Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless hearing will be destroyed forever; nine cases out of ten are caused by catarrh,

"Had falling of nterns, and kidney and liver disease, and was so weak and nervous I could not keep still. Would take nervous spells and almost die at times. I had saeveral different doctors attending, but they could not do me any good. The last one I had said I would never get up again. Told him that I was taking your "Favorite Prescription" and 'Golden Medical Discovery,' and he said, 'Might just as well take that much water each day. But I thought I would give the medicine a fair trial. Before I had finished the first two bottles I was able to get outside the house and stalk atound the yard. I kept on taking the medicines and they cured me."

Ryan was awarded the gentlemen's first as early as possible in order that the tax not realize without heavy losses and pretending to have the option of some provision and get a rebate of three per valuable concessions in China, he obcent by paying their taxes before March tained various large amounts of money for three mouths.

No one for a moment suspected that there was anything in the least degree shady about the man or his transactions, and when he made it public that creditors felt absolutely certain that he would meet his bills.

To their immense surprise, however, when they came to look through their papers to find the bills they only found bills with blank spaces in the places where the swindler's name should have been and had actually been. They clamored round him for an explanation of the strange affair, but be denied that he had ever given any of them bills and defied them to sue blm for repayment of the loans, and the fact that the bills were devoid of the swindler's signature rendered them absolutely worth-

The matter was put into the hands of the police, who were able to discover that in signing the bills the man had used a solution of iodide of starch, which, when first used for writing, appears much the same as ordinary ink, but completely disappears in the course of a few weeks, and, although traces of the chemical may subsequently be discovered, nothing can make the writing show up again. Finding that his victims had discovered his method, the schemer decamped, despite the fact that the chances of the police obtaining a conviction against him were very remote Indeed.

A Judicial Retort.

Sir William Meredith, chief justice of Ontario, Canada, was formerly a very prominent politician as well as a famous lawyer. He was especially noted for his success as prosecuting attorney, and few criminals escaped conviction when he addressed the jury.

During one of his political campaigns he was speaking at a meeting in the city of London, his native town. The audience was turbulent and he was frequently interrupted. Finally a voice from the gallery cut into one of his finer flights with a sarcastic "Oh, go and get your hair cut!"

Sir William, who were his hair somewhat longer than is usual, was stopped by a burst of laughter. But as soon as he was able to make himself heard he turned the laugh and won the audience by this reply: "My friend, if I'm not mistaken, I've had your bair cut before this!"-New York Commercial Advertiser.

Fainting.

The direct cause of fainting is a diminished circulation of blood through the brain. To revive a person who has fainted it is necessary, therefore, to alter this condition as quickly as possible. In order to do this the individual should be laid quite flat, the head on a level with the body, so that the feebly acting heart will not have to propel the blood upward. The neck and chest should be exposed, fresh air admitted freely, water sprinkled on the face and stimulating vapors, such as ammonia, held at intervals to the nostrils. When there is difficulty in restoring animation, friction over the region of the heart with the hand or a rough cloth should be applied vigorously.

Exemplifying an Adage. "Yes," said the old conductor, "I have followed the rallroad about all my life. I wasn't exactly born on a train, but I was married on one at the rate of forty-five miles an hour." "That was a good deal like marrying

in haste." "It was. And we got thred of each other while we were making the return trip on a freight train.

"That was a good deal like repenting at leisure."-Chicago Tribune.

Grow Randsome. Would you like to be truly beautiful? Thoreau says: "We are all sculptors and painters, and our material is our own flesh and blood and bones. Any nobleness begins at once to refine a man's features and any meanness or sensuality to imbrute them." So there, now, you sour visaged, plain faced people, go along about your business

of doing injury to less positive people, the very emphasis of their affirmation making up for lack of argument and want of evidence. And the worst of all dogmatists are those doctors who, harking back to some old dogma of the schools, insist that certain patients are beyond all medical help, because, forsooth, their diseases are beyond the limited medical know-ledge of the dogmatist.

"When the physicians had given me up I was cured by the use of Dr. Pierce's Golden Medical Discovery." That states ment, varied sometimes in form but identical in fact, is one of the common expressions found in the letters of those cured by "Golden Medical Discovery. Sometimes the statement runs; "I was given up by four doctors," showing a desperate effort to find relief in local practitioners. But however the story begins, it almost invariably ends with the statement, "I am perfectly cured by Dr. Pierce's Golden Medical Discovery."

Persons suffering from "weak" lungs, hemorrhages, deep-seated cough, ema-ciation and weakness, have been restored to perfect health by the "Discovery." The philosophy of the cures effected

by this marvelous medicine is not hard to understand. Life is sustained by food, digested and assimilated. The food, digested and assimilated. The basis of health is a good appetite and a sound digestion. In almost all cases o disease loss of appetite is an early symp tom, and this is promptly followed by a wasting of the flesh. For some cause the food caten is not being converted into nutrition and the body and its or gans, being starved, must grow weak There is only one way to get strengt and that is by food. Dr. Pierce's Golder Medical Discovery heals diseases of the stomach and allied organs of digestion and nutrition, so enabling the body to assimilate the needed nourishment. Thus various forms of "weakness," so-"weak" lungs, "weak" heart, "weak" nerves, "weak" or sluggish liver, etc. because the organs are made strong by food, which is perfectly digested and assimilated after the "Discovery" has healed the diseases of the stomach and associated organs of digestion and nu-

PAIN ALL GONE.

"I have taken your medicine with the greatest, satisfaction," writes Mrs. George Richt, of Lock port Station, Westmoreland Ce., Fran'a, and can howestly say Dr. Pierser's Golden Medica Discovery has cared me of a pain in my righ lung that the best doctors could not beip. My appetite and digestion have improved so that can eat anything at all, and I feel better than have for years. Your "Favorite Prescription has cared me of womb trouble that I suffered from for fifteen years, and painful mouthly troubles. I can wark a whole day and not ge tired. My pain is all gone and I feel like a new person. I suffered with headache all the time but have no headache now since taking your medicine. Your "Golden Medical Discovery and "Pavorite Prescription" do all that you claim for them, and more, too. I have been cured of and 'Favorite Prescription' do all that you claim for them, and more, too. I have been cured of troubles that I suffered from for fiften years' and the best doctor in the State could not cure me. 'Golden Medical Discovery' cured me o' neuralgia that I suffered from for five years, and if my letter can save one other poor sufferer, you can publish it."

"ALMOST A MIRAGLE."

"I took a severe cold which settled in the bronchial tubes," writes Rev. Frank Hay, of Nortonville, Jefferson Co., Kansas, "After stying medicines labeled "Sure Cure," almost without number. I was led to try Dr. Pierce's Golden Medical Discovery. I took two hottles and was cured, and have stayed cured.

"When I think of the great pain I had to endure, and the terrible cough I had, it seems almost a miracle that I was so soon relieved."

Dr. Pierce's Pleasant Pellets cure constipation. They do not re-act upon the system and become a necessity, as do many other pills.
