Hatton, of Oregon City, is in town today in attendance at the office of the master fish warden, reporting upon hatchery sites on the MacKenzie river which he has been exploring recently under the orders of Mr. Van Dusen. Matthews, at one time principal of the Eastham school, and at present superintendent of the public schools at Wilbur, Wash., writes to friends in this city, and says that he is very much pleased with his new position. He has 220 pupils enrolled. Wilbur is a vast wheat market. Nearly a million and a quarter bushels will come into the warehouses this fall. The county in which Wilbur is situated will this year produce near ten million bushels. Around Wilbur there are hundreds of thousands of square miles with never a tree. Go west a mile from town, and one may look until his eyes are weary and he will see neither tree nor bush. Nearer to town there is a grove of Willows and service trees and shaking aspens. Even this little wood has been a comfort to Prof. Matthews.

SUICIDE OF A BRIDE.

Takes Carbolic Acid in Portland After Two Days of Wedded Life.

Mrs. John A. Emmitt, a 17-year-old girl and the bride of two days, suicided in Portland Wednesday afternoon, by taking carbolic acid. She was Miss Mary Gray, of Halsey, and came to Oregon City Sunday with Emmitt, who is a barber. They were married Monday evening by Mayor Dimick in the presence of the groom's sister, Miss Ella Emmitt, of Monmouth, and George S. Gilstrap, a barber employed in Johnson's shop, who is a cousin of Mr. Emmitt. They went to Portland and put up at the St. Charles Hotel, and spent the time sight-seeing. Shortly after noon, Wednesday, Emmitt left his bride in the hotel, saying he would return in a short time. He returned to the hotel under the influence of liquor. He and his bride had angry words, and such a distressing scene ensued that Mrs. Emmitt left the room saying she would be back in about an hour. Emmitt reclined on a couch and fell asleep. In the meantime his young wife bought carbolic acid at a nearby drug store, and the inference is that when she reached the room where her husband was sleeping she immediately drank three-quarters of the contents of the one-ounce bottle of the poison. About 4 o'clock her husband awoke and was surprised and shocked to find his bride lying on the bed, unconscious, and evidently suffering from the effects of the poisoning. Help was summoned, and Dr. A. Tilzer worked over the unfortunate girl and did all that medical science could suggest to save her life, but she remained unconscious until about 6:25 o'clock, when she died. Her body was taken to Holman's undertaking parlors and a telephone message was sent to her father, who was heartbroken by the intelligence of his daughter's untimely death. He directed that her body be sent to Halsey for burial. The dead girl was the youngest of four children. Her husband is about 25 years old, and has been a barber at Halsey since last Summer. Baby Bonnets a specialty. Miss Goldsmith.

It is a genus of plants of the cactus family, and is a native of America from California to Chili. It blooms once in every seven years.
