# BIG BABIES.

HEALTHY CHILDREN MAKE HAPPY MOTHERS.

No baby ever came into the world, however weak and frail, but held as its birthright the precious dower of a mother's priceless love. But love can do so little for the weakling child except pity it and sorrow for its helplessness, that the mother who had looked forward to the care of her child with happy anticipation finds it a task that tests her devotion, to care for a puny, fretful, wailing baby.

What a difference when the baby is big, healthy and happy! What a joy

to watch the growth of the sturdy little one, whose gurgling laughter finds an echo in the voice of every member of the family.

The question is, are the conditions which determined the strength or weak-ness of the child unalterable? Is it possible that a mother who has borne several children and lost them all because of inherent weakness, can be strengthened that her children shall be bealthy and hardy?

to that question, written by a woman who is certainly competent to speak as to the remarkable strength-giving power of Dr. Pierce's Pavorite Prescription.

Mrs. Alex Kjer, of Gordonville, Cape Girandeau Co., Mo., writes; "When I look at my little boy I feel it my duty to write to you. Perhaps some one will see my testimony and be led to use your 'Favorite Prescription' and be blessed in the same way. This is my fifth child and the only one who lived; the others having died from lack of nourishment—so the doctor said. I was not sickly in any way and this time I just thought I would try your 'Prescription.'
