A dispatch from Seattle says: "Sheriff Cudihoe has just received the startling intelligence that members of the posse exchanged shots with Tracy a few miles west of Covington at 11:40 o'clock. The dispatch, sent by J. A. Bunce, states that the convict was chased into the brush at a point between Covington and a mile west of there. An urgent request is made that the bounds be sent to the spot at once. This shows that Tracy, baffled in his attempt to board the freight train, is working toward Covington, probably with the intention of trying to board the next train at a point where the grade is steeper. It is regarded as likely that, finding his pathway barricaded, he may try to backtrack toward Auburn or Kent. Ex-Chief of Police Woolery and Deputy Sheriff Brewer, of Everett, have been added to the force covering the region between here and the Green River bridge. The bloodhounds will be sent toward Covington before daybreak, in order that as little time as possible may be lost in placing them on the outlaw-convict's trail. The opinion prevails that Tracy has now placed himself in a death trap from which nothing but his wonderful luck can release him.

Rain checks the spread of cholera.

MOTHERHOOD

The greatest ambition of American men and women is to have homes blessed with children. The woman afflicted with female disease is constantly menaced with becoming a childless wife. No medicine can restore dead organs, but Wine of Cardui does regulate derangements that prevent conception; does prevent miscarriage; does restore weak functions and shattered nerves and does bring babies to homes barren and desolate for years. Wine of Cardui gives women the health and strength to bear healthy children. You can get a dollar bottle of Wine of Cardui from your dealer.

WINE OF CARDUI

123 Market Street, Memphis, Tenn., April 14, 1901. In February, 1901, I took one bottle of Wine of Cardui and one package of Theodor's Black-Drainage. I had been married fifteen years and had never given birth to a child until I took Wine of Cardui. Now I am mother of a fine baby girl which was born March 21, 1901. The baby weighs fourteen pounds and I feel as well as any person could feel. Now my home is happy and I never will be without Wine of Cardui in my home again. Mrs. J. W. C. SMITH.

His motive was jealousy. After the triple murder he gave himself up to the police.

Sheriff Cudihoe, of King County, says he now has Tracy in the most dangerous position since he reached Puget Sound. The outlaw slipped away from his pursuers again yesterday afternoon and plunged into a thickly wooded swamp near Black Diamond, Wash. This is in the direction of Palmer, the point he is believed to be heading for. Cudihoe has reduced his force, and with tried men will continue the man-hunt as long as the fugitive remains in Washington.

Late advices from Auburn state that Tracy is known to be about nine miles east of Auburn. Oregon counties, for the last year, have been paying out nearly \$5000 for scalps of wild animals, principally coyotes. The county stands one-third of this amount, and the state two-thirds. The appropriation made by the Legislature of 1901 is already exhausted, and \$20,000 in claims are on file. The counties are relying on the next Legislature for reimbursement. Lane County, however, does not propose to pay out any more money on this supposition, and has made an order that no scalps will be accepted.

Lord Kitchener, fresh from his victories in South Africa, arrived at Southampton yesterday morning, and reached London soon after noon. His entry into the metropolis was an ovation. The procession from Paddington Station to St. James' Palace drove through a mass of cheering humanity. At the palace luncheon was served, and the General was toasted by the Prince of Wales. Later he went to Buckingham Palace and paid his respects to King Edward and Queen Alexandra.

Saddest of all the scenes of the great mine disaster at Johnstown, Pa., were the affecting leavetakings of the dead, which commenced yesterday morning. All day the Croatian, Slav and Greek Catholic churches were filled with picturesque throngs, who attended the last service for the dead. Knots of women and men stood on the street corners, weeping and groaning. Many women who attended the last rites in the churches were overcome with grief and fell fainting to the floor. Most of the funerals today were in St. Stephen's Slovak Church, where both Slavs and Poles worship. At the Greek Catholic Church and the Croatian Church, where mass was said over many of the dead, the streets surrounding the buildings were choked with great throngs clamoring for admission.

While the posse searching for Tracy, the escaped Oregon convict, was scouring the Palmer, Wash., county, firm in the belief that he was in that section, the fugitive was going in another direction. It has just come to light that he appeared at a farmhouse near Enumclaw, Wash., Sunday, secured a meal, and impressed a boy into shaving him, while three men stood by terrorstricken. Where the desperado is now no one knows.

In the morgue at Chehalis, Wash., lies the body of Merrill, the escaped Oregon convict, who was shot to death by his pal, Tracy, the outlaw who is now terrorizing Washington. The discoverers did not take part in the man hunt and will not receive the reward for the return, dead or alive, of the convict, but will be liberally rewarded.

A SUFFERING WIFE

Saved by the Suggestion of a Thoughtful Husband.

A man can rarely enter into a woman's sufferings when they are caused by diseases peculiarly feminine. Even when the character of the suffering is graphically described the man cannot appreciate the force of terms for which he has no equivalent in his experience. All he can do is sympathize and suggest.

But when a woman hears the story of a woman's suffering every word has its just weight with her. Even more, she

When the doctors pronounced his wife's case incurable, it was the husband who suggested the trial of Dr. Pierce's Favorite Prescription. It was the prompt benefit derived from the use of "Favorite Prescription" that induced the husband to consult Dr. Pierce by letter on his wife's behalf. The result was a complete cure. This result commonly follows a fair and faithful trial of Dr. Pierce's Favorite Prescription. It was made to cure womanly diseases and it does what it was made to do. It has cured hundreds of thousands of weak and sick women and cured them perfectly and permanently. A great number of these cures have been effected after doctors had pronounced the sufferer incurable and condemned her to a martyrdom of misery for the term of her natural life.

"Favorite Prescription" establishes regularity, dries the drains which weaken women, heals inflammation and ulceration and cures female weakness. It cures nervousness, headache, backache and other ills which have their cause in womanly diseases.

"I write to let you know the great benefit I have received from the use of your medicines," says Mrs. Sidney B. Oakes, of Whitwell, Pittsylvania Co., Va. "I am so grateful to you for your advice. When I commenced your medicines I had been treated by different doctors for three months or more, but would only receive partial relief for a short while and then would be worse than before their treatment. Was confined to my bed most of the time. At the time I commenced your treatment my left side was completely paralyzed. Had no appetite, no desire to eat anything; bowels costive all the time. Nerves were all unstrung, so I could not bear the least noise. I also suffered from diseased ovaries and female weakness. But thanks to my Maker and you, after following your advice, I am able to do all my washing, sewing and house work in general. I haven't had a spasm in two months. Left off medicines about one month ago. Didn't think it necessary to continue them longer. I have taken Dr. Pierce's Favorite Prescription, 'Golden Medical Discovery,' and 'Pleasant Pellets.'"

Every sick woman especially if suffering from disease of long standing is invited to consult Dr. Pierce by letter free. Address Dr. R. V. Pierce, Buffalo, N. Y.

Sometimes a dealer tempted by the little more profit paid by less meritorious medicines will endeavor to foist on his customer a substitute for "Favorite Prescription." There is nothing just as good for weak and sick women as Dr. Pierce's Favorite Prescription.

BIG AND GOOD.

"Little and good" is the common saying runs, but that things may be both big and good is proven by Dr. Pierce's Common Sense Medical Adviser. It is sent free on receipt of stamps to pay expenses of mailing only. Send 31 one-cent stamps if the cloth-bound volume is desired or only 21 stamps for the book in paper covers. Address Dr. R. V. I did so, and began to improve fast. If anyone doubts this give name and address.
