## Won't You Write Us a Letter?

Perhaps you are so situated that it is not convenient for you to come to our store in person as often as you would like to do. We are taking it for granted that you are aware of the many advantages enjoyed by those who favor us in their buying, and that you would come to the store more frequently if you could do so. Of course, we want you to come as often as you can, but the fact that you may not be able to come just at the time you want something we sell need not hinder you from buying the same.

### HOW? BY MAIL.

If you will write us a full description of the article you want, your letter will be taken in charge by the proper department, and an earnest, conscientious effort will be made to select for you just exactly the article that will suit you best.

We haven't any catalogues; catalogues cost a lot of money and the cost must be added to the selling price of the goods. Tell us just what you want—don't confine yourself to articles shown in a catalogue—tell us how much you want to pay and you'll get the greatest possible value for your money.

There isn't any risk to you in doing business by mail. We take the risk of your money reaching us safely, and we take the risk of our goods satisfying you perfectly.

Another point—every mail order is filled and shipped the day it is received—often by return mail.

So you have our big, busy, complete store right handy—as near to you as your mail box. If you haven't tried shopping by mail before now, let us persuade you to make at least one experiment. Be sure that your letter is addressed to
