VICTORY FOR ORGANIZED LABOR

Work in the Great Coal Mines Will be Resumed Early Next Week—the Conference.

The country hails with delight the announcement which was flashed over the wires from Washington Thursday morning that the great anthracite coal strike is settled at last. A commission of six persons will adjust the differences between the operators and the miners. President Mitchell, of the Miners' Union, will take the necessary measures to call the strike off. The President will urge immediate resumption of mining, and the operators are expected to begin next Monday.

MITCHELL'S STATEMENT.

President Mitchell, of the United Mineworkers, made the following statement early yesterday:

"I have received a telegram from President Roosevelt advising me of the appointment of his arbitration commission. The convention of miners can be held on Saturday at the latest, and can decide to resume work on Monday."

One of the district presidents said: "The strike is as good as called off already. The convention will accept Mr. Mitchell's recommendations and will call the strike off."

Mr. Mitchell was in conference after 3 o'clock Thursday morning with Secretary Wilson and District Presidents Nichols and Fahey regarding his visit to the President.

CONTRELYOU'S STATEMENT.

The following official statement announcing the close of the great coal strike was issued at the White House at 2:20 A. M. Thursday:

"After a conference with Mr. Mitchell, and some further conference with representatives of the coal operators, the President has appointed a commission to inquire into, consider and pass upon all questions at issue between the operators and miners in the anthracite coal fields."

Dies at Extreme Old Age.

A woman who, according to her own report, was living at the time of the Boston Tea Party and the meeting of the First Continental Congress, is dead at the Home for Aged and Infirm Colored People in Chicago. If the reports of her age should be correct, she was the oldest person in Illinois and possibly in the United States. The woman was Ellen Stewart, a slave before the Civil War, three times married, and mother of four children, the last of whom died several years ago of old age. According to her story, she was born in 1779, and consequently was 122 years old. The officials of the institution in which she died, after an investigation as thorough as could be made, credited her statement.

Until within a few months of her death the woman was in complete control of her senses, and told many stories of men and women distinguished in the earlier days of Virginia and Kentucky. She was born in Virginia.

Estimated Postal Expenses.

The estimates forwarded by Postmaster-General Payne to the treasury for the expenses for the entire postal service during the fiscal year ending June 30, 1904 aggregated \$153,010,320. The Postmaster-General estimates that the Post-office department will provide from its own revenues which accrue from postage and other sources \$144,767,664, leaving a deficiency of \$8,242,856 to be provided for out of the general treasury. The appropriations for the fiscal year ending June 30, 1903, aggregated \$138,421,595, making an increase of \$14,588,022 for the following fiscal year. The deficiency for the fiscal year ended June 30 last was \$2,961,183. Among the items in the estimates are the following: Railway mail transportation, \$38,292,000, an increase of approximately \$2,000,000 over the appropriation for the current fiscal year; pay of railway mail clerks, \$11,917,000; carrying mails in foreign countries, etc., \$2,556,000; printing postage stamps, \$376,000 an increase of \$84,000.

LAWS AND DECISIONS.

Several Paragraphs of Information Worth Remembering.

LAW OF THE ROAD.

In meeting another you should turn to the right of the middle of the traveled road; and if you overtake another you should usually pass on the left of the party overtaken, yet if the way be apparently clear you may take either side. The person overtaking and passing another will be liable for all damages that occur unless the injury be caused by the fault of the other party.

LIGHTS AND BELLS ON BICYCLES.

The Oregon Session Laws of 1901, page 102, section 9, require every bicycle, when ridden, to be provided with a bell, and at night that it shall be provided with a sufficient light to be easily distinguishable. Bicycle riders should take heed, as the law applies to the country as well as to cities and towns.

SALE OF STOCKS OF GOODS IN BULK.

Before there can be a valid sale of a stock of goods, wares or merchandise in the bulk, the person selling shall at least five days before the sale consummated make and deliver under his oath to the purchaser a list of his creditors and their addresses. And the purchaser shall five days before paying any part of the purchase price to notify each creditor of the contemplated purchase. Oregon Session Laws 1901, page 302.

STANDARD BUSHEL BY WEIGHT.

The following weights of a bushel were established by the last legislature of Oregon, viz: 60 lbs., wheat, clover seed or potatoes, 46 lbs., barley, rye or Indian corn; 32 lbs., oats; 42 lbs., buckwheat; 28 lbs., dried apple or peaches; and 45 lbs., apples or pears.

INTEREST AND RULE FOR COMPUTING.

In Oregon the legal rate of interest is 6 per cent, but parties may agree upon any rate not exceeding 15 per cent per annum.

Where a payment is made, and it equals or exceeds the amount of the interest then accrued on the debt the interest should be computed, up to the time of such payment, and added to the amount of such debt and from said sum deduct the amount of the payment, and the amount remaining constitutes a new principal. But if the partial payment be less than the accrued interest, the principal must be carried forward until the additional payments together with such payment will equal or exceed the accrued interest.

TO HELP THE CAUSE

Senator Brownell Will Look After Legislation

FOR THE PROTECTION OF FORESTS

He Has Prepared a Bill to Regulate the Setting of Fires in Timber and Slashings.

State Senator George C. Brownell has prepared a bill to regulate the setting of fires in timber and during slashing time in the state, and will present it at the coming session of the Oregon legislature. The enormous loss of timber and the suffering of people this year caused by the fires have led Senator Brownell to prepare the bill. Speaking of the matter, he said:

"On account of the great timber interests in the state, when we stop to think that the revenue derived from the timber business of Oregon exceeds that of wheat, and the vast number of people employed in this great industry and the large amount of capital invested in the lumber and timber interests, it is about time that some stringent law relating to the indiscriminate setting fire to slashings by settlers, campers, loggers and others should be enacted at the coming session of the Oregon legislature."

"I have prepared a bill that I hope may cover the case and meet the emergency, which I intend to introduce in the coming legislature. When we think of the great suffering caused to farmers and property owners by the fires that occurred a few weeks ago at Springwater, in this county, to say nothing about the enormous loss and sufferings caused in Oregon and in our neighboring state of Washington, it seems to me that the time has come to act, and in such a way as to shut off this practice of lighting and building fires wherever a party takes a notion to do so."

"I do not think fires should be set out during the months of July, August and September at all. If they are, a party should not set out a fire without filing some sort of statement of that fact before the justice of the peace of his precinct, and getting permission therefor, and all property owners and neighbors living in the vicinity should be notified. In this way danger could be largely minimized."
