Uncrowned Queens. In the original meaning of the word every woman was a queen, for the word queen meant woman. In monarchic countries the wife of the king became the queen—the woman. In America we give the word back its original meaning and every woman becomes a queen. The crown of womanhood is maternity. Every healthy woman looks forward to marriage. Every wife looks forward to motherhood as the crown of womanhood. And yet there are many uncrowned queens; women who because the desire for children is unrealized feel that they have missed the full regal height of womanhood. It is one of the sad features of a large bureau of medical correspondence such as conducted by Dr. Pierce, of Buffalo, N. Y., that it has to deal so many times with the disappointed hopes of women who have failed of the happiness of maternity. But it is one of the glad privileges of this same medical correspondence bureau that in the greater number of such cases, the obstacles to maternity are overcome by the establishment of the womanly health. Not infrequently women write that they feel perfectly well and cannot understand why they are denied the maternal happiness which they desire. Such women learn that feeling well and being well are widely different matters. Few women are by nature debarrated from the happiness of maternity. In the majority of cases Dr. Pierce's Favorite Prescription, supplemented by letter, are sufficient to establish the womanly health and remove the obstacles to maternity. An OPERATION AVOIDED. "I had been a sufferer from uterine trouble for about three years, having two miscarriages in that time and the doctors that I consulted said that I would have to go through an operation before I could give birth to children," writes Mrs. Blanche E. Evans, of Parsons, Luzerne Co., Pa., box 41. "When about to give up in despair I saw the advertisement of Dr. Pierce's medicine in the Wilkes-Barre Record, and thought I would give it a trial as a last resort. I bought a bottle of Dr. Pierce's Favorite Prescription from the druggist, T. F. O'Donnell, of Parsons, and after taking it felt better than I had for years. Felt improved before I had taken one-half of the bottle. After I had taken four and a half bottles I gave birth to a bright baby girl, who is now four months old, and has not had a day of sickness. She is as bright as can be. I cannot say too much in praise of Dr. Pierce's Favorite Prescription." Dr. Pierce's Favorite Prescription is peculiarly and specifically a medicine for the cure of diseases peculiar to women. It will cure any disease which is curable by the use of medicine, and often cures diseases pronounced incurable by local physicians, or which they state are curable only by surgery. "Favorite Prescription" establishes regularity, dries weakening drains, checks inflammation and ulceration and cures female weakness. It is the best preservative for motherhood; tranquillizes the nerves, encouraging the appetite and inducing refreshing sleep. It makes the baby's advent practically painless. "For five years my wife was in an almost helpless condition, suffering from female weakness," writes J. R. Remond, Esq., of Hagerman, Washington Co., Pa. "Last September I decided to try Dr. Pierce's Favorite Prescription. We took several bottles of the medicine and gave birth to a ten-pound baby on January 31st, 1898. It is now sound and well doing her household work." "I gladly recommend Dr. Pierce's Favorite Prescription," writes J. W. G. Stephens, Esq., of Northumberland Co., Pa. "Before my third child was born I took six bottles. He is the finest child I have been from birth, and suffered very much less than I ever did before. Unhesitatingly advise expectant mothers to use 'Favorite Prescription.'" AN INVITATION TO WOMEN. Sick women, especially those suffering from disease in chronic form, are invited to consult Dr. Pierce, by letter, free of charge. Correspondence is of a sacred character and will be held in strictest confidence and privacy. Dr. Pierce in his personal consultations with women at the Invalid Hotel and Surgical Institute, Buffalo, N. Y., address Dr. R. V. Pierce, Buffalo, N. Y.
