A GOOD TIME TO BUY

While the carpenters and painters are busy converting our two stores into one, we will be busy cutting the price on every cuttable article in them. We have always had what we considered two good stores, and now we propose to have ONE a good deal better. The antique front will be altered and the partition taken out. While this is going on we propose making such prices as will more than make up to our customers for inconvenience caused by these changes.

Rubber Goods

Every article in the Rubber Goods department is cut so deep that you can afford to throw away the old leaky things and buy new ones.
