PRESIDENT ON SCHLEY'S APPEAL. In President Rooesvelt's decision on the appeal of Admiral Schley from the findings of the court of inquiry, he says : "I am satisfied that, on the whole, the court did substantial justice." This should put a quietus on the controversy. With his usual thoroughness, the President went over all the records and personally examined Admirals Evans and Taylor, and Captains Clark and Wainin his decision. Captain Clark says that question. "did not, as a matter of fact, exercise any control over any movement or action of the Oregon." Admiral Evans says: "Nor did I receive any orders whatever from the Brooklyn; nor would I have the Republican party too? heeded them if I had received them." Admiral Taylor makes the same statement: "I received no signal whatever from the Brooklyn, and should not have heeded any if one had been made."

growers' Association.

The Portland Oregonian of last Sunday said editorially :

In spite of the tremendous fight made by the dairy interests of the country on oleomargarine, a total of 108,000,000 pounds of the product was made and sold in the United States last year. These figures constitute a heavy indictment against the taste of the American people, providing this enormous quantity of occomargarine was bought and eaten with a full kuowledge of its character. If, however, it was palmed off on an unsuspecting public as butter, it forms a heavy indictment against the honesty of its manufacturers. The effort to regulate She sees her friends and nods and winks the sale of this product is legitimate in so far as it is confined to making oleomargarine stand upon its own merits and appear in market under its own name. Beyond this, as, for example, the effort that has been made in some states to force manufacturers by law to color the product pink or blue in order to make it disgusting in appearance to consumers, the crusade against oleomargarine is not justified. It is only when it is put out as butter that dairymen have a right to protest against it, and in this protest they will no doubt be joined by such consumers as have a decent regard

And Commander Wainwright says: "I received no signals from the Brooklyn."

In summing up, President Roosevelt, referring to the captains ' testimony, declares the question of command is, in this case, "nominal and technical," inasmuch as "the actual fact, the important fact, is that after the battie was joined. not a helm was shifted, not a gun was fired, not a pound of steam was put on ... in obedience to the order of either Sampson or Schley, eave on their own vessels. It was a ceptain's fight." The President also holds that the court should have "specifically condemned the failure to enforce an effectual night blockade" by Admiral Schley, but doubts "whether no excuse whatever from efther side for any further agitation of this unhappy controversy. And not only are they getting better roads, but this county is looked on as a leader. amendment.

In speaking yesterday of the political situation in Clackamas county, Mr. U'Ren said that so far as he can learn Brownell will have no opposition to renomination. If there is any fight in that county, either for or against Governor Geer, the evidences of it have not yet appeared upon the surface. Mr. U'Ren says the senstorial question will probably figure in the selection of candidates for the legislature, but thus far this feature of the fight has not become prominent.
