Why to East over the sun-burned, sage brush and alkali plains when you may just as well take a delightful, cool and comfortable ride through the heart of the Rocky Mountains in view of the grandest scenery on the American continent?

This you can do by traveling on the Rio Grande System, the far famed "Scenic Line of the World," the only transcontinental line passing through Salt Lake City, Glenwood Springs, Leadville, Colorado Springs and Denver enroute to eastern points.

Three daily express trains make close connections with all trains east and west and afford a choice of five distinct routes of travel. The equipment of these trains is the best, including free reclining chair cars, standard and tourist sleepers, a perfect dining car service, and also personally conducted excursion cars, each in charge of a competent guide, whose business is to look after the comfort of his guests.

TO MOTHERS

Mrs. J. H. Haskins, of Chicago, Ill., President Chicago Arcade Club, Addresses Comforting Words to Women Regarding Childbirth.

"DEAR MRS. PINKHAM:—Mothers need not dread childbearing after they know the value of Lydia E. Pinkham's Vegetable Compound. While I loved children I dreaded the ordeal, for it left me weak and sick

for months after, and at the time I thought death was a welcome relief; but before my last child was born a good neighbor advised Lydia E. Pinkham's Vegetable Compound, and I used that, together with your Pills and Sanative Wash for four months before the child's birth.—It brought me wonderful relief. I hardly had an ache or pain, and when the child was ten days old I left my bed strong in health. Every spring and fall I now take a bottle of Lydia E. Pinkham's Vegetable Compound and find it keeps me in continual excellent health."

Mrs. J. H. HASKINS, 3248 Indiana Ave., Chicago, Ill.—\$5000 forfeit if above testimony is not genuine. Care and careful counsel is what the expectant and would-be mother needs, and this counsel she can secure without cost by writing to Mrs. Pinkham at Lynn, Mass.

AROUND THE COURT HOUSE

The will of the late William R. Bagby, of Molalla, was filed with the county clerk Monday afternoon. His widow, Harriet W. Bagby, is named as executrix. The bulk of his property is left to four sons, Robert W., Henry M., Frank S. L. and Thomas E. Bagby. He left \$5 each to his remaining sons, John, Jesse and Calvin W., and the same amount to his daughter, Mrs. Margaret M. Pelky.

The estate of Budd Smith has been admitted to probate. He died May 18, 1902, and left an estate appraised at \$450. His heirs are his widow, Tillie Smith, aged 24, and his son, George Dewey Smith, aged 4 years. The court named his wife as administratrix and fixed her bonds at \$400. The appraisers are David C. Ball, R. D. Ball and Andrew Johnson.

A marriage license was issued yesterday to P. L. Coleman, formerly principal of the Canby school, and Miss Carrie Bair, daughter of Colonel Bair, of Needy.

FLOWER AND TREE.

Palms never live more than 250 years. Ivy has been known to live 450, chestnut 600, oak 1,000 and yew 2,800 years. Nothing is better for house plants than to be set out in a gentle, warm rain, but a cold rain and wind are anything but hopeful to them.

In planting trees an important point not to be forgotten is pressing the soil down upon the roots so that they will come in close contact with it.

A pot of flowers in bud should receive all the sunshine possible, but when the buds open keep them in shade, and they will last longer.

The largest apple tree in New England is in Cheshire, Conn. Its trunk measures one foot above all root enlargements, 13 feet 8 inches in circumference.

An orchard, whether young or old, should not be allowed to grow where heavy crops of grass are taken every year. It is weakening to the soil and detrimental to the trees.

In Ashanti there grows a tree resembling in appearance the English oak, which furnishes excellent butter. This vegetable butter keeps in perfect condition all the year round in spite of the heat.

Drinking Through the Nostrils. The Indian sages do not practice their breathing exercises simply for the sake of repose and sleep. During the rebreathing energy is increased. These Indians are not the only people who believe that with the rebreathing of pure air there comes something still more vital than oxygen. But the Indians have developed the art of breathing more than any other people.

One of their favorite exercises is to inhale through the left nostril, to hold the breath for a time and then exhale through the right nostril.

Another of their exercises is to drink water through the nostrils, and after it has been retained for a short time it is expelled through the nostrils and the mouth. This is said to cool the head.—Chambers' Journal.

Growing Bananas. Bananas are as a rule planted out systematically in rows, the "suckers" being placed at an average of ten feet apart. The banana plant bears only one bunch at a time, but it is a quick grower, yielding its fruit in twelve to fourteen months. When the plant is about six months old, a second "sucker" or shoot is allowed to spring from the root, a third after the ninth month, and so on, so that after the first year there is a continuous crop being reaped.

Unanswered. "Say, pop, may I ask you a question?" "Yes, Teddy. What is it?" "When a man's finished milking a cow, how does he turn off the milk?"—New York Times.
