ers. It is manifestly unfair for the club to bar out any sportsman from the cup races and it is an open question whether or not they can do it.

Hammond, of the latter road, denies this flatly and denounces the story as a fairy tale. People who should know and the man on the street believe that the S. P. Co. are now and always have been behind the Astoria road, But it is impossible to say how true this is as the officials will say nothing concerning it. The Harriman syndicate, which controls the Union and Southern, contemplate constructing a road from Seaside, the terminus of the A. & C. R. R., down the coast to Tillamook City and thence to Sheridan, where connection could be made with the Southern Pacific from Portland. The Harriman people would build a branch from Nehalem Bay and up the river to tap the Nehalem timber districts. This plan would be in direct interterence with the Northern Pacific's project to go into the scheme, with a proposition to construct a 43 mile line into the Nehalem and corner the timber shipments for her own port. Portland is alarmed lest the pro- Furnished Every Week by the Clackaposed extensions of the Northern, which ships from Tacoma, and the Southern, which favors San Francisco, would give her the double cross, and her fears are evidently well grounded. INDORSED CITY VIEW PARK.

Board of Trade Stands in with the Desire of Selwood.

At the court house last Friday evening the board of trade met and unanimously indorsed City View Park at Sellwood for P H Marlay to P Sharkey nel sec the site of the Lewis & Clark Centennial American exposition in 1905. The session was attended by nearly all of the proma large number of distinguished persons inent business men of the city and much to the coast and the knowledge gained enthusiasm was displayed. President Harvey E. Cross appointed the following committee to draft resolutions indorsing the fair: Mayor G. B. Dimick, chairman; E. B. Caufield, D. C. Latourette, W. A. Huntley, C. O. Williams, T. L. Charman and Judge T. F. Ryan. When the resolutions are drafted they will be sent to E. B. Madden, secretary of the Selwood sub-board of trade. Mr. Madden was unable to attend the meeting, owing to the banquet at Sellwood celebrating the location of the woolen mill. The owners of City View Park ask \$71,500 for the property and the Sellwood people hope to purchase it.

A report was made by the road com-

mittee, consisting of C.O. Williams, Frank Busch, J. T. Apperson, D. C. Latourette and Thomas F. Ryan, recommending the improvement of the Lawton and Abernethy roads. While a number of other roads would be greatly benefited although the contests have always been if improved, the committee regreted that held under the flag of the New York- the board is not so situated as to be able to assist in the construction of all of them. BASEBALL SUNDAY.

Willamette Falls Grounds.

Baseball is really of very ancient origin. The Bible tells us that Satan was a hot number on the coaching line. He Cain made a base hit when he slew Abel, Abraham made a sacrifice. Moses made ment will be held near Eugene, prob- a run when he saw the Egyptions but struck out a good many times when be beat the Philistines. David was a long distance thrower and the prodigal son made a home run.

The game at Portland last Sunday between Oregon City and Stephens Addition was played on the professional grounds at twenty-fourtn and Vaughn University of Oregon track team de- streets. There was an attendance of innings were played Umpire Rankin mahas in Portland tomorrow afternoon, called the game on account of rain, the score standing 7 to 1 in Stephens' favor.

Next Sunday a return game will be played on the Willamette Falls grounds, councilmen; E. P. Greffoz, police judge; and as the bome team has been practicbe different. Game will be called at 2 A royal chinook salmon weighing 25 p. m. Oregon City players will prob. ably be placed this way: Belt, pitcher; Lipes, substitute pitcher; Clark, catcher; Lee, first base; Kelly, second base; Hedges, third base; Labier, short stop Chapman, right field; Church, left field; McFarland (captain,) center field,

It is the intention of the home team to secure a field for permanent grounds and if they can get a long lease on desirable grounds they will eaclose them, put up bleachers and otherwise improve them. Oregon City has always been handicapped by the lack of a good field but pegotiations are now in progress with several property owners for the lease of grounds. It is likely that either the Albright grounds at the north end of town or the Willamette Falls park at the southern terminus of the Willamette Falls Railway company, will be secured. Manager Humphrys, of the local nine, said yesterday that the seam would not lease a field for less than three years and considered a yearly rental of \$30 a good price to pay. The team will request aid of the citizens in their effort to promote the sport and expect to raise \$500 to cover the cost of pulting the grounds in shape. If the baseball season is the success that it should be, subscribers to the fund will recover the amount of their subscription. A percentage is to be paid at the close of each game, after deducting operating expenses. Sixty per cent will go to the winning team and forty per cent to the losing. The club is working earnestly to make the proposition succeed and there should be no hesitation on the part of the busine

in aiding them as far as possible. The Pacific Amateur League is composed of the Fontellas, Stephens Addition, Oregon City and Vancouver and they rank in the order named.
