TOLD IN SIDEHEADS.

LES PAPILLONS TONIGHT.—Under the auspices of this popular society organization there will be a dancing party tonight at Canemah park, another of a series of such functions enjoyed this season.

BRICK FOR NEW STRUCTURE.—The brick have arrived and are being delivered for the erection of the S. Garde building, at Main and Seventh streets. The material was manufactured at Newberg and is pronounced by mechanics to be of splendid quality.

NEW LOCATION.—Manager Domico, of the Pacific Postal Telegraph Company, has changed the location of his electrical dispensary. He has secured desk room in the postoffice building and will hereafter be pleased to accommodate the public at his new location.

THE MAYOR PERFORMS.—Mayor Dimick was called upon last Sunday forenoon to pronounce the sentences which made Eli B. Beck and Miss Martha M. Kisor man and wife. The ceremony was performed at the home of the bride's mother, Mrs. M. J. Kisor.

OPERATION CAUSED DEATH.—As a result of an operation performed for the removal of an abscess Monday forenoon, Ross Parker, of Clackamas, died at his mother's home that evening at 9 o'clock. Deceased was 21 years of age and is survived by a widowed mother.

TOOK A TUMBLE.—Two lads, touring in the trailer from here to Portland, Sunday evening, when near Milwaukie attempted to board a passing car and were precipitated some distance down an embankment, sustaining some quite serious bruises. One of them received a severe cut on the right cheek and a slight wound on the scalp. They were brought back to this city and their wounds attended to.

WEDDING AT CARNIVAL.—One of the important attractions at the Elk's carnival in Portland in September will be "wedding day." One couple has already signified their desire to "face the music." Many valuable presents will be given and the participants will be given their choice of being married in a captive balloon or in the court of honor, with the queen and her attendants as witnesses.

NEW LAW FIRM.—There has been formed a strong combination in our city in the law profession, the gentlemen being Messrs. Gilbert L. Hedges and Hon. William Trailway, late receiver of the United States land office here. Both members of the firm are widely and favorably known and the recent consolidation forms one of the strongest law firms in Clackamas County. They will pay particular attention to land office business. Their offices are in the Weinhard building.

COMPANY A'S SMOKER.—The members of Co. A, O. N. G., enjoyed another of their popular smokers Monday evening.

It was the occasion also of their regular monthly meeting and a very pleasant evening was had. Over fifty persons were present, and the features of entertainment were speeches, readings, etc. The militia boys are taking much interest in their work and Company A is as prominent at this time as any company in the state.

WERE COLLEGGEMATES.—In last Friday's Telegram appeared an illustration of the group of Arctic explorers, known as the Baldwin expedition. The commander of the polar regions, Mr. Baldwin and County School Superintendent Zinser were collegemates over twenty years ago. Mr. Zinser has a photograph of the commander, given to him many years ago, which he prizes very highly.

CHARGES UNFAIRNESS.—J. C. Rudd, representing the Alaska Miner's Association, who had been in Portland for some time, arranging for passenger and freight transportation from that place instead of Seattle, completed his work and started on his return north the first of the week. Mr. Rudd says that each trip of a steamer out of Portland for Nome means that 1000 men will embark, each one buying his outfit in the Oregon metropolis. He charges the Seattle people with "cinching" the miners.

LEG WAS AMPUTATED.—John S. Reilly of this city, member of Company D, Second Oregon Volunteers, who has been at St. Vincent's hospital in Portland for some time, had his left leg amputated at that institution on Monday. Last January a piece of steel penetrated the limb and has been a source of much trouble since, and Monday a very serious change took place and in order to save the life of the young man the member was amputated above the knee. Dr. E. A. Sommer, of this city, assisted in the operation.

WILL IMPROVE SERVICE.—The new board of water commissioners met Monday evening at the Engine house and elected officers as follows: President, C. H. Canfield; secretary, T. L. Charman; superintendent, W. H. Howell. W. B. Zumwalt, the new member of the commission, was present. The board has under consideration several improvements in the system. Among other improvements will be the placing of a tank on the hill, to be used as a store-house for a supply to flush the filters. The board will make other improvements as soon as it can see its way clear to do so.

RECEIVED SCHOOL MONEY.—County Treasurer Cahill received a check last Saturday from State Treasurer Moore for the full amount of the funds for this county apportioned from the State fund. The amount is \$11,842, but it will not be apportioned to the several districts until the first Monday in October. The apportionment throughout the state is claimed to be larger this year than ever before, but statistics in the county superintendent's office show that in 1899 the August apportionment for Clackamas county was in excess of that for this year, the amount being \$11,910.88.

IMPROVEMENT ON MOLALLA.—Fred Hurst, representing the Aurora Waterway & Power Company, last Saturday filed with the county recorder maps and notes of some proposed improvements to take place on Molalla river, which may develop into the establishment of a large electric plant. Capitalists have been attracted to that locality on account of the timber and mineral resources. Some months ago it proposed to improve the river so that logs might be floated in it, but that plan was later considered impracticable, and the late plan is to put in an electric line to convey the manufactured product to the railroad.

CONFIRMED SALE OF GREEN ESTATE.—In the probate court Monday Judge Ryan confirmed the sale of property in the John S. Green estate to the Oregon Water Power and Railway Company for \$11,000. This matter has been dragging through the courts for several months, there being some rivalry between that company and the Portland General Electric Company for ownership, since it is considered valuable property for development purposes. The point of contention was whether or not proper legal service had been made on certain of the heirs.

LOOKING AFTER WILLS ESTATE.—In the probate court last Saturday a motion was made for the final settlement of the estate of George Wills, deceased. This case has been before courts since 1899, when an order of distribution was made, but settlement was delayed owing to the question of one heir to the estate of whom satisfactory view could not be found. After several years the estate is in condition for final settlement, and the court is asked for the necessary orders. Judge Ryan will make his decision after looking over the circumstances of the case.

ROUNDING UP THE MEMBERS.—Columbia Hook and Ladder Company held its regular monthly meeting Monday evening, when a small-sized surprise was very cleverly worked on some of the absentees, who were enjoying the pleasures of the merry-go-round in preference to spending an evening in doors. The attendance on this occasion was small and a committee was sent out to interview the brothers. They were taken before the meeting and a small fine was imposed on them, which they reluctantly paid, but promised to "be good" in future. Three consecutive fines for non-attendance forfeits membership.

SUNDAY BALL GAME.—The first game of ball played at Canemah park since that resort has been enclosed by a fence and supplied with a grand stand took place last Sunday, the contestants being the Oregon City team and the All Stars of Portland. The score was 14 to 8, and it has been said that the home boys could have held the visitors down to four runs, but for some errors charged up against them. About 300 spectators were present during the progress of the tryout and much enthusiasm was manifested by the friends of both teams. The park was liberally patronized all day, a great many people coming up from Portland to spend an afternoon in the shade and cool.

BOY "SPAT" ON GOODS.—A slight mixup occurred last Friday morning between L. Tolpolar, a second-hand dealer, and a small boy. Tolpolar charged the boy with spitting on his front display of goods, and took the lad to task for his conduct. The dealer has been tormented for some time in this manner by sundry youngsters, and his time to strike finally came after a long wait. Catching the boy in the act, he flew at him with a determination that meant business. The offender was turned over to Chief Burns, who gave him a healthy reprimand and admonished him to be more careful of his conduct in the future.

HANNA-BEATTIE WEDDING.—A very pretty home wedding took place at Eugene yesterday forenoon at 11 o'clock, when Mr. William Gilbert Beattie, of this city, and Miss Wiliametta Hanna, of Eugene, were joined in wedlock. A number of relatives and intimate friends were present, among them being Mr. and Mrs. R. G. Beattie, parents of the groom, and Mr. and Mrs. Chris. Schaeffel, of this city. The young couple will visit relatives here and in Portland for a few days, thence to Tacoma and Seattle, from where they will sail about the 15th of the month for their future home in Wrangell, Alaska.

DEATH OF N. TINGLE.—Mr. N. Tingle, who has resided at Gladstone for the past two years, died at his home at 12:15 o'clock Tuesday afternoon. Deceased suffered a paralytic stroke several years ago and has gradually grown worse, his condition becoming very critical last Friday, after which time he rapidly failed. He was 67 years and five months of age, and leaves a wife and only child, Mrs. Harvey Cross. Mr. Tingle was a veteran of the Civil war, enlisting in Ohio. In 1870 he came to Oregon, settling in Washington county. He soon after removed to Columbia county, where he resided until nearly two years ago, when he removed to Gladstone.

WOODMEN SURPRISE CIRCLE.—The regular meeting of Sola Circle, Woodmen of the World, on Tuesday evening was made one of the most enjoyable occasions in the history of the order in this city. After the usual routine of business had been disposed of, the Woodmen in great numbers applied for admission, greatly to the surprise of the ladies. Late the male contingent carried their purpose to a more complete surprise for the ladies by taking in fifteen gallons of ice cream and rendering a program of music, vocal and instrumental. There were drills and numerous other enjoyable features to make up the evening's pleasures. It was close to the midnight hour when the meeting was brought to a close, all participating retiring with reluctance.

OLD COUNTY WARRANTS.—The county treasurer reports that at last Saturday there were presented to him for payment three county warrants issued about seven years ago. The warrants had been taken from the county clerk's office about the time they were drawn, carefully laid away and forgotten. Their owner, considering them to be old enough, presented them for payment, but instead they were endorsed and registered and another way will be necessary. People too often forget that county script does not bear interest until the signature of the treasurer holder and the officials. These three warrants were issued during the time G. F. Horton was clerk.

ST. AGNES GUILD SOCIAL.—The members of St. Agnes Guild of St. Paul's Episcopal church gave a lawn social Friday evening last at the home of Mr. and Mrs. J. C. Brady, on Sixth street. The lawn was very prettily decorated for the occasion and a most pleasing, although short program was rendered, consisting of a recitation by Miss Clara Koerner, solo by Miss Conyers, reading by Mrs. Vaughn and a recitation by little Clarice Zumwalt. Ice cream and cake and coffee and sandwiches were served by the young ladies of the Guild. In addition to this there were candy and lemonade booths. A very enjoyable evening was spent. The total receipts of the evening was over \$18, to be applied on the purchase price of a new lecture, which has already been installed in the church. It is a handsome and quite expensive piece of furniture, and its presence will add both convenience and comfort to not only the rector but to the membership as well.

SEEKS A DIVORCE.—Suit was instituted in the circuit court Monday by Lizzie Scott against her husband, Edwin L. Scott, seeking relief through the instrumentality of Judge McBride from the bonds of matrimony existing between plaintiff and defendant, on the grounds of desertion, nonsupport and cruel treatment. The defendant lives in Tacoma. The couple were married in 1888 at Salem, Iowa. The county clerk passed a "sleight" remark at the time the reporter was taking the data for this item that some person had very cleverly made a prearrangement of matters to suit such cases in the statement that Portland was the place for people to become acquainted, Vancouver the place to get married and Oregon City the place to get divorced, and experience seems to demonstrate the truth of the utterance. We seem to be imposed upon in this county in the matter of divorce cases from the outside.

SUCCESS OF OREGON BOY.—H. C. Hoover, formerly of Newberg, has just returned to San Francisco, thence to London, after a brief visit to the Northwest. Mr. Hoover is one of the youngest and most successful mining engineers in the profession, and is now receiving a salary of \$25,000, only seven years since he was graduated from Stanford University. While in the Northwest he visited his old home at Newberg. There he spent his boyhood and received his early education. Soon after graduation, Hoover went to Australia in the interest of Bewick, Moring & Co., a leading London mining firm. Hoover did such good work for the firm in Australia that they sent him to China to take charge of the great coal deposits in the north. His reputation was such that he was appointed the consulting engineer to the Director-General of Mines of the Chinese provinces of Chi Li and Jihl. He served for some time in the double capacity, conducting explorations for his company and gathering information for the government.

Grand Clearance Sale of Millinery. Miss Goldsmith.

What We Say We Do We Do Do We Sell . . . You what you ask for and don't insist on your taking "Something Just as Good" in order that we might make a larger profit. We Sell . . . You at prices that can't be beat in the State—Goods, too, that are fresh and new. No old stock to work off. We Use . . . In our prescription work the best Drugs and Chemicals that money can buy, all the care and caution essential to such work, and if you'll bring your prescriptions here we'll convince you our prices are right. HOWELL & JONES Reliable Druggists Chambers Howell Lina E. Jones

DEPUTY CLERK RESIGNS.—Mr. L. W. Ingram, who has served as deputy under Clerk Sleight since that gentleman assumed office, tendered his resignation and retired from official duty Tuesday. Mr. Ingram expects to engage in business for himself shortly. His successor was appointed immediately, the appointee being Fred Greenman, of this city, a young man thoroughly equipped with knowledge in that line to make an efficient assistant in the office. Mr. Greenman's friends are pleased to learn of his good fortune. His appointment was confirmed by the board of commissioners Wednesday forenoon, and he entered at once upon his duties.

W. H. ANDRUS DEAD.—W. H. Andrus, a pioneer resident of Oregon, died Wednesday evening of heart failure, at Good Samaritan Hospital in Portland. Mr. Andrus had been ailing for some time, and for several weeks had been confined to the hospital, where the best of medical aid failed to restore him to health. He was 65 years old. His wife died in 1886, and his only living relative is his daughter, Mrs. O. W. Eastman, of this city. The funeral will be held this morning, from Holman's undertaking establishment, Portland.

CASTORIA. The Kind You Have Always Bought. Bears the Signature of J. C. Fletcher. ASK Druggist for 10 CENT TRIAL SIZE. Ely's Cream Balm. Gives Relief at once. It cleanses, soothes and heals the diseased membrane. It cures Catarrh and drives away a Cold in the Head quickly. It is absorbed. Heals and Protects the Membrane.
