

CORRESPONDENCE

Our correspondents will please send in articles before Wednesdays of each week, otherwise it reaches us too late for publication.

Eldorado. Threshing is all done here. Chas. Spence has his barn nearly done. The hops here are very light this season. Fire and hop-picking is all the rage now-a-days. The dance at "Caines" Saturday evening was grand. Chas. Thomas and Sebastian Bany were in our burg Sunday. Don't forget, Charles, that Grandpa Paine has tin on his gate posts. Mrs. A. L. Jones has quite a large "family" during hop-picking. C. Smith has their new residence nearly done. Ed Bowman is boss carpenter. Vera Jones has returned from Aurora, where she has been working the past week. Clyde Smith took Mrs. Ed. Bowman and family to Mr. Ed. Fellows' hop yard Sunday. Adkins' teams were seen in the west end of our burg Monday with timber for Mr. Wolf. Clyde Smith returned Friday from Eastern Oregon. Clyde is a "tin horn buckaro" at present. Chas. Spangler was loser of a lot of fence on Monday, being in range of the fire that passed through our burg. It made a clean sweep as it went.

Ely. Harvey Everhart, of Molalla, was in town Monday. Mahlon Moran, of Portland, came up Tuesday to visit home folks. Mr. Morrow's son is sick with typhoid fever. Dr. Strickland is in attendance. W. W. May is cleaning out his store room, preparing to buy oats and baled hay. A niece and nephew of E. Warner, from Medford, made their uncle a pleasant call Tuesday. Mrs. Everhart and her sister, Mrs. Johnson, returned from the farm at Molalla, Monday evening. Mrs. Johnson left Tuesday evening for Lawrence, Kansas, in response to a telegram informing her of the serious illness of her father. F. A. Ely and Mrs. Ely and Mrs. Evan Williams and daughter, returned last week from a very pleasant outing at Newport. R. Clifford Beattie, of Tacoma, took in the Elks' Carnival, at Portland, last week, and made his grandparents, Mr. and Mrs. Beattie, of Ely, a very pleasant visit, after an absence of seven years. On Monday a fire broke out near Roberts' place, and burned his dwelling and fence and swept across to the Molalla road, near Wm. Dixons', burning his fences and unoccupied house and granary, with 25 or 30 bushels of wheat. Some sheep were badly scorched and some fancy chickens roasted. Sparks from burning trees were carried across the road and ignited in the woods, and the fire continued on toward New Era.

Dover. L. A. Gordon has gone down on the Columbia to work for a shingle mill company. Mrs. Kropf is on the sick list. H. Wolfer, of Aurora, was seen here Friday. F. M. Berry and family left for their Alaska home last week. Dr. Fisher, of Missouri, was visiting friends here Monday. Mrs. S. Hess, of Portland, is staying at her father's, Mr. J. Osterholtz. Charles Wolfer and family, of Redland, are staying with H. Wolfer, picking hops. Mrs. Asa Yoder and her relatives, who are just from the East spent one day last week at David Yoders'. Everyone is very busy picking hops nowadays and all expect to have a small fortune stored away after hop season.

Molalla. The autumn wedding will soon begin. Sheriff Shaver's family are preparing to move to Oregon City. Wm. Everhart will run the J. R. Shaver farm for the next two or four years. Miss Zoe Shaver had the misfortune to throw her ankle out of place last Saturday evening.

Springwater. We are through threshing at Springwater. Howell Bros. threshed 10,000 bushels, Lewellen-Dubois Company 15,000, making 25,000 bushels in Springwater. Miss Ora and George Lewellen have returned from Eastern Oregon, where they went for the former's health, which is not much improved. Fevers are entertained that her lungs are affected. Quite an exciting time was had in Mr. Stibley's pasture the other day. Earl Stibley went to drive up the cows. His dog got after a panther, which ran in the barn and then got the best of the dog, so Earl concluding he had better get a gun and a larger dog, ran across the field and got Mr. Kandle and Mr. Austin and dog, which, after quite an exciting encounter, killed the panther. It was 7 1/2 feet from tip to tip. On Monday the east wind revived fires that were smouldering. Mr. Ridgway had been burning slashings. Fire left in logs was blown across the road, where H. Dubois had been cutting wood, which put the Ridgway buildings in imminent danger. About the same time, fire started where Mr. Carey had been burning straw, but the threshing crew soon subdued the fire, after it burned fifty cords of wood for H. Dubois. The fire has started up near Busch's ranch.

Beaver Creek. Mrs. O. A. Thomas, of Wardner, is visiting the Paney family at present. Abel Thomas has finished his summer task of hauling wood, and says he wants no more of it. Beaver Creek was once more aroused by the long whistling of the Shubel sawmill. Every body quit work and went to the rescue of the buildings. So fast did the fire travel that the people did not have time to rescue their poor animals and many burned to death. Help came as soon as possible. The owners of the buildings were hoppingkicking and knew nothing of the danger of their home. Wm. Moelinks and Edward Hornsauh are the only unfortunate ones to lose their entire home; the rest have only lost their barns and grainaries which were all full of hay and all the fences of the whole neighborhood are entirely burned to the ground. Some have lost as much as \$4000, without any insurance, and the entire loss is estimated at nearly \$18,000. The fire is raging and beyond control, and has no likelihood of stopping until it rains. Misses Annie and Lizzie Perry have returned to Beaver Creek, from where they have been working at Wardner Idaho.

Mother

"My mother was troubled with consumption for many years. At last she was given up to die. Then she tried Ayer's Cherry Pectoral, and was speedily cured." D. P. Jolly, Avoca, N. Y.

No matter how hard your cough or how long you have had it, Ayer's Cherry Pectoral is the best thing you can take. It's too risky to wait until you have consumption. If you are coughing today, get a bottle of Cherry Pectoral at once. Three sizes: 25c, 50c, \$1. All druggists. Consult your doctor. If he says take it, then do as he says. If he tells you not to take it, then don't take it. He knows. Leave it with him. We are willing. J. C. AYER CO., Lowell, Mass.

James Marrs is having a picnic taking parties out in the mountains, locating timber claims on unsurveyed land. The mountain south of here is all taken up to the reserve, queer what they are going to do with it, I do not think they know themselves as they have plenty of fire water with them. If it had not been for the fire we would have finished threshing here on Wednesday.

Again we are blessed or cursed with a forest fire. It broke out this morning and has been raging all day, and tonight at 9 o'clock it has not abated. It is in the green timber, destroying large bodies of it. It burned the Willis buildings, house and barn, also Frank Habbett's buildings. Mr. Bridenstine's place is in danger. They have taken everything out of the house to a place of safety, he being at the hop yards. We can get no help from outside, as Springwater has a small blaze. Threshing stopped. There are but six men left here to protect the property here. It looked probable this morning that Mr. F. Busch's place was in danger, but at present it is all safe. If there is a strong east wind these places are all in danger, as the fire is east of this place.

On Monday the east wind revived fires that were smouldering. Mr. Ridgway had been burning slashings. Fire left in logs was blown across the road, where H. Dubois had been cutting wood, which put the Ridgway buildings in imminent danger. About the same time, fire started where Mr. Carey had been burning straw, but the threshing crew soon subdued the fire, after it burned fifty cords of wood for H. Dubois. The fire has started up near Busch's ranch.

Dixons', burning his fences and unoccupied house and granary, with 25 or 30 bushels of wheat. Some sheep were badly scorched and some fancy chickens roasted. Painless Dentistry AND THE Six-Year Molar. The dotted lines in this cut show the six year permanent molar in position in rear of the baby teeth. One of the things that parents of young children are least informed about in dentistry is the Six-Year Molar. Almost every mother who goes to the dentist with her child in trouble with toothache, contends that it is the first or "baby tooth." This is a sad mistake. The tooth should be looked after and filled, before the teeth are gone beyond repair. This is one of the most important teeth of the mouth, as the regularity of the permanent teeth depends upon its maintenance. It usually comes when the child is about six year old, hence its name, and should by all means be saved and not extracted, for the good of the child in after years.

Teeth Extracted Without Pain. The dotted lines in this cut point to the six year permanent molar in the jaw of an adult after all the permanent teeth are in position.
