TONGUE REPLIES TO CRITICISM

Says That River and Harbor Bill Is a Good Measure.

HE GIVES THE FACTS AND FIGURES

Challenges Anyone to Point Out a Single Unworthy Measure Contained in the Pending Bill.

WASHINGTON, D. C., March 19, 1902.—(To the Editor.)—I wish if you have time you would read over the speech of Mr. Burton in introducing the River and Harbor bill, at least that portion of it on page 3091 of the Congressional Record. There has been a very wide criticism of the River and Harbor bill based upon the alleged ground that a very large number of insignificant streams and rivers and creeks were improved for the purpose of procuring votes for the bill. Newspapers have made criticism all over the country. I think the Oregonian, some time ago, presuming doubtless that the criticisms were based upon truth, had an editorial to the same effect. The facts and figures given by Mr. Burton ought to dispel this mistaken apprehension, and remove the bill from this ground of criticism. What Mr. Burton calls the small projects do not relate to harbors. There are, of course, many small harbors. Oregon has some of them. Washington has some of them. Very little criticism has been made in reference to them. They are conceded to be the proper objects for national improvement, but the criticisms have been directed to the creeks, sloughs, etc. I was somewhat surprised myself to find that the total appropriations for all of the rivers, creeks and sloughs in the country, accommodating an annual tonnage of 100,000 tons and less, in a bill carrying \$60,000,000, only amount to \$417,000; that this appropriation is to take care of an annual tonnage of 2,290,368. You will see that the appropriations for this tonnage is infinitely less than for the tonnage provided for in the large ports. The appropriation for the mouth of the Columbia River is a little over \$1.00 per ton to the annual tonnage. The same is true of many other large projects, but of the appropriations of this bill of \$60,700,000, \$60,000,000 and approximately \$500,000 go for the great projects, and for the harbors of the country bordering upon the Lakes and the Ocean. You will notice too that Mr. Burton, in order to controvert this statement, that unworthy projects are placed in the bill to get votes, challenges the Committee of the whole House, of the State, of the Union, to point out and criticize any single unworthy measure that the bill contains, courting light and facts and criticism. I hope this speech will dispel the general belief upon which have been based a great many unjust criticisms of the river and harbor bill. I might further say that so far as small projects are concerned, Oregon and Washington have been quite well taken care of.

Cordially and sincerely yours, THOS. H. TONGUE.

A Horrible Outbreak

"Of large sores on my little daughter's head developed into a case of scald head" writes C. D. Ishill, of Morgantown, Tenn., but Bucklen's Arnica Salve completely cured her. It's a guaranteed cure for Eczema, Tetter, Salt Rheum, Pimples, Sores, Ulcers and Piles. Only 25 cents at Geo. A. Harding's.

Entertaining Fiction.

One advantage of reading a serial story in a daily newspaper is that an installment of convenient length is received every day that does not consume an undue amount of the reader's time. An installment of a high grade serial story appears in every issue of the Chicago Record-Herald—a popular feature of that enterprising Chicago daily. Every issue contains also a short illustrated humorous story on the editorial page. Readers of the Chicago Record-Herald can depend upon a never-failing source of pleasant entertainment in the noteworthy fiction that is always to be found in its columns.

Mr. Wheeler Got Rid of His Rheumatism.

"During the winter of 1898 I was so lame in my joints, in fact all over my body, that I could hardly hobble around, when I bought a bottle of Chamberlain's Pain Balm. From the first application I began to get well, and was cured and have worked steadily all the year.—R. Wheeler, Northwood, N. Y. For sale by G. A. Harding, Druggist."

STRUCK DOWN.

Slain in the Hour of Success.

The Indian who trailed the hunter silently and secretly through the woods, often played with his victim as a cat plays with a mouse. Just in the moment of the hunter's success, the blow fell; silent, sudden, swift.

There are certain forms of disease which seem inhumanly malevolent. Like the Indian they seem to play with the victim, until some day when he has reached the height of success and is thinking to "take life easy," disease strikes him down, perhaps never to rise again, or maybe to drag out the remainder of existence in physical pain and privation.

The best example of such a malevolent disease is found in dyspepsia and allied forms of "stomach trouble." Not long

ago the newspapers were calling attention to one of the richest men of the age working in his garden like a common laborer for his health's sake and for the same cause living abstemiously on a diet which a laborer would despise. There's a conspicuous example of the class of people whose success seems almost failure. But how many people are struck down fatally in the hours of success, no man can absolutely say. Stomach "failure" means heart failure, the failure of kidneys, liver, lungs and any other organ, inasmuch as each and every organ of the body is dependent on the stomach for its nutrition and therefore for its vitality. For this reason no vital statistics can ever give the number of those who fall victims to disease of the stomach and the other organs of digestion and nutrition, because the cause of their disease is charged to other organs diseased through the stomach.

WHAT'S THE MATTER WITH YOU?

Is it "weak" lungs, "weak" heart, kidney "trouble," liver "trouble" or disease of any other organ? You will find that in general, if you trace the disease back it originates in a diseased condition of the stomach and its allied organs of digestion and nutrition. The best proof of this is that diseases of heart, liver, lungs, kidneys, etc., are constantly being cured by Dr. Pierce's Golden Medical Discovery which is primarily and chiefly a medicine for the cure of diseases of the stomach and of the blood. The body and all its organs are sustained by food, properly digested and assimilated, which when converted into blood forms the nutrition by which physical life is renewed day by day, and meal by meal.

Something That Will Do You Good.

We know of no way in which we can be of more service to our readers than to tell them of something that will be of real good to them. For this reason we want to acquaint them with what we consider one of the very best remedies on the market for coughs, colds, and that alarming complaint, croup. We refer to Chamberlain's Cough Remedy. We have used it with such good results in our family so long that it has become a household necessity. By its prompt use we haven't any doubt but that it has time and again prevented croup. The testimony is given upon our own experience, and we suggest that our readers, especially those who have small children, always keep it in their homes as a safeguard against croup.—Camden (S. C.) Messenger. For sale by G. A. Harding, Druggist.

But when the stomach and other organs of digestion and nutrition are diseased the nutritive properties are not derived from food, the blood becomes impoverished, the flesh "falls away," the consequence of this loss of nutrition generally find its expression in some organ which has been longest diseased. Thus as starvation causes weakness when the nutrition fails short of the needs of the body we may look for an expression of that weakness in some organ—lungs, liver, heart, kidneys, etc. The diseased stomach is cured by Dr. Pierce's Golden Medical Discovery, the diseases of other organs which inated in the disease of the stomach cured also.

WHAT PROPER SAY.

"Your 'Golden Medical Discovery' and Dr. Sage's Catarrh Remedy have been of great benefit to me." (Prof.) Pleasant A. Oliver, of Vinton Co., Ark. "Before I used the mentioned remedies my sleep was not restful, my digestion bad; a constant feeling of misery, and I felt like a new man."

"I have been using your medicine," writes Mrs. W. M. Lynch, Lynch, Boyd Co., Va., "and I can't say too much in their praise. They helped me more than any other doctors have helped me in two years. I spent dollars for my medicine, but received no benefit. The medicine I took of a lady friend advised me to write to Dr. Pierce, did so, took his medicine, and am now as well as to be able to do my own work. I subscribed for 'Golden Medical Discovery' and the 'Pain-Expeller' months for three and indigestion, and kind doctor advised me to know that they were the case, as they helped me so."

"I have taken your medicine with great satisfaction," writes George Riehl, of Newport Station, Waco and Co., Pa., "and honestly say Dr. Pierce's Golden Medical Discovery has cured of a pain in my right lung that the doctors could not help. My appetite and digestion have improved so I can eat anything at all, and I feel much better than I have for years. My pain is gone and I feel like a new man."

"I am glad to testify to the benefit derived from Dr. Pierce's Golden Medical Discovery," writes Miss Mary Summerton, of San Diego, Cal., Texas. "I was troubled with very severe headaches, often accompanied by vomiting; bowels were irregular and my stomach and liver seemed continually out of order. Often I could almost nothing, for twenty-four hours at a time. I was entirely unfit for work, my whole system seemed so weak that I feared a severe sick spell, and was very much discouraged. It was only by trying Dr. Pierce's Golden Medical Discovery and did so with such satisfactory results that before finishing the bottle I felt perfectly able to resume the duties attending public school and contracted to do so."
