County's delegation including the member elected by the Courier-Herald's party unanimously voted for three comof the board and the result is that the advertising of the last tax roll controlled by the sheriff cost something like \$1200 while this year it cost \$451.80. The wisdom of this move resulted in the legislature at its next session taking the tax lists in all the counties from the sheriff and putting the publication of the same in the hands of the county courts. We year, wish to thank the Courier-Herald for ad mitting that Porter did any thing in the legislature especially when the credit for that thing has been persistently and exclusively claimed by others.

The county debt is little if any larger than it has been for ten years. It has varied a little but not materially. As we have said before the debt by the official statement of the county clerk is close to \$130,000 and it will be shown close to that figure in the next statement issued in April.

The statement made in the Courier-Herald article that Clackamas County was the banner county for high taxes is as true as anything in the article. That paper cites Oregon City with 46 mills as with 32 mills as the highest county. Neither Oregon City nor Clackamas County lead by any means. Astoria has a tax levy of 54 mills and the county levy of Clatsop County exceeds that of Clackamas. But what is the use of citing examples. It is a well known rule and that is untruthful in any respect should be doubted in all.

Logan, Or., Feb. 1 .- (To the Editor.) Please allow me space for a few remarks along the line followed by Mr.

He makes remarks about supervisors using money on the roads, yet he cites no use made of the money, how diverted from its intended use etc.

The county court made an order to the effect (at least it was published that way) that no supervisor should receive pay for a days labor, unless he reported five The law governing the the payment of days work on the road at the same time. This is a method emp oyed ment of their offices. More particularly is the family racket worked in public

The county court should see that the order mentioned at the beginning of this article is enforced and the money more evenly distributed, thereby preventing supervisors employing one or two men at a time on the road and reporting and receiving a day's labor for himself, as the cost of supervising the work is totally out of proportion to the money spent in actual work. If we cannot have our road work done satisfactorily any other way let it be done by contract.

In the case of a roads improvement where people subscribe money, the contractor can hire the people subscribing, give them a receipt for their labor, and
