THE LOCAL NEWS.

ESCAPED FROM CHEMAWA.—Sophia Olney was taken into custody Sunday morning and returned to Chemawa Indian School where she had recently made her escape. When arrested she was in company with her brother, as she represented, but who ultimately proved to be an accessory to her escape and not her brother.

GLADSTONE IMPROVEMENT ASSOCIATION.—At a meeting of the Gladstone Improvement Association held Monday evening a resolution was passed encouraging the Lewis and Clark Centennial Exposition to be held at Sellwood. A resolution was also passed asking the Portland and Oregon City Railway Company to grant a fare of one cent a mile between Gladstone and Portland as was the former rate.

BROKEN LIMB PLAYING BASEBALL.—On Sunday last one of the Vancouver boys came into collision with an opponent during the game at Willamette and sustained a broken leg as a result. Dr. Carl kindly administered to the distressed man, and a goodly sum of the gate receipts were appropriated to him and in all respects he was made as comfortable as possible on his way home to Vancouver.

FIRE AT WILLAMETTE.—From unknown causes fire broke out in the wood camp near Willamette Saturday and but for the active work and timely efforts of the men in the vicinity the mill's large quantities of wood might have been destroyed. The men at the camp, assisted by thirty men or more from the W. P. & P. mills, succeeded in controlling the fire within limits causing no damage to the wood and destroying large quantities of combustible material likely to cause fires in the future.

BIKE ON TOP.—While coasting down across the suspension bridge Sunday last, J. P. Keating, secretary of the W. P. & P. Co. lost his pedals owing to defective toe clips, and was compelled to take to the ground with his wheel making 10 or 15 miles an hour. The palm of his left hand was burned by contact with the bridge plank and also an abrasion and contusion of the left knee was sustained. In consequence of the mishap Mr. Keating has laid the wheel aside for a few days and now assumes the attitude of a genuine cripple.

PAINFUL ACCIDENT.—Willard Cheney, the 7 year old son of W. C. Cheney, electrical engineer, met with a painful accident Monday. While adjusting his bicycle he accidentally caught the fingers of his left hand in the chain and small sprocket wheel, completely cutting the ends of two fingers off at the first joint and crushing the bone in a third. The little fellow endured the mishap manfully and his first regret after losing his fingers, was that he would not now be able to wind armatures. Dr. Carl dressed the hand and pronounced the case not dangerous.

JOE'S BARN BURNED.—On Saturday last spontaneous combustion set fire to the commodious barn-occupied by Josi Brothers, of Mountain View, and before it could be extinguished, completely destroyed the barn and contents. Sufficient feed for the winter had just been stored in the barn consisting of upwards of 300 tons of hay and quantities of grain. Several pieces of valuable machinery were also stored in the barn all being destroyed. The barn carried \$1500 insurance and the contents \$200, these amounts covering about one third of the loss.

A PUZZLING PUZZLE.—Here is a puzzle that puzzles everybody. The other day a traveling man provided a puzzle to a merchant which made that wide-awake young gentleman feel that he was dealing with a wizard, says an exchange. The puzzle is as follows: Take the number of your living brothers. Double this amount. Add it to three. Multiply the result by five. Add to it the number of living sisters. Multiply the result by ten. Add number of deaths of brothers and sisters. Subtract 150 from the result. The right hand figure will be the number of deaths; the middle figure will be the number of living sisters and the left figure will show the number of living brothers.

55,000 BUSHELS OF OATS.—The grain firm of Simpson & Beam, of this city, yesterday completed the purchase of 55,000 bushels of oats that had been pooled by the farmers of Marion county. Bids were submitted and the Albany house was awarded the lot at the following prices: Winter oats 29 1/2 cents per bushel, or \$16.55 per ton; spring oats 28 1/2 cents or \$16.05 per ton. There are about 25,000 bushels of oats in that district not in the pool and the same firm offers to take this at the same price as that in the pool. This is the second year these grain growers have combined their interest in this line. Last year their profits over the prevailing market quotations are said to have been \$2500. This year it is estimated at \$2000, and if the offer of Simpson, Beam & Co. is accepted for the remainder of the oat crop, that district will be the gainer by about \$3000 it is believed.—Albany Herald.

What is Osteopathy? Osteopathy is the scientific adjustment, by mechanical manipulations, of the abnormal conditions of the human body. It is the drugless system of healing that has been so successful and is winning so much recognition in all parts of the United States.

It has proven itself to be the most rational and common sense method of treating disease. Drs. Christie and Love, osteopaths, graduates of the American School of Osteopathy and direct from the A. T. Still Infirmary of Kirksville, Mo., have established offices in the Stevens' building, opposite Bank of Oregon City, for the practice of this new science. They are prepared to examine and treat patients and answer all questions from those wishing to investigate Osteopathy. Office hours 8 to 12 a. m. and 1 to 4 p. m. except Sundays. Y. M. C. A. Extends Thanks to Dr. W. E. Carl.

In behalf of the Board of Directors and members of the Young Men's Christian Association I wish to extend hearty thanks to Dr. W. E. Carl for his recent gift of twenty-six volumes of standard library works to our library. The Association will endeavor to use the books to the best possible advantage for the intellectual growth of its members.

W. GILBERT BRATTIN, General Secretary.

Notes. Some of the lumber to be used in the improvement of the Association building has been laid down and work will commence very soon.

The new gymnasium supplies were ordered last week and will arrive about September 12. The gymnasium will be ready for regular class work within a few days after that time.

Now is the time to join the Association. The entrance fee of \$1 will be remitted to all joining before Sept. 15. Dues are \$2.50 at time of joining and \$2.50 one month from that time. This pays for the privilege of the baths, gymnasium, members' reading room and recreation room for one year.

A large and well selected line of periodicals will be placed on the tables of the members' reading room. The recreation room will be for games and conversation.

The Association is deeply indebted to Dr. W. E. Carl for a recent addition to the library. The addition consists of twenty-six volumes of standard books. Among them are the following:

- "Gladstone, The Man and His Works" by Dr. Gunsaulus; "Our Journey Around the World" by Dr. and Mrs. F. E. Clark; "My Story of the War" by Mary A. Livermore; "Under the Flag of the Orient" by Marion Harland; "The Louisiana Purchase" by Binger Herman; "Lowell's Poems;" "The Autocrat at the Breakfast Table" by O. W. Holmes; "Kings of the Platform and Pulpit" by Melville D. Landon; "Home School of American History" by Hamilton W. Mabie.

These books add a great deal to the attractiveness of the Association's library. Mr. and Mrs. R. A. Henderson, of Atlanta, Georgia, were callers at the Association rooms one evening during the past week.

Mr. Arthur E. Frazer, a member of the Barrow-In-Furness Y. M. C. A., Lancashire, England, spent a couple of hours in the members' room Tuesday afternoon. Mr. Frazer is chief engineer on the steamship "Nindrapura" which has been in Portland harbor the past few weeks.

M. M. Ringler, physical director of the Portland Association, was a visitor at the rooms last Friday.

Mr. A. B. Allison, of Portland, spent a few minutes in the reading room Wednesday morning.

The men of Oregon City are beginning to find out that the Association rooms are no longer merely a "boys' resort" but a place where men can go and spend a pleasant evening in reading, games or quiet conversation with friends.

The Right Handling of Books. A book should not be bent back till the binding is cracked and loosened, nor laid face downward on a chair or table, nor should its leaves be turned down to mark the place. Cultivate a good memory as to the page where you leave off, and be independent of external aids.—September Ladies' Home Journal.

Some of the Abuses of Reading. What are the abuses of reading? These: (1) Hurried reading without concentration. (2) Reading for mere entertainment without reflection. (3) Reading when we ought to be doing some other thing.—September Ladies' Home Journal.

The great artists of the Metropolitan Opera Company, which has just concluded a successful engagement at the Auditorium, Chicago, have given the manufacturers written expressions of their unanimous approval of the Kimball pianos. It is said that the artists of every other grand opera company which has visited Chicago of late years have also heartily endorsed these instruments, which, taken in connection with the highest honors received by the Kimball at the world's fair, is considered the greatest triumph ever achieved by any piano.
