Frank Bullard has built a new kitchen and wood house, and has added greatly to the value and beauty of his home by repainting his home white.

W. V. Dickerson began hop-picking in his yard Tuesday. Forty cents to an onlooker, that at present prices, owners ought to be generous enough to give 50 cents willingly.

Ely and the surrounding country was well represented Labor Day. Large crowds on foot and horseback, in buggies and wagons, all anxiously hurrying, to be there on time to see the big procession.

W. W. May has purchased Ely Bros. store and out-buildings, the consideration being \$1000 cash. Also the Nickles building, adjoining, where the postoffice is located, for \$70.

Mr. J. W. Curran, of this place, and Miss Boen, of Springwater, were married Wednesday at high noon at the residence of the brides' parents, Rev. A. J. Montgomery, of Portland, officiating. The happy couple took the train the same evening for Pendleton, on a wedding tour.

The new blacksmith is kept busy.

There are a number of men at work on the site of the power plant, clearing the grounds and putting up new buildings. People are greatly pleased over the prospect of the railroad, which the company promises us a ride over by July 1, 1903. I do not know how we old-time webfoot, mossbacks are going to stand all of these new things, but I see already the moss is loosening up and people are getting a different move on, and are talking of new modes of farming and stock-raising, and a number of people are interested in the creamery business, which we are confident will be one of the best enterprises of this county.

How To Gain Flesh

Persons have been known to gain a pound a day by taking an ounce of SCOTT'S EMULSION. It is strange, but it often happens.

Somehow the ounce produces the pound; it seems to start the digestive machinery going properly, so that the patient is able to digest and absorb his ordinary food, which he could not do before, and that is the way the gain is made.

A certain amount of flesh is necessary for health; if you have not got it you can get it by taking

Scott's Emulsion

You will find it just as useful in summer as in winter, and if you are thriving upon it don't stop because the weather is warm.

"I first used Ayer's Sarsaparilla in the fall of 1848. Since then I have taken it every spring as a blood-purifying and nerve-strengthening medicine." S. T. Jones, Wichita, Kans.

If you feel run down, are easily tired, if your nerves are weak and your blood is thin, then begin to take the good old standard family medicine, Ayer's Sarsaparilla. It's a regular nerve lifter, a perfect blood builder.

Ask your doctor what he thinks of Ayer's Sarsaparilla. He knows all about this grand old family medicine. Follow his advice and we will be satisfied. J. C. Ayer Co., Lowell, Mass.

The Yocomb machine will move over to Eagle Creek from near Curriaville, today to do the threshing in that section.

Miss Lillie Hoffmeister has been home for a few days visiting and helping her mother cook for the threshers. She returned to Portland yesterday.

Threshing seems to be the order of the day now in this vicinity. The Doughton and the Heit machines have completed the threshing in the Douglass and Gibson neighborhood, but grain did not turn out as well as expected.

Wiley Douglass had a runaway last Monday, but no serious damage was done. He and David Hoffmeister were out driving with a young horse and buggy, and after the horse had gone a short distance he commenced to run, but not succeeding in getting away from the boys.

COUNCIL PROCEEDINGS.

Lengthy Business Session Was Held Wednesday Evening.

The regular monthly meeting of the common council was held Wednesday evening and a considerable volume of business was transacted. All councilmen save Messrs. Huntley and Sheahan were present. The principal features of the evening's business programme was the introduction of two ordinances, granting franchises for railway purposes. One of these will be referred to here, for convenience, as the Latourette franchise, which had been before the council on another occasion and referred back for amendments. The matter was discussed at considerable length, and finally it was agreed that the council should meet again on the evening of the 17th, when amendments should be introduced and the matter thoroughly discussed.

An ordinance was introduced to grant a franchise to the Oregon Water Power & Railway Company to construct a railway line on Third street, from the Southern Pacific track to the river, also depot privileges. This matter was deferred, to be taken up at a special meeting of the council to be called for next Monday evening by the mayor.

A warrant was ordered drawn for \$100, in favor of the Humane Society, being the city's donation to the fund for purchasing a fountain.

A claim was presented by S. Garde for \$124.10, being the amount expended by him in the arrangement of the anchor which holds the bridge pier to avoid vibration about his new building. The matter was referred to the finance committee to investigate.

Order was made providing for the payment of the new hose recently purchased, the amount being \$880.

The committee on streets and public repairs was instructed to proceed with the repair of the elevated roadway on Main street, near Broughton's mill.

The committee on fire and water was instructed to supply hose and cart for Green Point. The people of that place are to supply the hose and maintain the station at their own expense.

The committee on streets and public property was instructed to exchange the end of an alley extending to Falls View for a parcel of land five feet in width at Fifth street, extending to twenty feet in width at the westerly boundary of the Reddaway property. This land is desired for sidewalk purposes in order to provide better means for ingress and egress for the people of Falls View.

On motion of Councilman Powell a committee of three was appointed to revise the present city charter. The mayor appointed on the committee Councilmen J. W. Powell, R. Koerner and Charles Albright.

The board of water commissioners made application for leave to construct a tank on the bluff, at the corner of Second street and Promenade avenue, tank to have a capacity of from 40,000 to 80,000 gallons, water to be used for cleaning the filters. The matter was referred to the committee on streets and public property.

Bills to the amount of \$1679.59 were ordered paid, of which \$880 was for fire hose.
