who gave a general introduction as based knowledge. upon books recently selected by the esson on leaf.

One hundred and fifty four teachers egistered at the second day's session, which opened with music and was followed by a talk on number work by Miss Loretta Smith, critic teacher of the train ing department of the Monmouth Normal. She took the figures 6 and 3 in combination and went through addition, subtraction, multiplication and division, showing how she would teach it concretely and abstractly. Her lecture was illustrated by means of splints.

City Superintendent Frank Rigler, of Portland, spoke on the phonic method of ing with a child by taking different words.
