lesued by the county clerk, the in- foreign idea. of what they are petitioned to pay out today. every month. They are simply beneged every month for more money for the roads. Dozana of these requests have to be turned down. That paper says that back taxes cannot be deducted from the indebtedness of the county; that they are not available assests, but in showing what great things the clerk and sheriff have been doing it shows that they have collected some \$15,000 of back tax liens. As to the deputies in the offices of sheriff, clerk and assessor the Enterprise will agree with the Courier-Herald that the Oregon Senatorial delegation, and in war which is but legalized murder, and there are too many all around. In the past when there was more circuit court work and when real estate was moving freely the offices of clerk and sheriff did more than today, and they did not have a second deputy except for a short time on special occasions, like when the circuit and county courts were in session. When Nathan Moody was deputy sheriff, he and Sheriff Maddock did the work in the office and when H. S. Strange was deputy clerk he and Clerk Horton did the work, and the same is true of Sheriff Ganong's and other administrations. Yet all last summer and up to the time the board required the officers to show why street. There surely was a case in which they needed extra help, a second deputy was put in both the sheriff's office and the clerk's office. Furthermore, the sheriff wanted extra pay for this deputy for overtime, and he himself wanted extra pay for selling the property obtained by the county at delinquent tax sale. This sheriff was elected the first time on his own platform that he First Meeting of the Association Will would pay his deputies out of his pocket, but that is another story. As to the assessor's office three deputies are employed in making plats in accordance with a law requiring this to be done. #### THE REFERENDUM AMENDMENT.

In another column will be found the initiative and referendum amendment to the Constitution which is to be accepted or rejected by the voters of Oregon next this part of the county was sent through June. This amendment was approved by two republican legislatures, and their can state convention. It seems probable ground. The goat came from the farm that it will be favored by the next con- of Judge William Galloway near McMinn-

vention.

This amendment is much more simple and practical than the plan first proposed by the Farmer's Alliance, which aroused so much opposition. While the Enterprise does not advocate this change, we think if the people wish to experiment with this principle that it is now in practical form if it is practical at all, There are no special elections, no adver-

tising by the State, and the greater part of the expense falls on the signers of the petitions. No law is referred unless a five per cent petition is filed before the law goes into effect, except when the legislature itself orders the referendum. The legislature retains power to make a geney.

In its present form the amendment Pendleton, situated on the north bank of has the support of a great many republican leaders and voters who believe the people should hold a reserve power over for breakfast was made at Mecham, on
