THE PASSING OF BRYAN.

The following from the Argonaut shows the way democracy is looking at the action of the Ohio democrats. Delaware democrats, formerly supporters of Bryan, admit the folly of longer yielding to his leadership.

"Individual dictation can no longer be attempted. The tip from Ohio democrats is that they have thrown off the yoke."—Augusta (Ga.) Herald.

Editorial opinions in the same strain come from every state in the South and East. But one section expresses convictions that Bryanism and the cause of free silver have not gone down together, and that is Colorado.

OREGON'S coal output for 1900 was 58,864 short tons, as compared to 86,888 tons in 1899, a decrease of nearly 68 percent.

THE ENTERPRISE has finally been given the country printing and at a price as cheap or cheaper than that paid by any county in the state.
