CUPID AND THE PEDAGOGUES.

About the only streak of light athwart the gloomy zone which we have traced Y. M. C. A. Will Conduct a Night School across the Pacific to the Philippines is the sailing of the pedagogues. Instead of ships going out laden with men and munitions of war, and returning with diseased, dead and dying soldiers, we are now sending out ships laden with the emissaries of education. The last government transport which left here carried five hundred teachers, male and female. Whatever may be thought of of our Philippine policy, the policy of education can only meet with cordial commendation. But there is one phase marriage question. If the government The last one sailed from here about the full of the moon, and from here to Honoluin love's ravages among the male pedagogues are said to have been fright ful. In fact, some particularly amorous pedagogues implored the transport captain to marry them on the spot-or rather on the high seas. But the phlegmatic skipper bade them "wait till they get to Honolulu." It is probable that Uncle-Sam, who has paid the passage of the pedagogues to the Philippines, will not only have to pay their passage back, evenings, the others on Tuesday and but the passage of some pedagoguitos as Friday evenings. There are a large well.-Argonaut.

The truth should hurt no one, but the tunities offered in the Evening College, Courier-Herald evidently believes it will, and tries to suppress it. The county printing proposition is an old one but we wish to say a few words more on the subject. Both parties in their last convention said that the proper course was for the Board to ask for bids and the Courier-Herald has been howling for the Board to stand on their platform. Instead of waiting for bids to be asked for the Courier-Herald man went to the Board and tried to get the printing without bids being asked for, or without anyone else knowing anything about it, but was told by the Board that bids would be asked for. Bids were asked for. The Courier-Herald man failed to meet fair and straight competition and did not put in a bid. He says that his bid was lost. He had none in to be lost. He is kicking because the Board would not no competition.

THE Courier-Herald charges the present Board with running the county in debt \$40,000 during the last year. If that paper will look up the financial conhibits of the county clerk, it will find that the net indebtedness of the county always goes up when a campaign is in sight. The present Board looks after the fail in any single instance." For sale by positive, guaranteed cure. Only 50c at fore us, the Kimball house assumes an DeWit 's, Accept no imitations. Geo. interests of the county as well as they G. A. Harding, Druggist.

heavy taxpayers and see that the county gets value received for money paid out. The roads of this county can not be improved on wind and the fact that such a good showing has been made on them without increasing the indebtedness of the county, shows that the county's affairs are looked after by competent and careful men.

THE strikes at San Francisco and in the East show little evidence of settlement. The men think they are not getting a fair share of the prosperous conditions of the country and the capitalists think they are paying as large wages as the business will stand. The end is not in sight and much capital and energy will be wasted before a settlement is

Onngon is neglecting one of its best opportunities to advertise the fruit industry of the state in not providing ample fruit the East. To grow as a state we must make our resources known, and the chances are good at Buffalo.

The Census Bureau has issued a report on the agricultural statistics for Alaska. It shows that Alaska's total wealth June 1, 1909, was \$15,086, of which \$2196 was invested in livestock, 600 in implements and machinery, and \$12,800 represented the value of buildings and other improvements. Buildings have been erected on nine of the twelve farms in the territory. Preparing the soil for cultivation has been the chief item of expense in opening farms, being in some instances \$120 per acre. The 12 farms have a total acreage of 159 and vegetables are the principal product. Five of the farms are only small market gardens of less than three The hop erop of Yambill county this acres. A YOUNG LADY'S LIFE SAVED.

At Panama, Columbia, by Chamberlain,s Colic, Cholera and Diarrhea Remedy.

Dr. Chas. H. Utter, a prominent physician of Panama, Columbia, in a recent letter states: "Last March I had as a patient a young lady sixteen years of age, who had a very bad attack of dysentery. Everything I prescribed for her proved ineffectual and she was growing worse every hour. Her parents were sure she would die. She had become so weak she could not turn over in bed. What to do at this critical moment was a study for me, but I thought of Chamberlain's Colic, Cholera and Diarrhea Remedy and as a last resort prescribed it. The most wonderful result was effected. Within eight hours she was feeling much better; inside of three days she was upon her feet and at the end of one week was entirely well." For sale by G. A. Harding, Druggist.
