SANITARY WORK OF OUR ARMY IN THE PHILIPPINES.

Whatever diverse views may be entertained regarding the wisdom of our present policy in the Philippines, no one will benefits conferred by our army of occupation.

Militarism is never quite so defensible as when employed in the business of cleaning up the plague and disease his life and never been known outside of breading spots of the earth. For this bis own ward. work the army is splendidly organized and equipped. As an agency for sanitation and disinfection it bas no equal. It can enforce sanitary and health regulations with superb disregard for the obstinacy of ignorance. The work of the British army in cleansing the plague spots of India and driving ignorant and stubborn natives into the hospitals at the point of the bayonet has commanded the admiration of the civilized world. The work of our army in transforming Cuba from a filthy and pestilential fever-breeding island into a land of health and sanitation will be the most creditable act that history will record in telling the been in progress in this city all the week. story of our intervention.

What the army has done in the Philippines in the establishment of sanitary measures for checking the frightful mortality from smallpox and the bubonic plague can hardly fail to mitigate the sesaverity of the criticism that has been heaped upon the army. Of course there has been much loss of life as a result of the war, but General Wheaton declares that the mortality from that source seems infinitesimal when one takes into consideration the hundreds of thousands of lives that have been saved by reason of the sanitary precautions of the American army and the Taft commission. The general places the number saved in this way at half a million. Compulsory vaccination, enforced in every province and town, has stamped out smallpox. In General Bell's department alone 300,000 were vaccinated. By prompt and vigorous measures the army also succeded in preventing the bubonic plague from geting a footbold in the islands.

Upon such work as this must rest the justification of our military occupation of the Philippines. Civilization, not commercialism, can alone excuse our continued assertion of sovereignty over the

THE Kansas farmers have overcome the physical inertia of the hobo. They did it with a gun. The deficiency of farm hands in Kansas is estimated at about 10,000 men. The harvest fields, with their golden seas of overripe grain, are calling for men. A freight train westward bound was wrecked near the town of Pratt. On the train were fifty or sixty tramps bound for Colorado for their health. The farmers heard of it and offered them \$2 per day and plenty of good food and shelter. They declined the offer. Thereupon the farmers tried shotgun persuasion with the result that nearly all of the tramps are now toiling in the barvest fields of Pratt County, and they will be kept at it until the wheat is all garnered. The Causes a dull pain in the back, loin or picturesque feature of the episode is furnished by the women of the farms, who are acting a guards, each armed with a shotgun.

If the Pratt County idea spreads it may offer a solution of the whole tramp problem.

On this day we should Young, contracter; John W. Kelly, carrealize that the fathers of this govern- rier. ment in order to give the blessings we enjoy to their posterity had to give up much and they placed themselves is the shadow of the hangman's noose to gain sub-contractor the freedom we enjoy. These are some of the things we should not forget and turn the day over entirely to noise.

THE efforts of several people in this city to bring about a satisfactory settlement in the P. C. &. O. strike are very commendable. Strikes are deplorable. This one has caused inconvenience to residents of Portland and Oregon City and intermediate points. The accident to the Grey Eagle was unfortunate in more than one way. Besides a loss to the Oregon City Transportation Company, which has had to bear its share of loss of late, it has prevented the installation of a faster schedule and the traveling public has suffered thereby. The sympathy of the people of this city has been largely with the employes but a strong desire for a settlement of the difficulty has always been entertained.

THE selection of Hon. A. S. Dresser as orator of the day of July Fourth is a high compliment to his ability as a speaker. No man in the city is better fitted. A deep thinker, a lawyer with a judicial his choice of language, Mr. Dresser will hold the attention of his audience and will deliver an instructive and entertain- to-wit; ing oration.

What does Tracy and Merrill think of the posse that has chased them over two states with bloodhounds and militia be disposed to discredit the testimony of companies? It would be interesting to General Loyd Wheaton as to the sanitary know their real opinion of their pursuers.

BATTLE OF THE BALLOTS.

There is considerable sensation In regard to education

Which seems to trouble the people who live on the West Side. Ebey had an election the other day

To see who would have the say In administering the laws by which the others should abide.

The Irish and the Dutch Against the English and the Scotch Had a battle of the ballots which laid the latter in the shade.

There was talk of dissolution, Like a Southern revolution, And threats of annihilation with great

frequency were made. Mike Clancy and his band. Made a most determined stand

Against the allied forces of Humphry and McKay, And nothing amounted to much

Against the Irish and the Dutch. So the English and their minions were completely swept away.

It the rising generations Of the Scotch and English nations Can continue electing level heads to guide their young careers,

They will soon become enlightened And their social standing heightened Till they'll equal the Dutch and Irish, whom they now concede their peers. But their night is getting lighter.

And their prospects getting brighter And emancipation from their density it seems is now quite near;

For with a sense of duty's call And in justice to them all, Mike Clancy will run with Hansen in the election there next Fail,
