Barnum's Monkeys

"All well—all happy—lots of fun". That is the regular report from the monkey cage of Barnum's Circus ever since the keepers began dosing the monkeys with Scott's Emulsion. Consumption was carrying off two thirds of them every year and the circus had to buy new ones.

One day a keeper accidentally broke a bottle of Scott's Emulsion near the monkey cage and the monkeys eagerly lapped it up from the floor. This suggested the idea that it might do them good. Since then the monkeys have received regular doses and the keepers report very few deaths from consumption. Of course it's cheaper to buy Scott's Emulsion than new monkeys—and that suits the circus men.

Consumption in monkeys and in man is the same disease. If you have it or are threatened with it can you take the hint?

This picture represents the Trade Mark of Scott's Emulsion and is on the wrapper of every bottle. Send for free sample. SCOTT & BOWNE, 409 Pearl St., New York. 50c and \$1. all druggists.

Bert Jonsrud and J. Revenue took Dick Tonyke, a highly respected fellowman, to Salem for the asylum; he became violently insane. Once on the trip to Oregon City they had to tie him down. While so doing, he shouted "murder;" a farmer in the field running out with a shovel as a weapon to help the unfortunate man. Mr. Revenue and Mr. Jonsrud came very near being laid out with the shovel. Just in time Mr. Revenue noticed the infuriated farmer and shouted "Don't strike, we've got a crazy man;" whereon things were explained.

No damage was done to grain by the cold snap. All the spuds were well housed, so the good will more than balance the harm. Rev. Dunlap who has been assisting Rev. Harrison Lichtentabler's brother from Missouri was visiting him for several days the past week. Rev. Barber and wife expect to leave for California shortly for the benefit of Mrs. Barber's health, which is not very good.

Thousands Have Kidney Trouble and Don't Know It. How to Find Out. Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in 50c. and \$1. sizes. You may have a sample bottle of this wonderful discovery and a book that tells more about it, both sent absolutely free by mail, address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper.

The school in this district was closed the past week, the teacher, Mr. Mosher, being in attendance at the teachers' examinations at Oregon City. Miss Helen Murray taught at the Woods school the past week, the teacher, Miss Inez Thompson, being in attendance at the examinations in Oregon City. The A. O. U. W. and Degree of Honor lodges expect to start to build their new hall as soon as good weather sets in. The hall will be a two-story building and will be 40x60 ft. The Congregational church members contemplate building an addition to the church for an Academy. We wish them success as this would be a big help to this part of the county.

Marshall has not improved in condition since a week ago. He is very weak. E. F. Surface has returned from Oregon City, where he took the teacher's examination in Portland. Mr. Samuel Eggle has been under the doctor's care for ten days, while he has been very low. It is hoped he may yet get about again. The Molalla school will close next Thursday; all the fault that could be well founded with our school, is, it is three months too short. If spring has not come, winter has tamed down and the mercury gone up 40 degrees; while the grass is regaining its natural color the frogs are croaking their familiar excuse for a melody. Mr. Green Stewart had the misfortune to fall and severely hurt himself about the hip at P. J. Kaylor's. The patient was removed to J. N. Stewart's, under the care of Dr. Leavitt. South Avenue is almost impassable for traffic; think we'll have to apply to the "legislature" (which is now in session at the Scotts Mills) for an appropriation to enable us to properly drain and roof it over.

The American working man is generally well filled. In some cases it is too well filled. It contains too many kinds of food, and very often the food is of the wrong kind—hard to digest and containing little nutrition. As a consequence many a working-man develops some form of stomach trouble which interferes with his health and reduces his working capacity. Where there is indigestion or any other indication of disease of the stomach and its allied organs of digestion and nutrition, the use of Dr. Pierce's Golden Medical Discovery will almost invariably produce a perfect and permanent cure. Mr. Thomas A. Swartz, of Sub Station C, Columbus, O., Box 193, writes: "I was taken with severe headache, then cramps in the stomach, and my food would not digest, then kidney and liver trouble and my back got weak so I could scarcely get around. At last I had all the complaints at once, the more I doctored the worse I got until six years passed. I had become so poorly I could only walk in the house by the aid of a chair, and I got so thin I had given up the thought that I could not be cured. Then one of my neighbors said, 'Take my advice and make a new man out of yourself.' The first bottle helped me so I thought I would get another, and after 4 had taken eight bottles in about six weeks, I was weighed, and found I had gained twenty-seven (27) pounds. I am as stout and healthy to-day, I think, as I ever was."

FREE. Dr. Pierce's Common Sense Medical Adviser, paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y. Saved Him From Torture. There is no more agonizing trouble than piles. The constant itching and burning make life intolerable. No position is comfortable. The torture is unceasing. De Witt's Witch Hazel Salve cures piles at once. For skin diseases, cuts, burns, bruises, all kinds of wounds, it is unequalled. J. S. Gerall, St. Paul, Ark., says: "From 1865 I suffered with the protruding, bleeding piles and could find nothing to help me until I used De Witt's Witch Hazel Salve. A few boxes completely cured me." Beware of counterfeits. Geo. Harding, N. Y.

Miss Ettie Daugherty is quite ill at her sister's, Mrs. Ralph Sawtell. Mrs. Charles Thomas has a severe spell of the gripe; Hattie has about recovered. Mrs. Carry Herman is improving in health after being ill some three weeks with scarlet fever. Geo. Ogle, Esq., came home from his McMinnville visit with a very sore throat but is now able to be about again. A protracted meeting will be commenced at Harless hall on the second Sunday in March, by Elder Jas. Moore. Mr. Ernest Lehman, dairyman of Teasel Creek, had the misfortune to engage his thumb with a circular saw last week.

The Grand Cañon of the Colorado. Eastest of access among all the canyons of Colorado, being situated on the line of the Denver & Rio Grande Cannon City and Salida in the heart of the Rockies, it is the most awe-inspiring and magnificent sight this mighty cleft in the heart of its rock barrier rush the raging Arkansas River, lashed by fury and dashed into spinning eddies, its swift descent through the defile, so narrow is the passage-point that there was no room for road and river, and therefore a constructed bridge of steel, thrown lengthwise of the cañon, suspended from iron supports, the canon walls on each side, and left. And right here can be seen the climax of all the cañons' grandeur which has been aptly called "The Grand Cañon of the Colorado." For two thousand feet the solid monoliths wear five times as lofty as the Washington Monument, the highest permanent structure reared by the hand of man. Only a few words can adequately describe the significance of the scene. Only a few have beheld its glories can do justice to it.
