SUPREME COURT DECISIONS.

Last week the State Supreme Court made three decisions, the gist of which follows:

An instrument once a mortgage is always a mortgage, and the parties cannot divest it of its character and treat it as a deed, so as to convey title, by any subsequent verbal understanding or agreement.

It is the duty of a master to give an unskilled servant warning when exposing him to a dangerous service and to instruct him how to avoid injury.

A dedication of roads made by entering a plat thereof in the county records will be presumed to be a dedication for the general public, unless otherwise shown, and this applies where land in the country has been cut up into small tracts and sold, as well as where city property has been cut up into lots and blocks.

When a milling company has purchased grain stored with a warehouseman, and thereby has caused a shortage in the amount of grain owned by depositors in the warehouse, the depositors may recover from the milling company. They may do so even though the company bought believing that the warehouseman had authority to sell.

All the parties in interest in a controversy should be made parties to the suit, either as plaintiffs or defendants, and where it is possible to make them parties half of all.

A sheriff's return on a writ of attachment is not invalid where it shows that a copy of the writ was delivered to the occupant of the real property, who was a Chinese whose name was not known

to the sheriff. A vendor of personal property cannot recover in a suit tor breach of contract of sale, unless he shows an offer to deliver property of the kind and quality specified. In an action of this kind tried before the court a judgment for plaintiff cannot be sustained unless there be a finding upon the point when the lasse was raised.

this week Senator Beveridge used in unanimous for Stevens. substance the following language:

"The need of industrial civilization is given England sales of \$300,000,000 annually to her dependencies.

"The Democratic policy toward the Philippines is a policy of decrepitude. "We shall not turn the Philippines back

to barbarism or abandon them to rival powers, or haul down the flag. We shall do our work like Americans and men till all the East shall bless the name of the great republic and all mankind shall cheer American beneficence.

"Taking no thought of the morrow is

the counsel of insolvency.

"Since the war with S in our farms have increased \$1,220,000,000 in value, our productive investments over \$500,-000,000, our factory payrolls have increased \$500,000,000 a year. Interest on the public debt is \$7,000,000 a year less, and the balance of trade in the five years is injured by expansion?

"Upon the grave of every American soldier, wherever he yielded up his life, let the grateful tears of the Nation fall. And in the cause for which American soldiers have given up their blood let the winole world know that the American people are united,"

#### POLITICAL HACKS.

THE ticket nominated by the "Citizens" in Oregon City Tuesday consists of a congregation of sore-head Republicans, political hacks and happy populists. Those who imagined all Populists were dead sadly erred. There were some good points made in the "Citizens" convention, but not enough to offset the breaks. A grave error was made in making so him the whole party in that county. We do not think that Senator Brownell is so powerful as pictured, and if he is, he is certainly not such a boss as painted. It was a mistake to make the overthrow of one man the whole issue, and especially was it out of place for those he had so soundly thrashed politically to lead the attack against him. They have but advertised him the more and what the peobusiness, run the Republican party in conduct the affairs of every county office. seeded on summer-fallowed land. Clacksmas County is woefully in debt, tis true, but what has a state senator ing the week and consequently stock has fortably provided for. As the case is got to do with that? The question the improved very much, and the flow of mild the isolation will be of benefit to voters of Clackamas should ask relative tionately increased. Clover, alfalfa and among medical men that patients reto Senator Brownell is, has he made a timothy, although somewhat backward, cover quicker and better under those good legislative record in behalf of the are looking fine. The lambing season circumstances than if confined to close people.-Aurora Borealis.

So the Courier-Herald thinks the Enterprise man wants to hold up the Republican ticket. Why so much interest in the Republican ticket? This in bloom and the fruit outlook is most is the third campaign the Enterprise has encouraging. Success in the past has early vegetables have been planted. made this political brigand very bold in his operations with all political parties.

THE reports received from the West Side indicate that William Brobst will carry three forths of the vote on that side of the river. If a man is strong among his neighbors he should be strong throughout the county. No better man could have been nominated or will receive a higher vote. The opposition talks about a strong man for commismoner. They should vote for the republican nominee if they mean what they

NEW LAND LAW.

County Surveyor Ernest P. Rands Discusses Its Provisions.

Relative to the new land law, which is of great interest at this time, County Surveyor Rands said yesterday :

"Under the new law, whenever the owner or owners of one or more tracts of land desires to permantly establish the the boundaries and corners thereof he or they shall notify the county surveyor to make a survey thereof, and shall furnish him the names and addresses of all parties, so far as known, whose lands may be affected by such a survey. Upon As he is now nominated for treasurer on receipt of such norification the county surveyor shall notify each person named therein, stating the date when he will begin the survey.

TWO CASES OF SMALLPOX.

City Had a Scare Last Sunday and Established a Pest House.

The town was alarmed Sunday by the on April 1st. This ought to be a hot smallpox, both cases being in buildings situated on the Main street of the city. TWELVE YEARS IN OFFICE.

Not Satisfied With This Ir asurer Luclling Asks Two Years More.

NEEDY, Or., Apr. 22 .- (To the Editor) -In the biographical sketch of Mr. A. Luelling, published last week in the Courier-Herald, we glean the following facts: That he was elected six years to office in Washington County as a Republican, and when he could get office no longer there he left the county and moved back to Clackamas County, and immediately devoted his attention towards getting a mile strip of the north end of this county cut off and annexed to Multnomah County, circulating a petition for that purpose himself. Failing to secomplish his end in this, he drifted into the Populist party, and in 1896 he was nominated and elected county recorder; in 1898 nominated again, and defeated. Then was made deputy county treasurer for two years, and in 1900 was nominated on the fusion ticket for county treasurer, and elected, making up to date 12 long years he has sucked the public teat on a salaried office, and still he wants more. the Citizens' ticket, making fourteen years in office, when, oh when, is this dear old man going to let go the test? Citizens, taxpayers and voters, don't you think it time right now?
