Probably never in the history of the state has the State Fair had the display that is on exhibition this year. All departments are good and a revelation to many of the inhabitants of the state as well as to strangers to our production.

ATTORNEYS are not always given the credit due them. The Bar Association of Buffalo requested Judge Emery, before whom Czolgosz will be tried to appoint ex-justices Lewis and Titus, of the supreme court of New York, members of their association.

The Czar of Russia, in his recent visit to France, was ostensibly not guarded but the burden of looking after his safety was so great that a great load of responsibility was lifted from the authorities when he left French soil.

ONE evidence of the development of the Pacific is that British mail from Australia, New Zealand and other British points of the Pacific will go by way of the United States rather than by the Suez canal as a saving of seven days is made by the American route.

It is said that Roosevelt will visit us next spring. It is hoped this is true. It would give the president a better idea of our wants and the people a better idea of their president, although the latter is not below par.

Farms and Farming.

The Making of a Farmer.

What is required to make a good man is brain and muscle. What is required to make a good farmer is brain, muscle, energy, pride and experience. Brain enough to advance ideas, muscle and energy enough to carry them out, and the proper pride and experience to back up these attributes.

solid food they could and then coax or force down more by a desert of fruit. This is, I presume, the point you had in mind. Let all remember that ripe fruit is not only to fill the stomach and satisfy one without too much solid food being taken, but it is valuable in keeping the bowels in good order, and it assists about clearing out the waste tissue, etc.

Three Clackamas Farmers.

Humphrey Jones, 20 years in mixed farming on Molalla road, five and a half miles south of Oregon City, owns 200 acres, slightly rolling land, one-quarter under cultivation. The place is well farmed, and a considerable number of cattle and sheep are raised every year.

Teasels at the For land Carnival.

Samples of teasels were received last Friday by Mayor Dimick from the farms of S. E. Gregory, of Carus, and George Gregory, of Molalla. The Gregory brothers are the only teasel growers in Clackamas County, since the retirement of the late A. J. Sawtell, who was the pioneer teasel-grower in Oregon.

Frederick Marshall, 12 years in Oregon, owns 80 acres at the foot of Highland butte, 60 acres of which he has cleared and put into cultivation. He lately rented Dr. O. C. Blaney's place, near Clarks, and will harvest about 150 acres of grain, which shows fine prospect; besides he counts the hay this season at 160 tons. He raises considerable stock, and has about 30 to 40 head of cattle and horses.

A. Engle, a native son, is engaged in stockraising in the foothills, seven miles east of Molalla Corners, raising mostly grade Shorthorns. He also buys and sells stock. His father, Samuel Engle, was a pioneer of '45 from Missouri, and settled on a farm near the Corners, where he is still living.

A News Service Without Parallel.

There is ample justification for the claim made by THE CHICAGO RECORD-HERALD that its readers enjoy every day in the week, Sundays included, a news service that is without parallel in range and completeness. The reason is obvious—the combination of the varied and extensive facilities of the two great dailies, THE CHICAGO RECORD and THE CHICAGO TIMES-HERALD.

A Certain Cure for Dysentery and Diarrhea.

"Some years ago I was one of a party that intended making a long bicycle trip," says F. L. Taylor, of New Albany, Bradford County, Pa. "I was taken suddenly with diarrhea and was about to give up the trip, when editor Ward, of the Laceyville 'Messenger', suggested that I take a dose of Chamberlain's Colic, Cholera and Diarrhea Remedy. I purchased a bottle and took two doses, one before starting and one on the route. I made the trip successfully and never felt any ill effect. Again last summer I was almost completely run down with an attack of dysentery. I bought a bottle of this same remedy and this time one dose cured me." Sold by G. A. Harding, Druggist.

The most important land contest that has been heard for some time came up for hearing in the local office Tuesday morning, and the day was passed in taking testimony for the contestant, George L. Derrick alleges that he made settlement in 1887 on 160 acres of land near Rocca, Polk county. The land was then unsurveyed and the map of survey was filed in the Oregon City land office November 15, 1892. Derrick applied to make pre-emption entry of the tract in April, 1893, but his application was rejected by the local office, because the land had been granted to the Yaquina Bay Wagon Road Company, and withdrawn in 1868. Derrick appealed to the commissioner of the general land office and his decision on June 5, 1893, affirmed the ruling of the local office. Derrick then attempted to appeal from the decision of the commissioner, but his appeal was rejected by the secretary of the interior, because Derrick had not served the opposite parties with notice of appeal. He then applied for a writ of review from the ruling of Commissioner Lamoreaux dismissing his appeal, and this, too, was denied by Secretary Hoke Smith, upon which Derrick abandoned the land. Some time afterwards the Yaquina Bay Wagon Road Company relinquished its grant. On October 2, 1900, Ira L. Losey made entry on 120 acres of the tract in controversy and relinquished it March 20, 1901. After the relinquishment of Losey, Arthur T. Merwin filed on the claim, which Derrick contests on the ground of prior settlement and prior right, although he has not lived on the land for over five years. B. F. Jones, of Toledo, appeared for the contestant and Colonel Robert A. Miller represented the contestee. The hearing was resumed Wednesday and the testimony of the contestee was heard. The papers are now in the hands of the land office officials for a decision.
