Tourist Car.

The tourist cars, like a newspaper in a country town, certainly "fill a long felt want". A cool, clean, well ventilated sleeping car, equally free from the discomforts of the old fashioned passenger coach and the stuffy heat of the over luxuriously upholstered drawing room and sleeping cars, and at a moderate extra fee, has solved the problem of providing attractive accommodations for the general public. The O. R. & N. Co. runs three of these cars daily between Portland and the East. A porter is in charge of each car to look after the wanta and comforts of the passengers.

Pullman Ordinary Sleepers. The tourist travel between the East and the Pacific Coast has reached enormous proportions in the last few years, and calls for a special class of equipment-To meet this demand the Pullman Company has issued from its shops what it technically calls the "Pullman Ordinary Sleeper." These cars appear similar to the regular sleepers, being built on the same plan, but not furnished with the same elegance. They are equipped with mattresses, blankets, sheets, pillows, pillow-cases, towels, combs, brushes, etc., requiring nothing of the kind to be fornished by the passenger. Each car has a stove for making tea and coffee and doing "light housekeeping," and each section can be fitted with an adjustable table. A uniformed porter accompanies each car, his business being to make up the wants and comforts of the passengers. In each of the trains which are dispatched daily from Portland by the O. R. & N. Co. is to be found one of these "Pullman Ordinary Sleepers." The car attached to the "Chicago-Portland Special" goes through to Chicago without change, and the one in the "Atlantic Express" runs to Kansas City without change. Passengers in this car for Chicago change to a similar one at Grangerr Much of the first class trayel is being carried in these cars, the rates being
