The first lot will go to Pendleton for distribution. It will take about three weeks for the complete distribution to be made. No directions have yet been received from Washington concerning the 500,000 salmon hatched

from eggs taken from the Clackamas River and 100,000 lake trout received from Duluth, Minn.

STATEMENT OF TAXES PAID.—The accumulation of work in the office of Sheriff J. J. Cooke caused by the rush of people to pay their taxes before March 16, in order to obtain the three per cent rebate, caused the clerical force in the office to get far behind with the books, but Wednesday Sheriff Cooke was able to announce the amount received up to the time the rebate ceased. The total amount of tax to be collected was \$168,162.76 and the books were opened for collection February 17. The total amount of taxes collected up to and including March 15 was \$112,190.71. The amount of money received was \$108,974.07. The amount received in half payments on which no discount was allowed was \$4967. The taxes paid in full on which the three per cent discount was allowed amount to \$107,224.71 less the discount of \$3,216.64 brings the balance to \$104,007.07. The clerk at work on the cash book is engaged in checking up the taxes paid since March 15 and in a few days the total amount of taxes paid to date will be announced.

Walling, farmer, Oswego; Louis Kirchem, farmer, Harding; Milo Gard, farmer, Highland; Alfred Sharp, farmer, Tualatin; Albert E. Stokes, merchant, Canemah.

WEATHER AND CROP CONDITIONS.—Abnormally cool weather has prevailed during the past week over the entire State. In the western section moderately heavy showers have occurred almost daily, while in the eastern section they were principally confined to the first few days, the latter half of the week being cloudy. The maximum, or day temperatures in Western Oregon ranged between 44 and 64 degrees, and the minimum temperatures between 34 and 48 degrees. In Eastern Oregon the maximum temperatures ranged between 42 and 64 degrees, and the minimum temperatures between 24 and 38 degrees. Light frosts have frequently occurred, but as yet they have caused little or no damage to fruit or vegetation, owing to the backwardness of the season. The cool, showery weather has been unfavorable for farm work and the growth of vegetation. Fall-sown wheat and oats are in good condition. Winter wheat is still backward, and the spring sown is slow in germinating. Warm, sunny weather is badly needed to bring the wheat crop up to its normal condition. Hop yards are looking fine, and in some sections the vines will soon be ready to train. Thus far there are no complaints of missing hills. Grass has maintained a slow but steady growth throughout the week, and pasturage in the western section is reported to be in good condition. In the eastern section the weather has been too cool for satisfactory growth to ensue, and as a result feed is short on the ranges. Fair

progress has been made in garden and potato planting. In southern Oregon and portions of the Willamette Valley early planted gardens are up and looking well. Peaches, apricots, early plums, prunes and some varieties of cherries are in full bloom. Stock is improving.

Let Us Help Each Other

If I make the price of all drug store supplies so low that you can buy more cheaply in Oregon City than in any other town in the state (Portland not excepted), will you stay with me? Much money has gone to Portland because the price of some well known patent medicine was advertised at a ridiculously low price, perhaps considerably less than cost. While you have bought the one advertised article at a cut price you probably have also purchased two or three other things on which a city merchant makes 25 per cent. more profit than I do. Will you help me to prevent this hold up game? Do you ask how these prices can be met? Because every dollar's worth of stock that comes into this store is paid for the minute it arrives. Large purchases direct from the manufacturers, cash discounts, personal attention to every detail of the business, together with low rent and a large volume of business makes it possible.

I can and will meet every cut price besides saving you many dollars on the purchase of drug store necessities the price of which you know nothing. I want to be honest with you and give you better prices and better goods than you have ever had before. Will you help me with your patronage on this basis?
