"Over thirty thousand lamous instruments produced and sold last year by one of the big Chicago enterprises' says the Chicago Journal, in an editorial on their business eituation in Chicago.

"One of the big Chicago enterprises that has had an unusually large year, is the Kimball Piano Company.

"Thirty thousand of their instruments, including planos, reed organs, and pipe organs, were bought last year, and the growth of their use in schools, churches and colleges is especially gratifying to their makers.

"The piano in the blue room at the White House is a Kimball, and the indorsements by countless musical authorities, among them Nordica, Emma Eames, the DeReskies, Sembrich, Calve. Pol Placon, Sousa and others as well known, has helped the Kimball Company to build up the great trade it now enjoys.

Andrew Carnegie gave a Kimball pipe organ to the Pitteburg cathedral, and President Diaz, of Mexico, gave a Kimball piano to Mrs. Diaz."

POLITICAL NOTES.

Mr. Eastham, in his speech at the Citizens' meeting here a short time ago, laid particular stress upon a question he propounded as to why Senator Brownell did not secure the passage of measures in the Senate that he had promised his constituents, at the session of '97. Will the gentleman kindly adjust his thinking cap and let a few scintillating rays from his Websterian cranium penetrate the veil and mist that surrounds 1897 in his mind, and he will see Senator Geo. C. Brownell doing all that fay within his power to organize the Legislature of Oregon and the political friends with whom he is now consorting doing all within their power, too, in preventing the organization of the Legislature, thereby making it impossible for Senator Brownell or anyone else to do anything or have The case may be appealed to the Suanything done. The famous Fellows will case which has been hanging fire for some time was also decided Monday.
